Julius Caesar defeated Germanic tribes, 55 and 53 BCE, but Roman expansion north of the Rhine was stopped in 9 CE. Charlemagne, ruler of the Franks, consolidated Saxon, Bavarian, Rhenish, Frankish, and other lands; after him the eastern part became the German Empire. The Thirty Years' War, 1618-48, split Germany into small principalities and kingdoms.

Otto von Bismarck, Prussian chancellor, formed the North German Confederation, 1867. In 1870 Bismarck maneuvered Napoleon III into declaring war. After the quick defeat of France, Bismarck formed the German Empire and on Jan. 18, 1871, in Versailles, proclaimed King Wilhelm I of Prussia the German emperor (Deutscher kaiser).

The German Empire reached its peak before WWI in 1914, with 208,780 sq mi, plus overseas colonies. After losing the war in 1918, Germany ceded Alsace-Lorraine to France, West Prussia and Posen (Poznan) province to Poland, and part of Schleswig to Denmark. It lost all colonies and the ports of Memel and Danzig.

Republic of Germany, 1919-33, adopted the Weimar constitution; met reparation payments and elected Friedrich Ebert and Gen. Paul von Hindenburg presidents.

Third Reich, 1933-45: Adolf Hitler led the National Socialist German Workers' (Nazi) party after WWI. Pres. von Hindenburg named Hitler chancellor in 1933; on Aug. 3, 1934, the day after Hindenburg's death, the cabinet joined the offices of president and chancellor and made Hitler *führer* (leader). Hitler abolished freedom of speech and assembly, and began a long series of persecutions culminating in the murder of millions of Jews and others in the Holocaust.

He repudiated the Versailles treaty and reparations agreements, remilitarized the Rhineland (1936), and annexed Austria (Anschluss, 1938). At Munich he made an agreement with British Prime Min. Neville Chamberlain, which permitted Germany to annex part of Czechoslovakia. He declared war on Poland Sept. 1, 1939, precipitating WWII. With total defeat near, Hitler committed suicide in Berlin Apr. 1945. The victorious Allies voided all acts and annexations of Hitler's Reich.

Germany was sectioned into four zones of occupation, administered by the Allied Powers (U.S., USSR, UK, and France). The USSR took control of many E German states. The territory E of the so-called Oder-Neisse line was assigned to, and later annexed by, Poland. The USSR annexed Northern East Prussia (now Kaliningrad). Greater Berlin, within but not part of the Soviet zone, was administered by the four occupying powers under the Allied Command. In 1948 the USSR withdrew, established its single command in East Berlin, and cut off supplies. The Western Allies utilized a gigantic airlift to bring food to West Berlin, 1948-49.

In 1949, two separate German states were established. The zones administered by the Western Allies became West Germany; the Soviet sector became East Germany. West Berlin was considered a West German enclave, a status the Soviet bloc disputed.

East Germany. The German Democratic Republic (East Germany) was proclaimed in the Soviet sector of Berlin Oct. 7, 1949.

It was declared fully sovereign in 1954, but Soviet troops remained.

Coincident with the entrance of West Germany into the European defense community in 1952, the East German government decreed a prohibited zone 3 mi deep along its 600-mi border with West Germany. East Germany also erected a fortified wall dividing Berlin in 1961, after over 3 mil East Germans had fled to the West. The oppressive Communist regime maintained control through the state security police, known as the Stasi.

By the early 1970s, the economy of East Germany was highly industrialized, and the nation was credited with the highest standard of living among Warsaw Pact countries. Growth slowed in the late 1970s because of shortages of natural resources and labor and huge debt. Comparison with the lifestyle in the West caused many young people to emigrate.

In the late 1980s the government firmly resisted following the USSR's policy of openness (*glasnost*) but was faced with nationwide demonstrations demanding reform. Pres. Erich Honecker, in office since 1976, was forced to resign Oct. 18, 1989. On Nov. 9, the East German government announced its decision to open the border with the West, signaling the end of the Berlin Wall. On Aug. 23, 1990, the East German parliament agreed to reunite with West Germany.

West Germany. The Federal Republic of Germany (West Germany) was proclaimed May 23, 1949, in Bonn. The occupying powers—the U.S., Britain, and France—restored civil status, Sept. 21. The Western Allies ended the state of war with Germany in 1951, while the USSR did so in 1955. The republic became fully independent May 5, 1955. The U.S. maintained military bases.

Dr. Konrad Adenauer, a Christian Democrat, was made chancellor 1949 and was reelected 1953, 1957, and 1961. Willy Brandt, heading a coalition of Social Democrats and Free Democrats, became chancellor 1969 and pursued a policy of *Ostpolitik*, or rapprochement with East Germany and the USSR. Brandt resigned May 1974 after a spy scandal. Terrorist acts on German soil in the 1970s included activities of the Baader-Meinhof gang, also known as the Red Army Faction, and the murder of Israeli

athletes by Palestinian commandos at the Olympic Games in Munich, Sept. 5, 1972.

Helmut Kohl became chancellor in 1982 and led the Christian Democratic Union (CDU) and its Bavarian sister party Christian Social Union (CSU) to victory in 1983 and 1987.

Unified Germany. In May 1990, NATO ministers voted to make the united Germany a full member of NATO and barred the new Germany from having its own nuclear, chemical, or biological weapons. The merger of the two Germanys took place Oct. 3, and the first all-German elections since 1932 were held Dec. 2, with Kohl confirmed as leader of the unified nation. Eastern Germany received over \$1 tril in public and private funds from western Germany, 1990-95. In 1991, Berlin again became Germany's official capital; the Bundestag (parliament) relocated from Bonn to Berlin in 1999. The Christian Democrats lost parliamentary elections, Sept. 27, 1998, and Gerhard Schröder, of the Social Democratic Party (SPD), became chancellor. The Christian Democrats, led by Angela Merkel, won a razor-thin plurality in 2005 parliamentary elections, and she became chancellor Nov. 22, heading a "grand coalition" that included the SPD.

Responding to the global recession, the government passed a 50-bil euro economic stimulus plan in early 2009. Merkel led a center-right coalition to victory in 2009 national elections. Merkel led the response to the European debt crisis beginning in late 2009; debtor nations were required to adopt stern austerity measures.

Merkel's Christian Democrats won Sept. 22, 2013, parliamentary elections but fell short of a majority. She formed a new coalition, including the SPD, in Dec.

Germany was the destination in 2015-16 for many migrants reaching Europe after fleeing war or hardship in the Middle East, SW Asia, or Africa; it also received, in 2015, large numbers of migrants from the Balkans. More than 1.2 mil migrants applied for asylum, 2015-16. Germany provided temporary care, set up expedited procedures for asylum applicants, and began repatriating migrants judged not to be refugees. Germany played a key role in negotiating a Mar. 2016 EU-Turkey agreement to stem the flow of migrants to

Europe. In an attack for which ISIS claimed responsibility, a Tunisian migrant killed 12 when he stole a truck and drove it into a crowded Berlin outdoor market, Dec. 19, 2016.

Legislation legalizing same-sex marriage was signed into law by Germany's president, July 21, 2017.

Merkel's CDU/CSU won a plurality in Sept. 24, 2017, elections; the far-right, anti-immigration Alternative for Germany (AfD) party won 12.6% of the vote. Merkel reached agreement, Feb. 2018, on a new coalition with the SPD. Far-right protests and rioting in Chemnitz in Aug. included attacks on apparent immigrants.

A study commissioned by the German Catholic Church, released Sept. 2018, found evidence that more than 3,600 children had been sexually abused, 1946-2014, by over 1,600 members of the clergy.

German Defense Min. Ursula von der Leyen became, Dec. 1, 2019, the first woman to head the European Commission.

In Sept. 26, 2021, parliamentary elections, the SPD increased its vote share and outpolled the CDU/CSU, with the Greens and center-right Free Democrats also increasing their support (AfD won about 10% of the vote). SPD leader Olaf Scholz formed a coalition with the Greens and Free Democrats; he became chancellor Dec. 8.

Heavily dependent on Russian energy imports, Germany joined EU sanctions against Russia over its 2022 invasion of Ukraine. Germany also blocked the opening of a new natural gas pipeline (Nord Stream 2) from Russia, Feb. 22, 2022, and announced, Apr. 20, it would end Russian oil imports by the end of the year. As of Sept. 2022, about 1 mil Ukrainian refugees had entered Germany, of whom 656,000 had been given protected status by the government.

Severely affected by the COVID-19 pandemic, Germany had recorded about 31.8 mil cases by Aug. 22, 2022, 5th-highest in the world; over 146,000 had died.

Helgoland, an island of 0.66 sq mi in the North Sea, was taken from Denmark by a British naval force in 1807 and ceded to Germany in 1890. The island was surrendered to the UK, May 23, 1945, and returned to then-West Germany, Mar. 1, 1952.

Named for an African empire along the Niger R., 400-1240 CE, Ghana was ruled by Britain for 113 years as the Gold Coast. The UN in 1956 approved merger with the British Togoland trust territory. Independence came Mar. 6, 1957, and republic status within the Commonwealth in 1960.

Pres. Kwame Nkrumah built hospitals and schools and promoted development projects but ran the country into debt, jailed opponents, and was accused of corruption. A 1964 referendum gave Nkrumah dictatorial powers and set up a one-party socialist state. A police-army coup overthrew Nkrumah in 1966. Elections were held in 1969, but four further coups occurred in 1972, 1978, 1979, and 1981. A new constitution, allowing multiparty politics, was approved in Apr. 1992. Former coup leader Jerry Rawlings won the 1996 presidential election.

Opposition leader John Agyekum Kufuor won a 2000 runoff vote and was sworn in Jan. 7, 2001, marking Ghana's first peaceful transfer of power from one elected president to another. With unemployment high, incumbent John Dramani Mahama lost to Nana Addo Dankwa Akufo-Addo in the Dec. 7, 2016, presidential election. Akufo-Addo won reelection, Dec. 7, 2020.

The achievements of ancient Greece in art, architecture, science, mathematics, philosophy, drama, literature, and democracy became legacies for succeeding ages. Greece reached the height of its power, particularly in the Athenian city-state, in the 5th cent. BCE. Greece fell under Roman rule in the 2nd and 1st cents. BCE. In the 4th cent. CE, it became part of the Byzantine Empire and, after the fall of Constantinople to the Turks in 1453, part of the Ottoman Empire.

Greece won its war of independence from Turkey, 1821-29, and became a kingdom. A republic was established 1924; the monarchy was restored, 1935. In Oct. 1940, Greece rejected an ultimatum from Italy, but the country was defeated and occupied by German, Italian, and Bulgarian forces. By the end of 1944 the invaders withdrew. Communist resistance forces were overcome by Royalist and British troops. A plebiscite restored the monarchy.

Communists waged guerrilla war 1947-49 against the government but were defeated with the aid of the U.S. A period of reconstruction and rapid development followed, mainly with conservative governments under Prem. Constantine Karamanlis. The Center Union, led by Georgios Papandreou, won elections in 1963 and 1964, but King Constantine forced Papandreou to resign. A period of political maneuvers ended with Col. George Papadopoulos's military takeover Apr. 1967. King Constantine tried to reverse the consolidation of the harsh dictatorship, Dec. 1967, but failed and fled to Italy. Papadopoulos was ousted Nov. 1973.

Greek army officers serving in the Cyprus National Guard staged a coup on the island July 15, 1974. Turkey invaded Cyprus a week

later, precipitating the collapse of the Greek junta. Democratic government returned, and in 1975 the monarchy was abolished.

The 1981 electoral victory of the Panhellenic Socialist Movement (Pasok) of Andreas Papandreou (Georgios's son) substantially changed Greece's internal and external policies. A scandal contributed to the 1989 defeat of the Socialists at the polls. Papandreou, who was acquitted Jan. 1992 of corruption charges, led the Socialists to a comeback victory in 1993 general elections. The Socialists retained power in 1996 and 2000 elections.

The conservative New Democracy (ND) party won 2004 parliamentary elections, and Konstantinos (Costas) Karamanlis became prime min. Beset by scandals and an ailing economy, Karamanlis called early elections for Oct. 4, 2009, won by Pasok under the leadership of the U.S.-born George A. Papandreou (Andreas's son). The IMF and eurozone countries agreed in 2010 on a 110-bil euro loan package to prevent Greece from defaulting on its debt; in return, Greek leaders implemented an austerity plan. As the debt crisis continued, parliament passed, amid violent anti-austerity protests, new austerity measures, Feb. 2012, to obtain a second, 130-bil euro bailout in Mar. The conservative, pro-bailout Antonis Samaras of ND became prime min., June 2012. Recession and austerity measures, 2007-13, caused Greece's GDP to shrink by 26%. In 2014, 36% of people lived below the poverty line.

Campaigning against austerity, the leftist Syriza party won Jan. 25, 2015, elections. Syriza's Alexis Tsipras became prime min. and negotiated for a third bailout. In a July 5 referendum, Greek voters decisively rejected further austerity. However, negotiations after the referendum produced an 86-bil euro bailout agreement with tough austerity terms—including further tax increases and pension cuts. As austerity measures were implemented, unemployment was over 20% in 2016 and 2017. After negotiating extended debt repayment, Greece exited the bailout program, Aug. 20, 2018, but was still subject to international supervision of government finances. Hurt by continued austerity, Syriza lost July 7, 2019, elections to ND, and Kyriakos Mitsotakis became prime min. Elected by parliament, Jan.

22, 2020, Ekaterini Sakellaropoulou took office, Mar. 13, as Greece's first woman president.

In 2015, more than 861,000 migrants from the Middle East, SW Asia, and Africa trying to reach the EU arrived in Greece. A 2016 EU-Turkey agreement reduced the number of undocumented migrants reaching Greece. About 374,000 arrived from 2016 to mid-Sept. 2022. Most migrants tried to continue to N Europe. However, about 90,000 migrants were in Greece in 2022, some living in harsh conditions in refugee camps. Greece has been accused in recent years of forcibly preventing migrants from entering the country and of forcing out some who had arrived.

Amid heat waves in summer 2021 and 2022, wildfires devastated hundreds of thousands of acres.

Greece's tourism and other economic sectors were severely affected by the COVID-19 pandemic; GDP declined 9% in 2020 before rebounding the next year.

Christopher Columbus sighted Grenada in 1498. The first European settlers were French, 1650. The island was held alternately by France and England until final British occupation, 1784. Grenada became fully independent Feb. 7, 1974, during a general strike.

On Oct. 14, 1983, a military coup ousted Prime Min. Maurice Bishop, who was executed Oct. 19. A largely U.S. force invaded Grenada, Oct. 25. Resistance from the Grenadian army and Cuban advisors was quickly overcome, and U.S. troops left Grenada in June 1985.

Hurricane Ivan slammed into Grenada, Sept. 7, 2004, killing 39 and damaging an estimated 90% of the buildings. The center-right New National Party (NNP) won 2013 and 2018 legislative elections.

In June 23, 2022, elections, the center-left National Democratic Congress (NDC) defeated the NNP. The NDC's Dickon Mitchell became prime min., June 24, 2022.

The Guatemalan government and leftist rebels signed a peace accord Dec. 29, 1996. During more than 35 years of armed conflict, some 200,000 people were killed or “disappeared” most casualties were attributed to the government and its paramilitary allies. Gen. Guinea, a French colony, attained independence Oct. 2, 1958. Sékou Touré, Guinea's first president (1958-84), turned to Communist nations for support and set up a one-party state. Thousands of opponents were jailed and tortured, and many were killed in the 1970s after an unsuccessful Portuguese invasion.

The military took control in a bloodless coup after the Mar. 1984 death of Touré. A new constitution was approved in 1991, but movement toward democracy was slow. Gen. Lansana Conté, the incumbent, won a long-awaited presidential election in Dec. 1993, which outside monitors called flawed. Conté won reelection in 1998.

Major opposition parties boycotted the 2003 presidential election, in which the ailing Conté won 95.6% of the vote. More than 120 died in Jan.-Feb. 2007 strikes and protests that pressured Conté to name a new prime min.; protests followed Prime Min. Lansana Kouyate's ouster by Conté in May 2008. After Conté's death Dec. 22, a military junta took power. More than 150 people were reportedly killed Sept. 28, 2009, when Guinean troops fired into a crowd of about 50,000

anti-government protesters in Conakry. After an assassination attempt Dec. 3, 2009, by a former aide left Pres. Moussa Dadis Camara seriously wounded, Vice Pres. Sékouba Konaté became interim head of state.

Presidential elections June-Nov. 2010 brought a civilian government headed by Alpha Condé to power. He won reelection, Oct. 11, 2015. A new constitution, approved in a Mar. 22, 2020, referendum boycotted by the opposition, permitted Condé to seek a third term. He won a disputed Oct. 18, 2020, election. Demonstrations before and after election day left dozens dead. Condé was ousted in a Sept. 5, 2021, military coup led by Col. Mamady Doumbouya, who suspended the constitution and set up a transitional government.

The largest known outbreak of Ebola virus disease (EVD) began in Guinea in Dec. 2013 and spread rapidly to Liberia and Sierra Leone. The WHO lifted its public health emergency in West Africa, Mar. 29, 2016. By June 10, 2016, the WHO had recorded 28,616 EVD cases in the 3 countries (including 3,814 in Guinea) and 11,310 deaths (2,544 in Guinea).

Portuguese mariners explored the area in the mid-15th cent.; the slave trade flourished in the 17th and 18th cents., and colonization began in the 19th. Independence came Sept. 10, 1974, ending 13 years of guerrilla warfare against the Portuguese regime.

Haiti, visited by Christopher Columbus in 1492 and a French colony from 1697, attained its independence, 1804, following a rebellion led by formerly enslaved Toussaint L'Ouverture. After a period of political violence, the U.S. occupied the country 1915-34.

François Duvalier, known as Papa Doc, was elected president in 1957; in 1964 he was named president for life. Upon his death in 1971, he was succeeded by his son, Jean Claude Duvalier, known as Baby Doc. Following weeks of unrest, Jean Claude fled Haiti aboard a U.S. Air Force jet Feb. 7, 1986. His departure ended the Duvalier family's brutal 28-year dictatorship, but political violence, corruption, poverty, AIDS, and other health problems have continued to plague Haiti.

Jean-Bertrand Aristide was elected president in 1990, but the military arrested and expelled him from the country in Sept. 1991. The U.S. Coast Guard intercepted some 35,000 Haitian refugees as they tried to enter the U.S., 1991-92. Most were returned to Haiti. There was a new upsurge of refugees starting in late 1993.

The UN authorized in 1994 an invasion of Haiti by a U.S.-led multinational force. A full-scale invasion was averted, Sept. 18, when military leaders agreed to step down. Aristide was restored to office Oct. 15. A UN peacekeeping force exercised responsibility in Haiti from 1995 to 1997. Aristide transferred power to his elected successor, René Préval, in 1996.

Aristide won the 2000 presidency in an election boycotted by opposition groups. An armed uprising in early 2004 and pressure from France and the U.S. toppled Aristide, who went into exile Feb. 29. A U.S.-led contingent, sent in after the upheaval, yielded authority June 1, 2004, to a UN stabilization force (MINUSTAH). MINUSTAH's mission ended Oct. 15, 2017.

Préval was again elected president in 2006. Skyrocketing prices for food imports sparked riots and mass protests in Apr. 2008. A succession of hurricanes and tropical storms, Aug.-Sept. 2008, left more than 550 Haitians dead and up to 1 mil homeless.

An earthquake Jan. 12, 2010, near Port-au-Prince caused cataclysmic damage. More than 220,000 people were killed, at least 300,000 were injured, and more than 1.5 mil were left homeless. In the following years, rebuilding proceeded slowly. A severe cholera epidemic began soon after the 2010 earthquake. By 2018 the number of new cases had dropped sharply, but through 2018, about 820,000 total cases had been reported and almost 9,800 people had died. The UN publicly acknowledged responsibility for the epidemic Dec. 1, 2016.

Michel Martelly, an entertainer, won a Mar. 20, 2011, presidential runoff election. After allegations of widespread fraud in the Oct. 25, 2015, first-round election for a new president, an electoral commission ruled that the balloting should be held again. The Nov. 20, 2016, re-vote was won by businessman Jovenel Moise. Protests, against corruption and economic hardship (and calling for Moise's resignation), occurred in 2019; Oct. legislative elections were postponed. Gang violence and anti-government protests plagued Haiti in early 2021. Pres. Moise was assassinated, July 7, 2021, apparently by Colombian mercenaries; assistance by government personnel or others was suspected, and investigations were launched. On July 20, 2021, Ariel Henry, designated by Moise shortly before the assassination to become prime minister, took office as prime minister and acting president. A powerful earthquake, Aug. 14, 2021, in SW Haiti killed more than 2,200 and caused widespread damage and suffering. Gang violence and kidnappings for ransom intensified in late 2021 and 2022. Fuel shortages and soaring prices sparked protests in 2022.

Impacted by the COVID-19 pandemic, Haiti by Aug. 22, 2022, had vaccinated only 2% of the pop.

Mayan civilization flourished in Honduras in the 1st millennium CE. Columbus arrived in 1502. Honduras became independent after freeing itself from Spain, 1821, and from the Fed. of Central America, 1838.

In 1975, the army ousted Gen. Oswaldo Lopez Arellano, president for most of the time since 1963, over charges of pervasive bribery by United Brands Co. of the U.S. An elected civilian government took power in 1982.

Hurricane Mitch, Oct. 1998, killed at least 5,600.

Juan Orlando Hernández of the conservative National Party won the Nov. 2013 presidential election. After the Supreme Court, 2015, struck down presidential term limits, Hernández won reelection, Nov. 26, 2017.

Honduras has become a transshipment point for illegal drugs being smuggled to the U.S. Pres. Hernández's brother was convicted in the U.S, Oct. 18, 2019, of drug-related crimes. Drug-gang violence and other crime apparently contributed to an increase in Honduran migrants and asylum seekers trying to enter the U.S. along the Mexican border, 2013-22.

In Mar. 2016, environmental activist Berta Cáceres was shot to death, a murder apparently ordered by a company facing delays on a dam project. The NGO Global Witness estimated in mid-2017 that more than 120 environmental activists or opponents of land seizures for development had been killed since 2009.

Leftist Xiomara Castro defeated the National Party candidate in the Nov. 28, 2021, election to become Honduras's first woman president. Former Pres. Hernández was extradited to the U.S., Apr. 21, 2022, to face drug charges.

Earliest settlers, chiefly Slav and Germanic, were overrun by Magyars from the east. Stephen I (997-1038) was made king by Pope Sylvester II in 1000 CE. The country suffered repeated Turkish invasions in the 15th-17th cents. After the Turks were defeated, 1686-97, Austria dominated, but Hungary obtained concessions, and regained internal independence in 1867 under a dual monarchy with the emperor of Austria. Defeated with the Central Powers at the end of WWI in 1918, Hungary lost Transylvania to Romania, Croatia and Bacska to Yugoslavia, and Slovakia and Carpatho-Ruthenia to Czechoslovakia. All had large Hungarian minorities. A republic under Michael Karolyi and a Bolshevist revolt under Bela Kun were followed by a vote for a monarchy in 1920 with Adm. Nicholas Horthy as regent.

Hungary allied with Germany before WWII and was allowed to annex, 1938-41, most of its lost territories. Russian troops captured the country, 1944-45. Hungary returned to its borders of 1937.

A republic was declared Feb. 1, 1946. In 1947 a hard-line Communist, pro-Soviet government was installed. Demonstrations against Communist rule developed into open revolt in 1956. Soviet forces launched a massive attack Nov. 4 against Budapest. About 200,000 persons fled the country. Thousands were arrested and executed.

Major economic reforms were launched early in 1968, switching from a central planning system to one based on market forces and profit. In 1989 Parliament legalized freedom of assembly and association as Hungary shifted away from Communism. In Oct. the Communist Party was formally dissolved. The last Soviet troops left June 19, 1991. Hungary became a full member of NATO in 1999 and of the EU in 2004.

The center-right Fidesz party ousted the Socialists in 2010 parliamentary elections, and Viktor Orbán became prime min. A

fiscally and socially conservative constitution went into force Jan. 1, 2012. Fidesz won Apr. 6, 2014, elections.

Hungary was a major transit route in 2015 for migrants from the Balkans, SW Asia, the Middle East, and Africa trying to reach N Europe; more than 411,000 migrants entered or tried to enter Hungary by the end of Oct., when Hungary completed more than 300 mi of security fencing along its southern border. The government refused to participate in a 2015 EU refugee resettlement program.

After an anti-immigration campaign, Fidesz increased its majority in Apr. 8, 2018, voting. The EU in 2018 began consideration of disciplinary measures against Hungary, in part over limits on press and other freedoms. Dec. 2018 Hungarian legislation limited judicial independence. Legislation in 2020 and 2021 repealed legal rights of transgender people and restricted information about gay people in educational materials or media for minors. The EU, in 2021, began withholding grant payments to Hungary.

Elected by parliament, Mar. 10, 2022, Fidesz's Katalin Novák became Hungary's first woman president. Benefitting from gerrymandering and media control, Fidesz won Apr. 3, 2022, elections. Citing Russia's Feb. 2022 invasion of Ukraine, Orbán declared a state of emergency, May 24, expanding his powers. High inflation and declining currency values plagued the economy in 2022.

Severely impacted by the COVID-19 pandemic, Hungary had recorded about 2 mil cases and 47,000 deaths by Aug. 22, 2022; per capita deaths were among the highest in the world.

Iceland was an independent republic from 930 to 1262, when it joined with Norway. Its language has maintained its purity for 1,000 years. The Althing, or assembly, established in 930, is the world's oldest surviving parliament. Danish rule lasted 1380-1918; the last ties with the Danish crown were severed in 1944.

Iceland's banking system and currency collapsed amid the global financial crisis in Oct. 2008. More than \$10 bil in loans from the IMF and European governments restored financial stability; austerity measures were imposed, and the nation entered a deep recession. An Apr. 2010 eruption of the Eyjafjallajökull volcano disrupted European air traffic. Following Oct. 28, 2017, elections, Katrin Jakobsdottir of the Left-Green Movement became prime min., forming a coalition with center-right parties. The parties in Jakobsdottir's coalition won a majority in Sept. 25, 2021, elections.

Iceland had recorded nearly 204,000 COVID-19 cases as of Aug. 22, 2022 (a case count equivalent to more than 55% of the pop.).

Iceland's glaciers have been shrinking, an apparent effect of climate change.

India has one of the oldest civilizations in the world. Excavations trace the Indus Valley civilization back for at least 5,000 years. Paintings in the mountain caves of Ajanta, richly carved temples, the Taj Mahal in Agra, and the Kutab Minar in Delhi are among treasured relics of the past.

Aryan tribes, speaking Sanskrit, invaded from the NW around 1500 BCE. Asoka ruled most of the Indian subcontinent in the 3rd cent. BCE and established Buddhism. But Hinduism revived and eventually predominated. Under the Guptas, 4th-6th cent. CE, science, literature, and the arts enjoyed a golden age. Arab invaders established a Muslim foothold in the west in the 8th cent., and Turkish Muslims gained control of North India by 1200. The Mughal emperors ruled 1526-1857.

Vasco da Gama established Portuguese trading posts 1498-1503. The Dutch followed. The British East India Co. sent Capt. William Hawkins, 1609, to get concessions from the Mughal emperor for spices and textiles. Operating as the East India Co., the British gained control of most of India. The British parliament assumed political direction; under Lord Bentinck, 1828-35, rule by rajahs (princes) was curbed. After the Sepoy troops mutinied, 1857-58, the British supported the native rulers.

Nationalism grew after WWI. The Indian National Congress and the Muslim League demanded constitutional reform. A leader emerged in Mohandas K. Gandhi (called Mahatma, or Great Soul) (b. Oct. 2, 1869), who advocated self-rule, nonviolence, and an end to caste discrimination against “untouchables.” In 1930 he launched a program of civil disobedience, boycotting British goods and

rejecting taxes without representation. He was assassinated Jan. 30, 1948.

In 1935, Britain gave India a constitution providing a bicameral federal congress. Muhammad Ali Jinnah, head of the Muslim League, sought creation of a Muslim nation, Pakistan.

The British government partitioned British India into the dominions of India and Pakistan. India became a member of the UN in 1945, a self-governing member of the Commonwealth in 1947, and a democratic republic, Jan. 26, 1950. More than 12 mil Hindu and Muslim refugees crossed the India-Pakistan borders in 1947; about 200,000 were killed in communal fighting.

After Pakistan troops began attacks on Bengali separatists in East Pakistan, Mar. 25, 1971, some 10 mil refugees fled to India. India and Pakistan went to war Dec. 3, 1971, on both the east and west fronts. Pakistan troops, Dec. 16, surrendered in the east, which became Bangladesh; Pakistan agreed to a cease-fire in the west Dec. 17.

Indira Gandhi, India's prime minister since Jan. 1966, invoked emergency powers in June 1975. Thousands of opponents were arrested and press censorship imposed. These and other actions, including population control through forced vasectomies, were widely resented. Opposition parties, united in the Janata coalition, won the 1977 elections.

Gandhi became prime minister for the second time in 1980. She was assassinated by two of her Sikh bodyguards Oct. 31, 1984, in response to the government suppression in June 1984 of a Sikh uprising in Punjab, which included an assault on the Golden Temple at Amritsar, the holiest Sikh shrine. Widespread rioting followed the assassination; thousands of Sikhs were killed and some 50,000 left homeless. Rajiv, Indira Gandhi's son, replaced her as prime min. A gas leak at a Union Carbide chemical plant in Bhopal, Dec. 1984, eventually killed some 14,000 people.

Many died in religious, ethnic, and political conflicts during the late 1980s and early '90s. To suppress the Sikh insurgency in Punjab, Indian government troops attacked the Golden Temple again in 1988. Rajiv Gandhi, swept from office in 1989, was assassinated

May 21, 1991. Nationwide riots followed the destruction of a 16th-cent. mosque in Ayodhya by Hindu militants in Dec. 1992. Ethnic clashes in Assam, in NE India, killed thousands in Feb. 1993. Bombs jolted Mumbai and Kolkata, Mar. 12-19, killing over 300.

India conducted a series of nuclear tests in mid-May 1998, raising tensions with Pakistan. India blamed Pakistani-sponsored terrorist groups for an Oct. 1, 2001, suicide attack on the state legislature in Jammu and Kashmir (see below), in which at least 40 people died, and a Dec. 13 assault on the Indian parliament in New Delhi that left 13 people dead. Hindu-Muslim clashes in Gujarat Feb.-Mar. 2002 claimed more than 700 lives.

The Congress Party won the most seats in 2004 parliamentary elections.

The Indian Ocean tsunami of Dec. 26, 2004, left more than 16,000 people dead and over 647,000 displaced in India. Islamic extremists set off 7 bombs on commuter trains in Mumbai, July 11, 2006, killing some 200 people. The unmanned Chandrayaan-1, India's first lunar survey mission, was launched into space Oct. 22, 2008.

Ten Pakistanis linked to a Kashmir militant group stormed several sites in Mumbai, Nov. 2008, killing 163 people.

In 2009 parliamentary elections, the United Progressive Alliance, headed by the Congress Party, gained a resounding victory. Electricity blackouts July 30-31, 2012, left 670 mil people without power.

Several rapes in New Delhi in Nov.-Dec. 2012 prompted protests for their mishandling by police and government inaction. Tougher laws against sexual violence were passed Feb. 4, 2013. The Hindu nationalist Bharatiya Janata party (BJP) won a large majority in Apr.-May 2014 parliamentary elections; Narendra Modi became prime min.

Development of high-tech industries has propelled rapid economic growth in most years since the 1990s; hundreds of millions have emerged from extreme poverty, although distribution of wealth remains highly uneven. Since 2011, India has had the world's third-largest GDP. To combat climate change, the government released a

plan, Oct. 1, 2015, for reducing the rate of growth in India's carbon emissions. WHO data released in 2018 showed that 11 of the 12 world cities with the worst air pollution were in India.

The Supreme Court, Sept. 6, 2018, struck down a 19th-cent. law that made consensual gay sex a criminal offense. The BJP increased its majority in Apr.-May 2019 elections. A check of citizenship status in Assam produced a list, released Aug. 31, 2019, of 1.9 mil people, mostly Muslim ethnic Bengalis, judged to be noncitizens and subject to deportation. Dec. 2019 legislation facilitating citizenship excluded Muslims. On Aug. 5, 2020, Modi participated in a groundbreaking ceremony for a Hindu temple on the site of the destroyed Ayodhya mosque. Late 2020 legislation modifying government grain-purchase policies sparked months of large-scale protests by farmers. A Sept. 22, 2021, Supreme Court ruling opened India's elite military academy to women. A severe heatwave, likely related to climate change, gripped northern India Mar.-June 2022; temperatures as high as 49°C (120°F) were recorded.

The COVID-19 pandemic that began in 2020 impacted India more severely than almost any other country in the world. Spikes in new cases at times overwhelmed the health care system. By Aug. 22, 2022, India had recorded over 44.3 mil total cases (second only to the U.S.). A WHO report released in May 2022 estimated that India had more than 4.7 mil excess deaths in 2020-21 associated with COVID-19.

Sikkim, bordered by Tibet, Bhutan, and Nepal, formerly British protected, became a protectorate of India in 1950. Area 2,740 sq mi; pop. (2011 census) 610,577; capital is Gangtok. In Sept. 1974, India's parliament voted to make Sikkim an associate Indian state, absorbing it into India.

Kashmir is a predominantly Muslim region in the NW that borders India, Pakistan, Afghanistan, and China. Muslim rule of the previously Hindu kingdom began in 1341; after almost 200 years under the Mughals, the area was incorporated into British India in 1846. Fighting broke out in the region between India and Pakistan in 1947 following independence from Britain. A cease-fire was

negotiated by the UN Jan. 1, 1949; it gave Pakistan control of one-third of the area as Azad Kashmir, in the W and NW, and India the remaining two-thirds, as the Indian state of Jammu and Kashmir. Area 39,146 sq mi; pop. (2011 census) 12,541,302. Capitals: Srinagar (summer), pop. (2021 est.) 1,622,454; Jammu (winter), pop. (2021 est.) 708,612. Fighting in the area resumed during 1965 and 1971. China occupied about 14,000 sq mi in the Ladakh district after a war with India in 1962. India separated Ladakh from Jammu and Kashmir in 2019. On June 15, 2020, at least 20 Indian soldiers were killed in fighting with Chinese troops in a disputed border area of Ladakh. India and China, in 2021 and 2022, implemented troop pullbacks from parts of the disputed border region.

Since 1989, Indian security forces in Jammu and Kashmir have battled Islamic separatist fighters. India has charged Pakistan with aiding the separatists. A cease-fire between Indian and Pakistani troops along the line of control took effect Nov. 2003. Some breaches occurred, and fighting between Indian forces and Islamic militants has continued. After a period of intense cross-border shelling, India and Pakistan agreed on a new cease-fire, May 29, 2018. More than 40 Indian paramilitary troops in Kashmir were killed in a terrorist bombing, Feb. 14, 2019. India and Pakistan, Feb. 25, 2021, recommitted to uphold a cease-fire. Estimates of conflict-related deaths since 1989 range from 40,000 to over 80,000.

The Indian government revoked statehood for Jammu and Kashmir, effective Oct. 31, 2019, to create two federally administered territories; India increased security forces and reportedly detained thousands.

France, 1952-54, peacefully yielded to India its five colonies, former French India: Pondicherry, Karikal, Mahe, and Yanam were merged to become Pondicherry, now Puducherry, area 185 sq mi; pop. (2011 census) 1,247,953. The colony of Chandernagor was incorporated into the state of West Bengal.

Hindu and Buddhist civilization from India reached Indonesia nearly 2,000 years ago, taking root especially in Java. Islam spread along the maritime trade routes in the 15th cent. and became predominant by the 16th cent. The Dutch replaced the Portuguese as the area's most important European trade power in the 17th cent., securing territorial control over Java by 1750. The other islands were subdued in the early 20th cent.

Following Japanese occupation, 1942-45, nationalists led by Sukarno and Hatta declared independence. The Netherlands ceded sovereignty in 1949. A republic was declared, Aug. 17, 1950, with Sukarno as president.

Irian Jaya, on New Guinea, remained under Dutch control but was transferred by the UN to Indonesia in 1963; it became the provinces of Papua and West Papua in the early 2000s. Pro-independence protests and an armed separatist movement have been met by a harsh government crackdown in recent years. Protests in Aug.-Sept. 2019 resulted in dozens of deaths. A new

military offensive against separatists and activists began in Apr. 2021.

Sukarno suspended parliament in 1960 and was named president for life in 1963. He made close alliances with Communist governments. In Sept. 1965 an attempted coup was successfully put down, but Sukarno was forced to cede power to the army, led by Gen. Suharto. The regime blamed the coup on the Communist Party; more than 300,000 alleged Communists were killed in army-initiated massacres.

Parliament reelected Suharto to a seventh consecutive presidential term in 1998, as a severe economic downturn focused public anger on nepotism, cronyism, and corruption in the Suharto regime. Suharto resigned May 21, 1998. Abdurrahman Wahid, leader of Indonesia's largest Muslim organization, was elected president in 1999. In Aug. 2000, under pressure from the legislature, he agreed to share power with Vice Pres. Megawati Sukarnoputri, the daughter of the late Pres. Sukarno. Charging Wahid with incompetence and corruption, the legislature ousted him July 23, 2001, and Megawati became Indonesia's first woman president.

Clashes between Muslims and Christians in the Maluku (Molucca) Isls., 1999-2002, claimed about 5,000 lives. East Timor, a former Portuguese colony that Indonesia invaded in Dec. 1975 and controlled until Oct. 1999, became a fully independent country May 20, 2002, as Timor-Leste.

Separatists in Aceh, NW Sumatra, fought government troops, 1980s-2000s. A peace agreement granting Aceh greater autonomy was signed Aug. 15, 2005. Aceh adopted a strict penal code based on sharia law and sometimes enforced by vigilantes; prohibited conduct was punished by public canings.

Investigators blamed Islamic terrorists for bombings that killed 202 people, mostly foreign tourists, at nightclubs in Bali, Oct. 12, 2002, and 12 people at a Marriott hotel in Jakarta, Aug. 5, 2003. Susilo Bambang Yudhoyono, a retired general, defeated Megawati in a 2004 direct presidential runoff vote.

A massive earthquake off NW Sumatra, Dec. 26, 2004, triggered tsunamis that wreaked havoc in the Indian Ocean region. The death

toll in Indonesia alone exceeded 165,000.

Pres. Yudhoyono won a second 5-year term July 8, 2009.

The General Elections Commission, July 22, 2014, declared populist Jakarta governor Joko Widodo the presidential election winner. All 162 people aboard an AirAsia Indonesia flight were killed, Dec. 28, 2014, when the plane crashed into the Java Sea near Borneo.

Assaults by terrorist gunmen and bombers in Jakarta, Jan. 14, 2016, left 8 dead, including 4 attackers; ISIS claimed responsibility. A series of ISIS-inspired suicide bombings at churches and attacks on police, May 2018, left 13 victims dead.

Rainforest destruction and air pollution from fires to clear areas for agriculture have been major environmental problems in recent years. A Sept. 2016 study estimated that especially severe pollution from 2015 fires may have caused more than 100,000 premature deaths.

All 189 on board an Indonesian Lion Air flight were killed, Oct. 29, 2018, when the Boeing 737 Max 8 plane crashed shortly after takeoff from Jakarta.

Pres. Widodo won reelection in Apr. 17, 2019, voting.

The COVID-19 pandemic had a devastating impact in Indonesia, which recorded, as of Aug. 22, 2022, over 6.3 mil cases. A 2022 WHO report estimated more than 1 mil excess deaths in Indonesia in 2020-21, far exceeding the recorded death toll from COVID-19.

On Oct. 1, 2022, in Malang, at least 125 people died when police fired tear gas at unruly soccer fans, touching off panic and stampedes.

Ancestors of inhabitants of Iran, formerly known as Persia, came from the east during the second millennium BCE; they were an Indo-European group related to the Aryans of India. In 549 BCE, Cyrus the Great united the Medes and Persians in the Persian Empire; he conquered Babylonia in 538 BCE, and restored Jerusalem to the Jews. Alexander the Great conquered Persia in 333 BCE, but Persians regained independence in the next century under the Parthians, themselves succeeded by Sassanian Persians in 226 CE. Arabs brought Islam to Persia in the 7th cent., replacing the Indigenous Zoroastrian faith. After Persian political and cultural autonomy was reasserted in the 9th cent., arts and sciences flourished.

Turks and Mongols ruled Persia in turn from the 11th cent. to 1502, when Ismael I established the Iranian Safavid dynasty and made Shiite Islam the official religion. The dynasty lasted until 1722. The British and Russian empires vied for influence in the 19th cent.; Britain severed Afghanistan from Iran in 1857.

Reza Khan, a military officer, became prime min., 1923, and shah in 1925. He began modernization, curbed foreign influence, and officially changed the country's name from Persia to Iran in 1935. Fearing the shah's Axis sympathies, British and Soviet troops forced him to abdicate, 1941; he was succeeded by his son, Mohammad Reza Pahlavi. The U.S. Central Intelligence Agency had a major role in the ouster, 1953, of Prime Min. Muhammad Mossadegh, who had nationalized the oil industry.

With U.S. backing, the shah brought economic and social change to Iran (White Revolution), but repression of opposition groups grew severe. Violent protests in 1978 eventually forced the shah to depart, Jan. 16, 1979 (he died in Egypt, July 27, 1980). Forces loyal to Shiite leader Ayatollah Ruhollah Khomeini defeated government troops, Feb 11, 1979. Khomeini established an Islamic theocracy.

Iranian militants seized the U.S. embassy in Tehran Nov. 4, 1979, and took hostages, including 62 Americans. Despite international condemnations and U.S. efforts, including an abortive Apr. 1980 rescue attempt, the crisis continued until Jan. 20, 1981, when an accord, involving the release of frozen Iranian assets, was reached.

War between Iran and Iraq, 1980-88, killed hundreds of thousands. In Nov. 1986 it became known that the U.S., which had generally sided with Iraq during the war, had secretly shipped arms to Iran to gain help in obtaining the release of U.S. hostages held in Lebanon.

A U.S. Navy warship shot down an Iranian airliner, July 3, 1988, after mistaking it for an F-14 fighter jet; all 290 aboard died.

An earthquake struck northern Iran June 21, 1990, killing more than 45,000 and leaving 400,000 homeless. Some 1 mil Kurdish refugees fled from Iraq to Iran following the Persian Gulf War of 1991. To curb Iran's alleged support for international terrorism, the U.S. in 1996 authorized sanctions on foreign companies that invested there.

Mohammad Khatami, a moderate Shiite Muslim cleric, was elected president in 1997. He was reelected in 2001 but faced on-going resistance from religious conservatives.

An earthquake Dec. 26, 2003, in Bam, SE Iran, killed about 26,000 people.

The religiously conservative mayor of Tehran, Mahmoud Ahmadinejad, defeated former Pres. Hashemi Rafsanjani in a 2005 runoff election. U.S. Pres. George W. Bush's administration accused Iran of seeking to build nuclear weapons, aiding Shiite militias opposing government forces in the U.S.-led war in Iraq (2003-11), and supplying rockets to Hezbollah fighters in Lebanon for use against Israel.

Seeking to halt Iran's uranium-enrichment program, the UN Security Council imposed sanctions, 2006-07.

Ahmadinejad won the 2009 presidential election. His main opponent claimed the vote count was fraudulent. Huge post-election protests in Tehran and other major cities were crushed. Tensions with the U.S. and European governments were heightened in 2009

by disclosures that Iran had been secretly enriching uranium and by Iranian tests of medium-range missiles.

The UN and U.S. toughened sanctions, June-July 2010. Iran accused Israel, the U.S., and other Western powers of carrying out cyberattacks against the country's nuclear facilities and of assassinating Iranian scientists. Iran announced, Jan. 2012, it was enriching uranium at its underground Fordo nuclear facility.

The moderate cleric Hassan Rouhani was elected president June 14, 2013. An agreement—signed July 14, 2015, by the U.S., UK, France, Germany, Russia, China, Iran, and the EU—required Iran to limit and partly dismantle its nuclear program and submit to international inspections in return for the lifting of most sanctions. Rouhani won reelection as president, May 19, 2017. Large-scale protests, mainly against poor economic conditions, occurred in dozens of cities around Iran, Dec. 2017-Jan. 2018, until suppressed by forces of the Islamic Revolutionary Guard Corps (IRGC). Pres. Donald Trump announced, May 8, 2018, that the U.S. would withdraw from the 2015 nuclear agreement and reimpose U.S. sanctions. Beginning in July 2019, Iran took nuclear program actions in violation of the 2015 accord.

The U.S. blamed Iran for 2019 attacks on oil tankers in the Persian Gulf region. Attacks continued in subsequent years.

Playing a role in regional conflicts, Iran supported the Syrian government in its civil war, beginning 2012; Shiite militia forces in Iraq, beginning 2014. The U.S. and Saudi Arabia blamed Iran for Sept. 14, 2019, drone and cruise missile strikes on two Saudi oil facilities; Houthi rebels had claimed responsibility. Widespread demonstrations protesting economic conditions were suppressed, Nov. 2019; up to 1,500 protesters may have been killed.

A U.S. drone strike in Iraq, Jan. 3, 2020, killed IRGC general Qassem Soleimani, in charge of the corps' foreign operations. Iran, Jan. 7, fired missiles at two Iraqi military bases housing U.S. troops. On Jan. 8, Iran mistakenly shot down a Ukrainian airliner shortly after its takeoff from Tehran, killing all 176 onboard.

An explosion and fire caused extensive damage, July 2, 2020, at a key Iranian nuclear facility; Israeli sabotage was suspected. Similar

disasters occurred, 2020-21, at Iranian industrial, nuclear, and infrastructure sites or aboard warships. A leading Iranian nuclear scientist was assassinated, Nov. 27, 2020. Under Pres. Joe Biden in 2021, the U.S. began talks with Iran on reviving the 2015 nuclear agreement. In an election marked by low turnout, hardliner Ebrahim Raisi was elected president, June 18, 2021.

Hard-hit by the COVID-19 pandemic, Iran had 7.5 mil recorded cases and about 143,000 deaths as of Aug. 22, 2022. Undercounting was suspected, and health care facilities were at times severely strained.

The death in custody, Sept. 16, 2022, of a Kurdish woman arrested for a dress-code violation sparked nationwide, sometimes violent protests, met with a lethal response by security forces. The IRGC attacked Iranian Kurdish opposition groups based in Iraq.

The Tigris-Euphrates valley, formerly called Mesopotamia, was the site of one of the earliest civilizations in the world. Mesopotamia ceased to be a separate entity after Persian, Greek, and Arab conquests. The Arabs founded Baghdad, from where the caliph ruled a vast Islamic empire in the 8th and 9th cents. Mongol and Turkish conquests led to a decline in the region's population, economy, cultural life, and irrigation system.

Britain secured a League of Nations mandate over Iraq after WWI. Independence under a king came in 1932. Rebellious army officers killed King Faisal II, July 1958, and established a leftist, pan-

Arab republic. The Baath Arab Socialist Party increasingly dominated successive regimes. A Baath leader, Saddam Hussein, became president in 1979. He ruled as a dictator for more than two decades, repressing Iraq's Kurds and Shiites. Israeli planes destroyed a nuclear reactor near Baghdad in 1981, claiming it could be used to produce nuclear weapons.

After skirmishing intermittently for 10 months, Iraq and Iran entered into open warfare on Sept. 22, 1980. Iran repulsed early Iraqi advances, producing a long and costly stalemate; hundreds of thousands of Iraqis lost their lives during the 8-year conflict. Saddam used poison gas against Iraqi Kurds in 1988, killing more than 5,000 people in Halabja, the first mass use of poison gas against civilians since the Holocaust.

Iraq invaded Kuwait in 1990. Backed by the UN, a U.S.-led coalition launched air and missile attacks on Iraq, Jan. 16, 1991, and began a ground attack to retake Kuwait Feb. 23. Iraqi forces were defeated in four days. Some 175,000 Iraqis were taken prisoner, and Iraqi casualties were estimated at over 85,000. As part of the cease-fire agreement, Iraq agreed to scrap all poison gas and germ weapons and allow UN observers to inspect the sites.

Iraqi cooperation with UN weapons inspection teams was intermittent throughout the 1990s. Standoffs over inspections culminated in intensive U.S. and British aerial bombardment of Iraqi military targets, Dec. 16-19, 1998. After two years of sporadic activity, U.S. and British warplanes struck sites near Baghdad mid-Feb. 2001.

Despite opposition from some countries, including France, Germany, and Russia, a U.S.-led coalition invaded Iraq Mar. 19, 2003. By Apr. 6 the British controlled Basra and other areas in the south, and the U.S. entered Baghdad Apr. 7. Saddam disappeared, the Iraqi government collapsed, and most of Iraq's armed forces dissolved into the civilian population. On May 1, U.S. Pres. George W. Bush declared the end of major combat. Searches failed to find chemical, biological, or nuclear weapons that the U.S. and other countries claimed Iraq had stockpiled.

The U.S.-led Coalition Provisional Authority was unable to maintain order following Saddam's fall. Reconstruction efforts were hampered by guerrilla attacks from Baath remnants, Islamic extremists, and others. U.S. troops killed two of Saddam's sons, Uday and Qusay, July 22, 2003, in Mosul. Saddam Hussein was captured in an underground hideout mid-Dec. 2003; tried and convicted for committing crimes against humanity in the 1980s, he was executed Dec. 30, 2006.

Photographs released in Apr. 2004 showed instances of physical abuse and sexual humiliation of Iraqi inmates by U.S. military personnel at Baghdad's Abu Ghraib prison in 2003.

On June 28, 2004, U.S. authorities transferred sovereignty to a transitional Iraqi government. Despite insurgent threats, an estimated 8 mil people in Iraq, mostly Shiites and Kurds, cast ballots Jan. 30, 2005, for a transitional national assembly. Insurgents launched new waves of attacks. Rumors of a suicide bomber set off a stampede by Shiite pilgrims in northern Baghdad Aug. 31, killing close to 1,000 people. The U.S. blamed Jordanian militant Abu Musab al-Zarqawi, leader of al-Qaeda in Iraq, for directing a series of kidnappings, beheadings, and suicide bombings. He was killed by a U.S. airstrike, June 2006.

A new government elected in legislative elections Dec. 15, 2005, was installed May 20, 2006, headed by Shiite leader Nouri Kamel al-Maliki. The Iraqi civilian death toll averaged more than 2,800 per month in 2006.

A 2007 "surge" elevated U.S. troop strength from 132,000 in Jan. to 171,000 in Oct. Military and civilian casualties began dropping after mid-2007. A cease-fire by Shiite militias and a shift by Sunni clan leaders against al-Qaeda in Iraq contributed to the reduction in violence.

A Nov. 2008 agreement called for all U.S. forces to leave Iraq by Dec. 31, 2011. Inconclusive legislative elections were held Mar. 7, 2010. On Aug. 31, Pres. Barack Obama formally declared an end to the U.S. combat role, and Operation Iraqi Freedom was succeeded by Operation New Dawn. More than 9 months of political deadlock

ended when Prime Min. Maliki was sworn in for a second term Dec. 21.

U.S. troops completed their withdrawal from Iraq Dec. 15, 2011. From Mar. 2003 through Dec. 2011, more than 4,500 U.S. service members died in operations in Iraq; another 32,000 were wounded. British troop losses totaled 179; other allies, 139. More than 115,000 Iraqi civilians and over 10,000 police and security forces were killed. U.S. budgeted costs of the Iraq war exceeded \$820 bil for the 2003-12 period.

Tensions manifested between Sunnis and Shiites after the U.S. departure. The Sunni insurgent group al-Qaeda in Iraq was blamed for ongoing violence. About 25,000 civilians were killed, 2012-14.

In parliamentary elections Apr. 30, 2014, Maliki's coalition won the largest bloc of seats. Shiite Haider al-Abadi, of Maliki's Dawa Party, became prime min. Sept. 8.

In Dec. 2013, the Sunni extremist Islamic State in Iraq and Syria (ISIS) began crossing from Syria into Iraq and seizing territory. The ISIS offensive intensified beginning in June 2014. The group took control of large areas of northern and central Iraq, including the cities of Mosul (Iraq's second-largest) and Tikrit, where ISIS killed 1,700 captured Shiite soldiers. ISIS imposed Islamic law, with harsh punishments, in areas it controlled while suppressing, killing, and sexually assaulting civilians who were non-Sunni Muslims or members of the Yazidi sect and other religious minorities. (Nadia Murad, a Yazidi sexual assault survivor, shared the 2018 Nobel Peace Prize for her activism against sexual violence in war.) The U.S., later joined by other nations, began, Aug. 8, 2014, airstrikes against ISIS targets; the U.S. provided military aid, including ground troops (beginning in 2014), to Iraqi government forces and Kurdish fighters opposing ISIS.

Forces fighting ISIS in 2015-17 included government troops, Shiite militias (often backed by Iran), Sunni tribal militias, and Kurdish troops. Kurdish fighters made gains in northern Iraq, and government and Shiite forces completed recapturing Tikrit, Apr. 1, 2015. Abadi proclaimed the recapture of Mosul, July 9, 2017, and announced, Dec. 9, that all ISIS territory in Iraq had been retaken.

However, thousands of ISIS fighters remained in the country, attacking civilians and security forces.

Forces fighting ISIS in 2015-17 included government troops, Shiite militias (often backed by Iran), Sunni tribal militias, and Kurdish troops. Kurdish fighters made gains in northern Iraq, and government and Shiite forces completed recapturing Tikrit, Apr. 1, 2015. After a bloody 9-month campaign, Abadi proclaimed the recapture of Mosul, July 9, 2017. Abadi announced, Dec. 9, 2017, that all ISIS territory in Iraq had been retaken. However, thousands of ISIS fighters remained in the country, attacking civilians and security forces.

In a Sept. 25, 2017, referendum, called by the Kurdistan Regional Government—but deemed illegal by the Iraqi government—92.7% of participants voted for Kurdistan's independence from Iraq. Iraqi-government and Shiite-militia forces responded by driving Kurdish troops from territory outside the Kurdistan autonomous region that the Kurds had occupied during the fight against ISIS.

The U.S. deactivated, Apr. 30, 2018, its land forces command in Baghdad, but more than 5,000 U.S. troops remained in Iraq—reduced to about 2,500 by late 2020. Combat missions by U.S. troops were officially ended in 2021.

Following May 12, 2018, parliamentary elections, on Oct. 2, 2018, parliament elected Kurdish politician Barham Salih as president, and Shiite consensus candidate Adel Abdul Mahdi was designated prime min. After two months of protests against economic conditions, corruption, and Iranian influence—in which hundreds were killed by security forces—the prime min. resigned, Nov. 29, 2019. Protests continued into 2020. Iran-backed militia forces attacked the U.S. embassy in Baghdad, Dec. 31, 2019. Compromise candidate Mustafa al-Kadhimi was chosen as the new prime min., May 7, 2020.

In Oct. 10, 2021, parliamentary elections, the Sadrist Movement of Shiite leader Muqtada al-Sadr won the largest bloc of seats. Political disputes blocked formation of a new government, and pro-Sadr demonstrators clashed violently with security forces and pro-

Iran Shiite militias. The deadlock delayed the 2022 election of a new president by parliament.

Celtic tribes invaded the islands about the 4th cent. bce; their Gaelic culture and literature flourished in the 5th cent. ce, the same century in which St. Patrick converted the Irish to Christianity. Norse invasions began in the 8th cent., ending with defeat of the Danes by the Irish King Brian Boru in 1014. English invasions started in the 12th cent. For over 700 years the Anglo-Irish struggle continued with bitter rebellions and savage repressions. In the Irish Potato Famine, failure of the staple potato crop, 1845-49, caused 1 mil deaths from starvation and related diseases; up to 2 mil people emigrated, many to the U.S.

The Easter Monday Rebellion in 1916 failed but was followed by guerrilla warfare and harsh reprisals by British troops called the Black and Tans. The Dail Eireann (Irish parliament) reaffirmed independence in Jan. 1919. The British offered dominion status to Ulster (6 counties) and southern Ireland (26 counties) Dec. 1921. The constitution of the Irish Free State, a British dominion, was adopted Dec. 11, 1922. Northern Ireland remained part of the UK (see United Kingdom—Northern Ireland).

A new constitution adopted by plebiscite came into operation Dec. 29, 1937. It declared the name of the state Eire in the Irish language (Ireland in the English) and declared it a sovereign democratic state. On Dec. 21, 1948, the country was declared a republic rather than a dominion and withdrew from the Commonwealth. The British Parliament recognized both actions, 1949, but the six northeastern counties remained in the UK.

Irish governments have favored peaceful unification of all Ireland and cooperated with Britain against terrorist groups. After negotiators

in Northern Ireland approved a peace settlement on Good Friday, Apr. 10, 1998, voters in the Irish Republic endorsed the accord, on May 22, and the Irish gave up their constitution's territorial claims on the north.

Expansion of educational opportunities and foreign investment in high-tech industries in the 1990s boosted Ireland's prosperity. In 1990, Mary Robinson became Ireland's first woman president.

Responding to allegations of child sex abuse by Catholic clergy in Ireland, Pope Benedict XVI issued a public apology to victims and their families Mar. 2010.

After a 2008-10 financial crisis, the EU approved an 85-bil euro emergency loan package that obligated Ireland to impose unpopular austerity measures. Fianna Fáil, the party that had dominated Irish politics since the 1930s, was defeated in Feb. 2011 elections, and Enda Kenny of the center-right Fine Gael became prime minister. Leo Varadkar of Fine Gael succeeded Kenny, June 14, 2017. Inconclusive Feb. 8, 2020, elections saw the nationalist Sinn Féin party make gains. On June 27, a coalition government of Fianna Fáil, Fine Gael, and the Green Party took office, initially headed by Fianna Fáil's Micheál Martin; he was to be succeeded by Fine Gael's leader in Dec. 2022.

In a national referendum, May 22, 2015, voters legalized same-sex marriage. In a May 25, 2018, referendum, voters essentially legalized almost all abortions.

Occupying the southwest corner of the ancient Fertile Crescent, Israel contains some of the oldest known evidence of agriculture and of primitive town life. The Hebrews probably arrived early in the 2nd millennium BCE. Under King David and his successors (c. 1000 BCE-597 BCE), Judaism was developed and secured. After conquest by Babylonians, Persians, and Greeks, an independent Jewish kingdom was revived, 168 BCE, but Rome took over in the next century, suppressed Jewish revolts in 70 CE and 135 CE, and renamed Judea Palestine, after the earlier coastal inhabitants, the Philistines.

Arab invaders conquered Palestine in 636. The Arabic language and Islam prevailed within a few centuries, but a Jewish minority remained. The land was ruled from the 11th cent. as a part of non-Arab empires by Seljuks, Mamluks, and Ottomans (with a Crusader interval, 1098-1291).

After four centuries of Ottoman rule, the land was taken in 1917 by Britain, which pledged in the Balfour Declaration to support a Jewish homeland there. In 1920 a British Palestine Mandate was recognized; in 1922 the land east of the Jordan R. was detached.

Jewish immigration, begun in the late 19th cent., swelled in the 1930s and 1940s with refugees from Nazi Germany and survivors of the Holocaust; heavy Arab immigration from Syria and Lebanon also occurred. Arab opposition to Jewish immigration turned violent in 1920, 1921, 1929, and 1936. The UN General Assembly voted in 1947 to partition Palestine into an Arab and a Jewish state. Britain withdrew in May 1948.

Israel was declared independent May 14, 1948; Arabs rejected partition. Egypt, Jordan, Syria, Lebanon, Iraq, and Saudi Arabia invaded but failed to destroy the Jewish state, which gained territory. Separate armistices with the Arab nations were signed in 1949; Jordan occupied the West Bank, Egypt occupied Gaza. Neither granted Palestinian autonomy.

After persistent terrorist raids, Israel invaded Egypt's Sinai, Oct. 29, 1956, aided briefly by British and French forces. A UN cease-fire was arranged Nov. 6.

An uneasy truce between Israel and the Arab countries lasted until 1967, when Egypt reoccupied the Gaza Strip and closed the Gulf of Aqaba to Israeli shipping. In the Six-Day War, starting June 5, the Israelis took the Gaza Strip, occupied the Sinai Peninsula to the Suez Canal, and captured East Jerusalem, Syria's Golan Heights, and Jordan's West Bank.

Egypt and Syria attacked Israel, Oct. 6, 1973 (Yom Kippur, the most solemn day in the Jewish calendar). Israel counterattacked, driving the Syrians back, and crossed the Suez Canal. A cease-fire took effect Oct. 24 and a UN peacekeeping force arrived. Under a 1974 disengagement agreement, Israel withdrew from the canal's west bank. Israeli forces raided Entebbe, Uganda, in 1976 and rescued 103 hostages who had been seized by Arab and German terrorists.

Israel's prime ministers, including David Ben-Gurion, Golda Meir, and Yitzhak Rabin, pursued a moderate socialist program, 1948-77. In 1977, the conservative opposition, led by Menachem Begin, was voted into office for the first time. Egypt's Pres. Anwar al-Sadat visited Jerusalem in 1977, and on Mar. 26, 1979, Egypt and Israel signed a formal peace treaty, ending 30 years of war. Israel returned the Sinai to Egypt in 1982.

Israeli forces invaded Lebanon, June 6, 1982, to destroy Palestine Liberation Organization (PLO) strongholds. After massive Israeli bombing of West Beirut, the PLO agreed to evacuate the city. Israeli troops entered West Beirut Sept. 14. Israel drew widespread condemnation when Lebanese Christian forces, Sept. 16, entered two West Beirut refugee camps and slaughtered hundreds of Palestinians.

In 1989, violence escalated over the Israeli military occupation of the West Bank and Gaza Strip. In a series of uprisings known as the first intifada, Palestinian protesters defied Israeli troops, who forcibly retaliated.

Ongoing peace talks led to historic agreements between Israel and the PLO, Sept. 1993. The PLO recognized Israel's right to exist; Israel recognized the PLO as the Palestinians' representative. The two sides then signed, Sept. 13, an agreement (known as the Oslo Accord) for limited Palestinian self-rule in the West Bank and Gaza. A follow-up Sept. 1995 agreement (Oslo II) essentially divided the West Bank into areas under Israeli or Palestinian control. Israel and Jordan signed, July 25, 1994, in Washington, DC, a declaration ending their 46-year state of war.

On Nov. 4, 1995, an Orthodox Jewish Israeli assassinated Labor Party Prime Min. Yitzhak Rabin in Tel Aviv. Support for Rabin's successor, Shimon Peres, was shaken by a series of suicide bombings and rocket attacks by Islamic militants. Emphasizing security issues, the candidate of the conservative Likud bloc, Benjamin Netanyahu, was elected prime minister on May 29, 1996.

Under an interim accord signed by Netanyahu and PLO leader Yasir Arafat, Oct. 23, 1998, Israel agreed to yield more West Bank territory to the Palestinians, in exchange for new security guarantees. After May 1999 elections, the Labor Party's Ehud Barak replaced Netanyahu as prime minister.

Israel pulled virtually all its troops out of southern Lebanon in May 2000. Marathon summit talks in the U.S. between Barak and Arafat, July 11-25, failed. A second intifada began in late Sept. in Israel and the Palestinian territories. Barak called new elections for prime minister but lost Feb. 2001 to Ariel Sharon, a hardliner. The bloodshed intensified during the summer, as Palestinian suicide bombers attacked Israeli civilians, and Israel struck at Palestinian-controlled territory attempting to assassinate suspected terrorists.

Israel launched a major West Bank offensive Mar. 29, 2002, two days after a suicide bomber killed 26 Israeli Jews at a Passover celebration in Netanya. Palestinian-Israeli violence in the West Bank has flared periodically in subsequent years.

Sharon's decision to pull all Israeli settlers and troops out of Gaza was approved by the cabinet Feb. 2005. Sharon and Deputy Prime Min. Ehud Olmert then formed the centrist Kadima Party. Sharon suffered a massive stroke Jan. 4, 2006. Olmert became prime

minister, led Kadima to victory in Mar. elections, and formed a broad coalition government.

Clashes in mid-2006 along the Gaza and Lebanon borders rapidly escalated into full-scale war. By Aug. 14, a UN-sponsored cease-fire had taken hold. Olmert, targeted in multiple corruption inquiries, announced his resignation July 30, 2008. (He was convicted on bribery charges, 2014 and 2015.) After a campaign overshadowed by a three-week war between Israel and Hamas in Gaza, both Kadima and Likud fell far short of a majority in Feb. 2009 elections. On Mar. 31, Netanyahu became prime min. for a second time.

Israel's relations with allies were strained when the Israeli government announced in Mar. 2010 that it would build 1,600 homes in Ramat Shlomo (a Jewish settlement in mostly Arab East Jerusalem) and when 10 Turkish pro-Palestinian activists died as a result of clashes with Israeli commandos May 31 on board the **Mavi Marmara**, part of a flotilla seeking to break Israel's blockade of Gaza.

Israel clashed with Palestinians in Gaza Oct.-Nov. 2012.

Netanyahu's right-wing Likud-Yisrael Beiteinu political bloc narrowly won Jan. 22, 2013, parliamentary elections. After Mar. 17, 2015, elections, Netanyahu assembled a new coalition government.

Conflict between Israel and Hamas escalated in 2014. Rocket attacks from Gaza into Israel increased beginning in June. Israel launched air and artillery attacks on targets in Gaza, and Israeli ground forces entered Gaza July 17, in part to destroy tunnels used to infiltrate fighters into Israel. Israeli ground and air attacks caused high civilian casualties. Israel pulled out ground troops Aug. 5. A cease-fire was agreed Aug. 26.

Tensions between Iran and Israel have grown over Iran's nuclear and missile programs, which Israel sees as existential threats, as well as over Iranian support for regional anti-Israel militias and governments. Israeli airstrikes have targeted Iranian military assets or Iranian-backed forces in Syria, Iraq, and Lebanon.

On May 14, 2018, the U.S. officially moved its embassy from Tel Aviv, where most embassies are located, to Jerusalem. A

proclamation signed Mar. 25, 2019, by U.S. Pres. Donald Trump recognized Israeli sovereignty over the Golan Heights.

Controversial July 2018 legislation declared that “the Jewish people... have an exclusive right to national self-determination” in Israel. With Netanyahu plagued by corruption scandals, Likud finished in a virtual tie with the centrist opposition Blue and White alliance, led by Benny Gantz, in Apr. 9 and Sept. 17, 2019, elections. After a third election, Mar. 2, 2020, produced a similar stalemate, Netanyahu and Gantz reached a power-sharing agreement, with Netanyahu initially continuing as prime minister. Netanyahu had been formally indicted, Jan. 28, 2020, on bribery, fraud, and breach of trust charges. The Netanyahu-Gantz coalition collapsed, Dec. 22, 2020. Following a fourth inconclusive election, Mar. 23, 2021, rightist Naftali Bennett became prime minister, June 13, initially heading a diverse 8-party coalition.

The U.S., Israel, and the United Arab Emirates announced, Aug. 13, 2020, that Israel and the UAE would normalize relations; Israel agreed to suspend plans to annex portions of the West Bank. Israel, Bahrain, and the U.S. announced, Sept. 11, that Israel and Bahrain would establish diplomatic ties.

Renewed heavy fighting between Hamas and Israel occurred May 2021—and between Islamic Jihad in Gaza and Israel Aug. 2022. Deadly clashes between Palestinians and Israeli security forces in the West Bank intensified in 2022.

Bennett’s coalition collapsed, June 2022. Centrist Yair Lapid became interim prime minister July 1, and new elections were scheduled for Nov. 1.

Affected since 2020 by the COVID-19 pandemic, Israel in 2021 was quick to implement a vaccination program. By Aug. 22, 2022, the country had recorded more than 4.6 mil cases (equal to over half of the pop.).

Palestinian Territories

The Palestinian territories comprise the Gaza Strip, often called Gaza, and the West Bank, both occupied by Israel in 1967. Since 1996 the Palestinian Authority has been responsible for civil

government in the territories. Elected president Jan. 20, 1996, PLO leader Yasir Arafat headed the Palestinian Authority until his death Nov. 11, 2004. Mahmoud Abbas, of the PLO's Fatah faction, was elected president Jan. 2005. A victory by Hamas militants in Jan. 2006 legislative elections led to a power struggle with Abbas. In bitter fighting, Hamas ousted Fatah from Gaza, June 2007, but Abbas retained power in the West Bank. As of 2022, Gaza remained largely in Hamas control.

The UN General Assembly voted, Nov. 29, 2012, to make Palestine a non-member observer state. Speaking at the UN Sept. 30, 2015, Abbas said the Palestinian Authority would no longer be bound by the Oslo Accords, which he alleged Israel had violated.

The **Gaza Strip** extends NE from the Sinai Peninsula for 25 mi, with the Mediterranean Sea to the W and Israel to the E. Nearly all the inhabitants are Palestinian Arabs. Area 139 sq mi; pop. (2022 est.) 1,997,328. Hamas's security force, the Izz al-Din al-Qassam Brigades, numbers 15,000-20,000.

Israel captured Gaza from Egypt in the 1967 war. It remained under Israeli occupation until May 1994, when the Israeli Defense Forces largely withdrew. Agreements between Israel and the PLO in 1993 and 1994 provided for interim self-rule in Gaza, but Israel retained control over security. Israel forcibly evacuated all 9,000 Jewish settlers from Gaza by Aug. 22, 2005, and the last remaining Israeli soldiers pulled out Sept. 12. Israel established a fortified barrier on its Gaza border to block Palestinian infiltrators.

After the Hamas takeover, Israel declared Gaza a "hostile entity," Sept. 19, 2007, and intensified military and economic pressures. Hamas thwarted an Israeli blockade, Jan. 2008, blowing up part of the border wall between Gaza and Egypt. Retaliating for Hamas rocket and mortar attacks, Israel launched an aerial assault and ground offensive in Gaza, Dec. 2008-Jan. 2009. After the *Mavi Marmara* incident, Israel June 2010 eased some restrictions on the flow of goods to Gaza. Egypt's new Islamist govt. lifted the blockade along its Gaza border May 28, 2011. However, Egypt's subsequent military government re-closed the border in 2013 and sought to destroy tunnels dug by Hamas to bring military and other equipment

into Gaza. Egypt opened the Gaza border intermittently beginning in 2015.

Members of the Israeli Air Force, Oct. 31, 2012, assassinated Hamas's military chief, Ahmed al-Jabari, in the Gaza Strip. In 2017, Israel began building a below-ground barrier on the Gaza border in an effort to block Hamas tunneling. Large-scale, sometimes violent protests occurred, Mar.-May 2018, on the Gaza side of the Israeli border wall, accompanied by attempts to storm the wall and firing across the border into Israel; more than 100 protesters were killed by Israeli security forces. Cross-border violence subsequently flared again periodically.

The **West Bank** is located W of the Jordan R. and Dead Sea, bounded by Jordan on the E and by Israel on the N, W, and S. The Palestinian Authority administers several major cities, but Israel retains control over much land, including Jewish settlements. Total area 2,263 sq mi, land area 2,178 sq mi; pop. (2022 est.) 3,000,021. The Palestinian Authority's National Security Force is a paramilitary organization of about 10,000 that maintains internal security in the West Bank.

In June 2002 the Israeli government began building a controversial security barrier in the West Bank to restrict Palestinian access to Israel and reduce infiltration by suicide bombers. In a nonbinding ruling, July 9, 2004, the World Court said the barrier violated international law. Israel has continued to allow the expansion of Jewish settlements; by Jan. 31, 2022, about 490,000 Jewish settlers were living in the West Bank (not including about 330,000 in East Jerusalem, which Israel annexed in 1967).

The COVID-19 pandemic caused nearly 700,000 cases by Aug. 22, 2022, in the Palestinian territories.

Rome emerged as the major power in Italy after 500 BCE, dominating the Etruscans to the north and Greeks to the south. Under the Empire, which lasted until the 5th cent. CE, Rome ruled most of Western Europe, the Balkans, the Middle East, and North Africa. After Rome fell, Italy became a patchwork of kingdoms, principalities, and city-states until reunified, 1870.

The Fascist leader Benito Mussolini came to power, 1922, and aligned Italy with Nazi Germany in WWII. After Fascism was overthrown in 1943, Italy declared war on Germany and Japan and contributed to the Allied victory. It surrendered conquered lands and lost its colonies. Mussolini was killed by partisans Apr. 28, 1945. Victor Emmanuel III abdicated May 9, 1946; his son Humbert II was king until June 10, when Italy became a republic after a referendum, June 2-3. In the postwar decades, Italy had a succession of short-lived governments.

Christian Democratic leader and former Prime Min. Aldo Moro was abducted and murdered in 1978 by Red Brigade terrorists. A wave of left-wing political violence continued into the 1980s.

In Mar. 1994 voting, right-wing parties won a majority, dislodging Italy's long-powerful Christian Democratic Party. Italy led a 7,000-member peacekeeping force in Albania, Apr.-Aug. 1997.

Supporters of Silvio Berlusconi, a multibillionaire media magnate, won the 2001 parliamentary elections. Berlusconi backed American-led military operations in Afghanistan (2001) and Iraq (2003). The last Italian troops left Afghanistan in 2021.

Berlusconi lost 2006 parliamentary elections but returned at the head of a center-right coalition after Apr. 2008 elections. Sluggish economic growth and rising public debt raised investors' concerns about Italy's financial stability. Berlusconi resigned Nov. 12, 2011, but

Italy's economic problems worsened. After Feb. 25, 2013, elections, a coalition government was announced Apr. 27, 2013, led by the center-left Democratic Party (PD). Berlusconi was convicted in 2012 of tax fraud and in 2015 of bribing a senator. Legalization of civil unions between same-sex couples won final parliamentary approval, May 11, 2016.

About 625,000 African, Middle Eastern, and SW Asian migrants fleeing violence and economic hardship crossed the Mediterranean from North Africa (mainly Libya) to Italy, 2014-17. More than 13,000 died trying to make the crossing. Beginning in 2017, Italy worked with various Libyan authorities to reduce migrant crossings. However, the pace of crossings increased again in 2021, when over 67,000 migrants arrived (over 1,500 deaths). Arrivals Jan. to mid-Sept. 2022 exceeded 62,000.

In Mar. 4, 2018, elections, the populist Five Star Movement (M5S) and the anti-immigration League made strong showings. A League-M5S coalition government took office June 1, 2018. With League-M5S disputes increasing and the economy stagnant, the government resigned, Aug. 20, 2019. M5S and the PD agreed, Aug. 28, to form a new coalition. Prime Min. Giuseppe Conte resigned, Jan. 26, 2021, after losing support largely over response to the COVID-19 pandemic. Mario Draghi became prime minister Feb. 13 but defections from his coalition forced Draghi to resign, July 21, 2022. In Sept. 25, 2022, elections, a rightist, anti-immigration coalition won a majority of seats—led by the Brothers of Italy party of Giorgia Meloni (in line to become Italy's first female prime minister)—and also including the League and Berlusconi's party.

Italy was one of the first European countries severely impacted, in early 2020, by COVID-19. Health care facilities were strained, and GDP fell 9% in 2020. After several spikes in new cases, Italy had recorded, by Aug. 22, 2022, about 21.6 mil total cases—8th-highest in the world; more than 174,000 people had died.

Sicily, 9,927 sq mi, pop. (2014 est.) 5,094,937, is an island 180 by 120 mi, seat of an autonomous region that embraces the island of Pantelleria, 32 sq mi, and the Lipari group, 44 sq mi, including two active volcanoes: Vulcano (1,637 ft) and Stromboli (3,031 ft). From

prehistoric times Sicily has been settled by various peoples; a Greek state had its capital at Syracuse. Rome took Sicily from Carthage 215 BCE. Mt. Etna, a 10,925-ft active volcano, is its tallest peak.

Sardinia, 9,301 sq mi, pop. (2014 est.) 1,663,859, lies in the Mediterranean, 115 mi W of Italy and 7 ½ mi S of Corsica. It is 160 mi long, 68 mi wide, and mountainous. Mining, historically important, has declined in recent decades, and tourism has increased. In 1720, Sardinia was added to the possessions of the Dukes of Savoy in Piedmont and Savoy to form the Kingdom of Sardinia. Elba, 86 sq mi, lies 6 mi W of Tuscany. Napoleon I lived in exile on Elba 1814-15.

Jamaica was visited by Christopher Columbus, 1494, and ruled by Spain (under whom Arawak Indians died out) until seized by Britain, 1655. Jamaica won independence Aug. 6, 1962. The island's rich musical innovations include ska and reggae. Rastafarianism is an influential religious movement.

In 1974 Jamaica sought an increase in taxes paid by U.S. and Canadian bauxite mines. The socialist government acquired 50% ownership of the companies' Jamaican interests in 1976. Rudimentary welfare state measures were passed. Relations with the U.S. improved in the 1980s when Jamaican politics entered a more conservative phase.

After she implemented unpopular austerity measures to obtain IMF aid, the JLP won Feb.

According to Japanese legend, the empire was founded by Emperor Jimmu, 660 BCE, but earliest records of a unified Japan date from 1,000 years later. Chinese influence was strong in the formation of Japanese civilization. Buddhism was introduced before the 6th cent. CE.

A feudal system, with locally powerful noble families and their samurai warrior retainers, dominated from 1192. Central power was held by successive families of shoguns (military dictators), 1192-1867, until recovered by Emperor Meiji, 1868. The Portuguese and Dutch had minor trade with Japan in the 16th and 17th cents.; U.S. Commodore Matthew C. Perry opened the country to U.S. trade in a treaty ratified 1854. Industrialization began in the late 19th cent. Military conflicts won Taiwan from China, 1894-95, and the southern half of Sakhalin from Russia, 1904-05. Japan annexed Korea, 1910.

In WWI Japan ousted Germany from Shandong in China and took over German Pacific islands. Japan took Manchuria in 1931 and launched full-scale war in China in 1937. In WWII, Japan attacked Pearl Harbor, Dec. 7, 1941, launching war with the U.S. The U.S. dropped atomic bombs on Hiroshima, Aug. 6, and Nagasaki, Aug. 9, 1945. Japan surrendered Aug. 14.

In a new constitution adopted May 3, 1947, Japan renounced the right to wage war; the emperor renounced claims to divinity; and the Diet became the sole lawmaking authority. The U.S. and 48 other non-Communist nations signed a peace treaty with Japan on Sept. 8, 1951; on the same day, the U.S. signed a bilateral defense agreement with Japan. The peace treaty restored Japan's sovereignty effective Apr. 28, 1952.

Rebuilding after WWII, Japan emerged as one of the most powerful economies in the world. Japan's restrictive import policies allowed it to accumulate huge trade surpluses.

In 1968, the U.S. returned control of the Bonin Isls., Volcano Isls. (including Iwo Jima), and Marcus Isls to Japan. In 1972, the U.S. returned Okinawa, the other Ryukyu Isls., and the Daito Isls., but the U.S. continued to maintain military bases on Okinawa.

The Liberal Democratic Party (LDP) governed Japan from the mid-1950s through early 1990s. In 1994, Tomiichi Murayama became Japan's first Socialist premier since 1947-48. With the country mired in a lengthy recession, the LDP regained power in 1996.

For the first time since WWII, Japan sent troops to an overseas war zone, when about 600 noncombat troops served in Iraq Feb. 2004-July 2006. Legislation formalizing a new constitutional interpretation allowing the military to take offensive action to aid an ally, such as the U.S., won final passage Sept. 19, 2015.

The 2008-09 global recession hit Japan hard, prompting a series of economic stimulus plans. The LDP suffered a crushing defeat in 2009 parliamentary elections, won by the opposition Democratic Party of Japan (DPJ).

A 9.0 magnitude earthquake and tsunami off Japan's east coast Mar. 11, 2011, left almost 21,000 people dead. The Fukushima Daiichi nuclear power plant experienced meltdowns, spewing radiation over a large area.

Elections swept LDP candidates into office in Dec. 2012, and former Prime Min. Shinzo Abe became prime minister. Abe's LDP won Dec. 14, 2014, and Oct. 22, 2017, elections.

Japan signed, Mar. 8, 2018, an 11-nation trans-Pacific trade pact. Japan and the EU signed, July 17, 2018, a trade liberalization agreement. A limited Japan-U.S. trade deal was signed Sept. 25, 2019.

Emperor Akihito, 85, abdicated, Apr. 30, 2019; he was succeeded, May 1, by his son Naruhito. Abe announced, Aug. 28, 2020, that he would resign because of ill health. The LDP's Yoshihide Suga became prime minister Sept. 16.

The COVID-19 pandemic reached Japan by Jan. 2020. The 2020 Summer Olympics in Tokyo were delayed until 2021; Japan barred virtually all spectators. Prime Min. Suga, facing declining popularity over handling of the COVID-19 pandemic, announced, Sept. 3, 2021, he would resign. Former foreign min. Fumio Kishida became prime minister, Oct. 4, 2021, and led the LDP to victory in Oct. 31 elections.

Former Prime Min. Abe was shot to death, July 8, 2022, at a political rally; LDP ties to the Unification Church was the assassin's apparent motivation. By Aug. 22, 2022, Japan had recorded a total of over 17.1 mil COVID-19 cases, 10th-highest in the world.

The region came under the Mongols' rule in the 13th cent. and gradually came under Russian rule, 1730-1853. It was admitted to the USSR as a constituent republic in 1936.

Kazakhstan became independent when the Soviet Union dissolved Dec. 26, 1991. The Communist Party chief, Nursultan Nazarbayev, was elected president unopposed. Dissent was suppressed. Nazarbayev encouraged Western investment in the oil industry, helping the economy. Regular production began, Oct. 2016, at the large Kashagan oil field in the Caspian Sea.

Kazakhstan agreed, Feb. 1994, to dismantle nuclear missiles. Private land ownership was legalized Dec. 1995.

Pres. Nazarbayev was reelected in 1999, 2005, 2011, and 2015 (the last time with almost 98% of the vote). His Nur Otan party won 2016 and 2021 parliamentary elections. Nazarbayev resigned, Mar. 20, 2019, retaining influence as “first president.” Upper-house speaker Kassym-Jomart Tokayev of Nur Otan became acting president and won a June 9, 2019, presidential election.

Sparked by a rise in fuel prices, violent protests over economic conditions and corruption—and a harsh crackdown by security forces—left over 230 dead in Jan. 2022. The prime minister resigned Jan. 5. In a June 5 referendum, voters approved constitutional changes including limits on the official powers of former Pres. Nazarbayev.

Arab colonies exported spices and slaves from the Kenya coast as early as the 8th cent. Britain obtained control in the 19th cent. Kenya won independence Dec. 12, 1963, four years after the end of the violent Mau Mau uprising. Jomo Kenyatta, the country's leader since independence, died Aug. 22, 1978. He was succeeded by his vice president, Daniel arap Moi.

During the first half of the 1990s, Kenya suffered widespread unemployment and high inflation. Tribal clashes in the western provinces claimed thousands of lives. Pres. Moi won a fourth term in Dec. 1997, in an election plagued by irregularities. A truck bomb explosion at the U.S. embassy in Nairobi, Aug. 7, 1998, killed more than 200 people and injured about 5,000. The U.S. blamed the attack on al-Qaeda.

Pres. Moi was succeeded, Dec. 2002, by Mwai Kibaki of the opposition Democratic Party. After a disputed election Dec. 2007, Kenya's electoral commission declared Kibaki the winner over challenger Raila Odinga. Weeks of factional violence followed, leaving some 1,500 people dead and 600,000 displaced. Uhuru Kenyatta (Jomo Kenyatta's son) was declared, Mar. 10, 2013, the winner over Odinga in the Mar. 4 presidential election, amid accusations of vote-rigging. On Aug. 11, 2017, Kenyatta was again declared the victor over Odinga in Aug. 8 presidential voting; Odinga charged electoral fraud. After the Supreme Court, Sept. 1, nullified the result, Kenyatta won an Oct. 26 re-vote boycotted by Odinga. A ruling, May 24, 2019, upheld the constitutionality of a 19th-cent. law criminalizing gay sex.

Kenya sent troops into Somalia in 2011 (they joined with an African Union force in 2012) to combat the Somali Islamist extremist group al-Shabab. Al-Shabab carried out a series of deadly terrorist attacks in Kenya. An Apr. 2, 2015, attack on Garissa Univ. College killed 148. The UNHCR estimated that about 288,000 Somali refugees and asylum seekers were living in Kenya as of June 30, 2022 (in the mid-2010s, tens of thousands were repatriated to Somalia, amid allegations of forced returns).

Years of drought left millions of Kenyans facing food insecurity in 2022.

Vice Pres. William Ruto, with 50.5% of the vote, was declared the winner over Odinga in the Aug. 9, 2022, presidential election. Rejecting a challenge by Odinga, the Supreme Court, Sept. 5, upheld the election result.

A British protectorate since 1892, the Gilbert and Ellice Islands colony was completed with the inclusion of the Phoenix Islands, 1937. Tarawa Atoll was the scene of some of the bloodiest fighting in the Pacific during WWII.

Self-rule was granted 1971; the Ellice Islands separated from the colony in 1975 and became independent Tuvalu, 1978. Kiribati (pronounced *Kiribass*) independence was attained July 12, 1979. Kiribati's land area is shrinking as a result of rising sea levels; in 2014, the government began buying land in Fiji for agriculture and possible future resettlement.

Opposition candidate Taneti Maamau won the Mar. 9, 2016, presidential election. With Chinese investment increasing, Kiribati broke relations with Taiwan, Sept. 20, 2019. Maamau won a second term as president, June 22, 2020.

The Democratic People's Republic of Korea was founded May 1, 1948, in the zone occupied by Russia after WWII. Its armies tried to conquer the south, 1950. After three years of fighting, with Chinese

and U.S. intervention, a cease-fire was proclaimed. A demilitarized zone (DMZ) was established, straddling the cease-fire line.

For the next four decades, a hard-line Communist regime headed by Kim Il Sung kept tight control over the nation's political, economic, and cultural life. The nation used its mineral and hydroelectric resources to develop its military strength. By the early 1990s, North Korea was widely believed to be developing nuclear weapons. The U.S. and North Korea signed an agreement, Oct. 21, 1994, providing for phased dismantling of North Korea's nuclear development program in return for U.S. energy aid and improved ties with the U.S.

Kim Il Sung died July 8, 1994. He was succeeded by his son, Kim Jong Il. Defections by high officials, a deteriorating economy, and severe food shortages plagued North Korea, beginning in the late 1990s. North Korea and Japan agreed to normalize relations in a Sept. 2002 summit.

In Oct. 2002, North Korea admitted to pursuing a secret nuclear weapons program in violation of past agreements. During 2003-09, as six-nation talks sponsored by China sought to resolve the nuclear issue, North Korea alternately stopped and resumed its nuclear program. North Korea conducted its first nuclear explosion Oct. 9, 2006.

In Apr.-May 2009, North Korea suspended participation in the six-nation talks, expelled IAEA inspectors, tested multiple missiles, and exploded a nuclear device underground. The UN Security Council June 12 toughened sanctions on North Korea.

Kim Jong Il died Dec. 17, 2011. He was succeeded by his son Kim Jong Un. In Dec. 2013, Kim Jong Un ordered the execution of his politically powerful uncle, Jang Song Thaek.

North Korea conducted a nuclear test Feb. 10, 2013, and it negated, Mar. 11, 2013, the cease-fire agreement with the South that ended the Korean War. It conducted numerous short- and medium-range missile tests 2013-15. North Korea was apparently responsible for cyberattacks on Sony Pictures Entertainment, Nov. 2014, related to a comedy film about Kim Jong Un. North Korea conducted its fourth nuclear weapons test on Jan. 6, 2016, and its fifth on Sept. 9. North Korea continued missile tests, 2016-17,

including its first ICBM launch, July 4, 2017. U.S. and UN sanctions were strengthened in 2016 and again in 2017. North Korea conducted its sixth nuclear test, Sept. 3, 2017.

On Apr. 27, 2018, Kim Jong Un met in the DMZ with South Korean Pres. Moon Jae-in. They agreed to work toward a peace treaty and denuclearization of the Korean Peninsula. North Korea said it destroyed, May 24, its nuclear test site. At a June 12 summit meeting in Singapore with U.S. Pres. Donald Trump, Kim again made a general denuclearization pledge. However, U.S. officials, and an Aug. 2018 UN report, concluded that North Korea was continuing its nuclear and missile programs. Two Trump-Kim summits in 2019 produced no progress. Beginning May 2019, North Korea fired a number of short-range missiles, its first missile tests since 2017. Tests of various types of missiles continued in 2020-22.

North Korea initially maintained it had no cases of COVID-19, which began spreading worldwide in early 2020. Protective measures, such as closing the border in 2020 with key trading partner China, contributed to a severe economic crisis; some imports from China resumed in early 2022. In May 2022, North Korea acknowledged for the first time that COVID-19 was spreading in the country. Millions of cases had likely occurred by the time Kim Jong Un declared victory over COVID-19 on Aug. 11; the claim met with widespread international skepticism.

The recorded history of Korea, once called the Hermit Kingdom, dates back to the 1st cent. BCE. It was united in a kingdom under the Silla Dynasty, 668 CE. It was at times associated with the Chinese

empire; the treaty that concluded the Sino-Japanese war of 1894-95 recognized Korea's complete independence. In 1910 Japan forcibly annexed Korea as Chosun.

At the Potsdam conference, July 1945, near the end of WWII, the 38th parallel was designated as the line dividing Soviet (north) and U.S. (south) occupation zones. Soviet troops entered Korea Aug. 10, 1945; U.S. troops entered Sept. 8.

The South Koreans formed the Republic of Korea in May 1948. Dr. Syngman Rhee was chosen president. A separate, Communist regime was formed in the North; its army (later aided by Chinese troops) attacked the south in June 1950, initiating the Korean War. UN troops, largely U.S. and under U.S. command, supported South Korea in the war, which ended in an armistice (July 1953) leaving Korea divided by a demilitarized zone (DMZ) along the 38th parallel. The U.S. kept troops in South Korea (about 28,500 in 2022).

Rhee's authoritarian rule became increasingly unpopular, forcing his resignation Apr. 26, 1960. In an army coup May 16, 1961, Gen. Park Chung-hee became chairman of a ruling junta. First elected president, 1963, Park was assassinated by the chief of the Korean intelligence agency, Oct. 26, 1979.

In May 1980, Gen. Chun Doo-hwan, head of military intelligence, ordered the brutal suppression of pro-democracy demonstrations in Kwangju. Chun became president, Aug. 27, 1980. On July 1, 1987, following anti-government protests, Chun agreed to democratic reforms. In Dec., Roh Tae-woo, a longtime ally of Chun's, was elected president.

Pres. Kim Young-sam took office in 1993. Convicted of mutiny, treason, and corruption, Chun was sentenced to death by a Seoul court, Aug. 26, 1996, for his role in the 1979 coup and 1980 Kwangju massacre; Roh received a 225-year prison sentence. Kim Dae-jung, a longtime dissident, won the presidential election Dec. 18, 1997. Chun and Roh were released and pardoned Dec. 22.

At a summit meeting in Pyongyang, June 13-15, 2000, North and South Korea agreed to work for reconciliation and eventual reunification. On Oct. 13, 2000, Kim Dae-jung was named the winner

of the Nobel Peace Prize. Roh Moo-hyun won the 2002 presidential election.

The IAEA, Sept. 2, 2004, said South Korea had acknowledged having secretly processed a small amount of uranium to near weapons-grade level in 2000, violating the Nuclear Non-Proliferation Treaty and a bilateral accord with North Korea (North Korea, 2006-17, conducted 6 nuclear weapons tests).

Conservative Park Geun-hye became South Korea's first female president in Dec. 19, 2012, elections. Pres. Park was impeached for corruption by the National Assembly, Dec. 9, 2016, and removed from office, Mar. 10, 2017. A criminal trial ended, Apr. 6, 2018, in a conviction and prison sentence; she was pardoned and released in Dec. 2021.

Following a series of North Korean missile tests, a U.S.-South Korean agreement to deploy an advanced U.S. missile defense system known as THAAD in South Korea was announced July 8, 2016.

Moon Jae-in of the Democratic Party (DP), who campaigned on a policy of diplomatic engagement with North Korea, won the May 9, 2017, presidential election. Moon met with North Korean leader Kim Jong Un in the DMZ, Apr. 27, 2018. They agreed to work toward a peace treaty and denuclearization, but North-South tensions subsequently increased.

A U.S.-South Korea trade liberalization agreement went into effect Mar. 15, 2012. Revisions signed Sept. 24, 2018, were aimed in part at increasing U.S. auto exports.

Kosovo was part of the Roman and Byzantine empires before Serbs, a Slavic people, took control in the Middle Ages. After Ottoman Turks defeated Serb forces, 1389, Kosovo's population became predominantly Muslim and Kosovar (ethnic Albanian). Serbia regained control in the First Balkan War (1912-13). Kosovo entered the Kingdom of Serbs, Croats, and Slovenes as part of Serbia after World War I and became an autonomous province of Serbia, a constituent republic of Yugoslavia, after World War II.

Revoking provincial autonomy, Serbia began ruling Kosovo by force in 1989. Albanian secessionists proclaimed an independent Republic of Kosovo in July 1990. As Yugoslavia collapsed, the republics of Serbia (incl. Kosovo) and Montenegro proclaimed a new Federal Republic of Yugoslavia, 1992. Guerrilla attacks by the Kosovo Liberation Army (KLA) in 1997 brought a ferocious counteroffensive by Serbian authorities.

Fearful that the Serbs were employing "ethnic cleansing" tactics, NATO launched an air war against Yugoslavia, Mar.-June 1999; the Serbs retaliated by terrorizing the Kosovars. Hundreds of thousands fled, mostly to Albania and Macedonia (now North Macedonia). A 50,000-member multinational force (KFOR) entered Kosovo in June, and most refugees returned by Sept. 1, 1999. (About 3,800 KFOR troops remained in Kosovo as of mid-2022.)

From June 1999, Kosovo was administered by a UN mission (UNMIK). Kosovo declared independence, Feb. 17, 2008. More than 100 nations, including the U.S. and most EU members, have recognized Kosovo; Serbia and Russia have not.

An EU special prosecutor reported, July 29, 2014, evidence of ethnic cleansing against Serbs by the KLA in the late 1990s. Prime Min. Hashim Thaçi, who headed the KLA at that time, had denied any wrongdoing. Isa Mustafa replaced Thaçi as prime min., Dec. 9, 2014. Parliament elected Thaçi president of Kosovo, Feb. 26, 2016.

Former KLA commander Ramush Haradinaj became prime min., Sept. 9, 2017. Facing questioning by a war crimes tribunal, Haradinaj resigned, July 19, 2019. An indictment against Thaçi for war crimes was announced June 24, 2020; he resigned Nov. 5. Parliament speaker Vjosa Osmani became acting head of state and was elected president by parliament, Apr. 4, 2021. After his party swept Feb. 14, 2021, parliamentary elections, Albin Kurti became prime minister.

Kosovo and Serbia signed an agreement, Sept. 4, 2020, to move toward normalizing economic relations.

Kuwait is ruled by the Sabah dynasty, founded 1759. Britain ran foreign relations and defense from 1899 until independence in 1961. More than two-thirds of the population is non-Kuwaiti, including many Palestinians and non-Arab Asians, and cannot vote.

Oil exports provide most of Kuwait's income. Oil pays for free medical care and education for citizens. There is no income tax. Government efforts to diversify the economy proceeded slowly.

Kuwait was attacked and overrun by Iraqi forces Aug. 1990. In Operation Desert Storm a U.S.-led coalition, with authorization from the UN Security Council, began bombing Iraq and Iraqi forces in Kuwait, Jan. 1991, then launched a ground assault Feb. 23. By Feb. 27, Iraqi forces were routed and Kuwait liberated.

The region was inhabited around the 13th cent. by the Kyrgyz. It was annexed to Russia, 1864, and became a constituent republic of the USSR in 1936. Kyrgyzstan declared independence Aug. 31, 1991, ahead of the USSR disbanding Dec. 26, 1991.

In power since 1990, Pres. Askar Akayev won a third 5-year term in the 2000 election. Fraud by Akayev loyalists in parliamentary elections Feb.-Mar. 2005 sparked protests. Akayev fled the country, Mar. 24, and formally resigned, Apr. 4. His interim successor, former Prime Min. Kurmanbek Bakiyev, a leader of the "tulip revolution," won the 2005 presidential vote. He was reelected, 2009, but was ousted by opposition parties Apr. 7, 2010.

Fighting in mid-June 2010 between majority Kyrgyz and minority Uzbeks in the southern cities of Osh and Jalalabad claimed up to 2,000 lives. Former Prime Min. Sooronbay Jeenbekov won the Oct. 15, 2017, presidential election. Violent protests against alleged widespread fraud followed Oct. 4, 2020, parliamentary elections. The results, favoring parties supporting Pres. Jeenbekov, were annulled, and Jeenbekov resigned Oct. 15. Sadyr Japarov, until recently jailed for abducting a political rival, succeeded Jeenbekov and won a

landslide victory in a Jan. 10, 2021, presidential election. A new constitution approved in an Apr. 11, 2021, referendum gave Kyrgyzstan a presidential rather than parliamentary system of government. Kyrgyzstan-Tajikistan fighting in a disputed border region flared in Apr. 2021 and again in Sept. 2022.

Laos became a French protectorate in 1893, but regained independence as a constitutional monarchy July 19, 1949. Conflicts among neutralist, Communist, and conservative factions created a chaotic political situation. Armed conflict increased after 1960.

The three factions formed a coalition government in June 1962 with neutralist Prince Souvanna Phouma as premier. A 14-nation conference in Geneva signed agreements, 1962, guaranteeing independence. By 1964 the leftist Pathet Lao had withdrawn from the coalition, and, with aid from North Vietnamese troops, renewed attacks. During the Vietnam War, U.S. planes (1964-73) dropped more than 2 mil tons of bombs on targets in Laos, principally the Ho Chi Minh trail, a supply line from North Vietnam to Communist forces in Laos, South Vietnam, and Cambodia. (Beginning in the 1990s, the U.S., other nations, and the UN provided aid to dismantle unexploded bombs.)

After Pathet Lao military gains in Laos, Souvanna Phouma, May 1975, ordered government troops to cease fighting; the Pathet Lao took control. The Lao People's Democratic Republic was proclaimed Dec. 3, 1975.

From the mid-1970s through the 1980s, Laos relied on Vietnam for military and financial aid. After easing its finance laws in 1988, Laos attracted investment from Thailand, China, South Korea, the U.S., and other nations. Laos was admitted to the Assn. of SE Asian

Nations in 1997. The U.S. Congress approved normalization of trade with Laos in 2004.

Despite environmental and safety concerns, since the 1990s, dozens of dams have been built or planned on Mekong R. tributaries, providing hydroelectricity for domestic use and export. A dam collapse, July 23, 2018, killed at least 35.

Formed from five former Turkish Empire districts, Lebanon became independent Sept. 1, 1920, and was administered under French mandate 1920-41. French troops withdrew in 1946.

Under the 1943 National Covenant, all public positions were divided among the various religious communities, with Christians in the majority. By the 1970s, Muslims became the majority and demanded a larger political and economic role.

U.S. Marines intervened, May-Oct. 1958, during a Syrian-aided revolt. Continued raids against Israeli civilians, 1970-75, brought Israeli retaliation in southern Lebanon.

An estimated 60,000 were killed in a 1975-76 civil war. Palestinian units and leftist Muslims fought against Maronite militia (the Phalange) and other Christians. Several Arab countries provided support to various factions, while Israel aided Christian

forces. Syria, which intervened in 1976 to fight Palestinian groups, largely policed a cease-fire.

Israeli forces invaded Lebanon June 6, 1982, attacking strongholds of the Palestine Liberation Organization (PLO). Israeli and Syrian forces engaged in the Bekaa Valley. On Aug. 21, the PLO evacuated W Beirut after massive Israeli bombings. Israeli troops entered W Beirut following the Sept. 14 assassination of newly elected Lebanese Pres. Bashir Gemayel. On Sept. 16, 1982, Lebanese Christian troops entered the Sabra and Shatila refugee camps and massacred hundreds of Palestinian civilians. An agreement May 17, 1983, between Lebanon, Israel, and the U.S. (but not Syria) provided for the withdrawal of Israeli troops; at least 30,000 Syrian troops remained in Lebanon, and Israel held onto a "security zone" in the south.

In 1983, some 50 people were killed in an explosion at the U.S. embassy, Apr. 18; 241 U.S. service members and 58 French soldiers died in separate Islamist suicide attacks, Oct. 23. The 1980s witnessed kidnappings of U.S., British, French, and Soviet citizens by Islamic militants.

A treaty signed May 22, 1991, between Lebanon and Syria recognized Lebanon as a separate state for the first time since 1943.

Israeli forces conducted air raids and artillery strikes against guerrilla bases and villages in southern Lebanon, causing over 200,000 to flee their homes July 25-29, 1993. Some 500,000 civilians fled in Apr. 1996 when Israel struck suspected guerrilla bases in the south. The economy revived in the 1990s, but Syria continued to dominate Lebanon's political affairs. Israel withdrew virtually all its troops from southern Lebanon by May 2000, leaving Hezbollah, an Iranian-backed Shiite Muslim guerrilla group, in control of much of the region.

Rafik al-Hariri, a former prime min. (1992-98, 2000-04), was killed by a truck bomb, Feb. 14, 2005. Many Lebanese blamed Syria or Hezbollah. As anti-Syrian protests mounted, Syrian troops left Lebanon. A Hezbollah official was convicted in absentia by a UN tribunal, Aug. 18, 2020, of conspiracy in connection with the bombing.

Beginning July 2006, Hezbollah bombarded northern Israel with thousands of rockets, and Israeli air and ground forces assaulted suspected Hezbollah strongholds in southern Lebanon and southern Beirut. By Aug. 14, 2006, when a UN-sponsored cease-fire took hold, the war dead included nearly 1,150 Lebanese. To enforce the truce, thousands of Lebanese troops moved into southern Lebanon, and the small UN force already in Lebanon (UNIFIL) was expanded. UNIFIL had almost 10,000 uniformed personnel in Lebanon in mid-2022.

A 2008 power-sharing accord between the government and Hezbollah eased factional violence and paved the way for Gen. Michel Suleiman to become president, ending an 18-month stalemate. Factional disputes in parliament led to a lengthy delay in electing a successor when Suleiman's term expired in May 2014. Maronite Christian Michel Aoun, after gaining the support of Hezbollah, was elected president Oct. 31, 2016. Saad al-Hariri, a Sunni Muslim, became prime min., Dec. 18, 2016. Hezbollah and allied Shiite parties made gains in May 6, 2018, parliamentary elections.

The Syrian civil war, in which Hezbollah fighters supported Syria's government (dominated by followers of the Alawite sect of Shiite Islam) and many opposition fighters were Sunni Muslims, spilled over into Lebanon beginning in 2012. As of June 30, 2022, about 831,000 Syrian refugees were in Lebanon.

Months of protests against deteriorating economic conditions began in Oct. 2019. Prime Min. Hariri resigned, Oct. 29. Hassan Diab replaced him, Jan. 21, 2020. The economic crisis deepened in the following months.

A massive explosion in Beirut, Aug. 4, 2020, at a warehouse storing dangerous chemicals caused more than 200 deaths and about 6,500 injuries and displaced 300,000. Protests against government corruption and inefficiency followed, and the country's economic crisis continued to worsen. Diab resigned Aug. 10, 2020. Entrepreneur and former Prime Min. Najib Mikati formed a new government and became prime minister Sept. 10, 2021. In May 15, 2022, elections, Hezbollah-allied parties lost seats. Mikati became

caretaker prime minister, as negotiations to form a new government proceeded.

Liberia was founded in 1822 by freed Black slaves from the U.S. who settled at Monrovia with the aid of colonization societies. It became a republic July 26, 1847, with a constitution modeled on that of the U.S. Descendants of freed slaves dominated politics for much of the 19th and 20th cents.

Under Pres. William V. S. Tubman, Liberia was a founding member of the UN in 1945. Tubman died in 1971 and was succeeded by his vice president, William R. Tolbert Jr. Charging rampant corruption, an Army Redemption Council of enlisted men staged a bloody predawn coup, Apr. 12, 1980, killing Pres. Tolbert and installing Sgt. Samuel Doe, an Indigenous African, as head of state. In 1985, Doe was chosen president in a disputed election.

A civil war began Dec. 1989. In Sept. 1990, Pres. Doe was executed. Despite the introduction of a multinational peacekeeping force, the conflict intensified. Factional fighting devastated Monrovia in Apr. 1996. Ruth Perry became modern Africa's first female head of state Sept. 3, 1996, leading a transitional government. By then, the civil war had claimed more than 150,000 lives.

Former rebel leader Charles Taylor was elected president July 1997. The UN imposed sanctions in 2001, to punish Liberia for aiding an insurgency in Sierra Leone.

A UN-sponsored war crimes tribunal indicted Taylor, June 2003, for his role in the Sierra Leone conflict. With Liberian rebels threatening Monrovia, Taylor resigned Aug. 11 and went into exile. The UN authorized a 15,000-member peacekeeping force (UNMIL) Sept. 19. (UNMIL officially ended Mar. 30, 2018.) A businessman, Charles Gyude Bryant, was sworn in Oct. 14, 2003, to head a power-sharing interim government. Ellen Johnson-Sirleaf won presidential elections in 2005 and 2011, and shared the 2011 Nobel Peace Prize. Charles Taylor was convicted at The Hague in 2012 of aiding and abetting war crimes and crimes against humanity, and sentenced to 50 years in prison. Former soccer star George Weah succeeded Johnson-Sirleaf after winning a Dec. 26, 2017, presidential runoff election.

Liberia was seriously affected, 2014-16, by an Ebola virus epidemic; the WHO reported a total of 10,675 Liberian cases, which caused 4,809 deaths. Affected by the COVID-19 pandemic beginning in 2020, Liberia had vaccinated about half of its pop. by mid-2022.

First settled by Berbers, Libya was ruled in succession by Carthage, Rome, the Vandals, and the Ottomans. Italy ruled from 1912, and Britain and France after WWII. Libya became an independent constitutional monarchy Jan. 2, 1952. In 1969 a junta led by Col. Muammar al-Qaddafi seized power.

Under Qaddafi's dictatorship, dissent was suppressed and wars were waged with Egypt and Chad. During the 1980s, Libya was accused of promoting terrorism, such as the Apr. 5, 1986, bombing of a West Berlin nightclub, which killed 3, including a U.S. serviceman. The U.S. attacked what it called "terrorist-related targets" in Libya, Apr. 14, including Qaddafi's barracks.

Libyan agents were accused of planting bombs that blew up Pan Am Flight 103 over Lockerbie, Scotland, killing 270 people Dec. 21, 1988, and French UTA Flight 772 over Niger, killing 170 people Sept. 19, 1989.

Libya agreed in 2003 to renounce terrorism and settle compensation cases for the families of the Lockerbie and UTA bombing victims. The UN lifted sanctions in Sept., and in Dec., Libya renounced nuclear, chemical, and biological weapons and long-range missiles.

Arab Spring rebels fought Qaddafi's forces throughout the spring of 2011. With diplomatic backing from the Arab League and the UN, NATO forces imposed an arms embargo and no-fly zone against Qaddafi. Aided by NATO, rebels took control of Tripoli Aug. 23, 2011. Rebels killed Qaddafi Oct. 20, 2011. Ansar al-Shariah terrorists attacked the U.S. consulate and a CIA base in Benghazi Sept. 11, 2012, killing Ambassador J. Christopher Stephens and three other Americans. The U.S. captured, June 15, 2014, the alleged leader of the attack, Ahmed Abu Khattala; he was convicted, Nov. 28, 2017, on terrorism-related charges.

As violence between Islamists, rival militia groups, and pro-government forces continued, parliamentary elections were held June 25, 2014. The new parliament met in Tobruk because of Islamist militia control of Tripoli. A UN-backed Government of National Accord (GNA), formed in Jan. 2016, largely took control in Tripoli, but was not recognized by the Tobruk government. ISIS seized territory in Libya by early 2016. An offensive by pro-GNA and other militia forces, aided by the U.S., had retaken most ISIS territory by Dec. 2016. By mid-2017, forces led by former Libyan army Gen. Khalifa Haftar gained control of eastern Libya.

Haftar's forces began, Apr. 2019, an offensive toward Tripoli; they were supported by Russian military aid but ended their unsuccessful offensive June 2020. The GNA forces, plus various militias and other armed groups that opposed Haftar, received Turkish military support. UN-sponsored talks produced a cease-fire, Oct. 23, 2020, followed by agreement, Feb. 5, 2021, on a new interim government in Tripoli, charged with preparing for nationwide elections. However, planned Dec. 2021 elections were postponed, and disagreements and conflict between rival groups continued in 2022.

Beginning in 2014, Libya was a major transit route for African and other migrants trying to reach Europe. By mid-2017, efforts by Italy and other EU nations reduced migrant crossings of the Mediterranean, but crossing attempts increased again in 2021-22. More than 32,000 migrants were intercepted at sea in 2021, and in 2022, at least 15,300 were intercepted by Libyan authorities by Sept.

Many migrants were returned to Libyan detention camps, where they often faced abuse and harsh conditions.

Madagascar was settled 2,000 years ago by Malayan-Indonesian people, whose descendants still predominate. A unified kingdom ruled in the 18th and 19th cent. The island became a French protectorate, 1885, and a colony, 1896. Independence came June 26, 1960.

Discontent with inflation and French domination led to a coup in 1972. The new regime nationalized French-owned financial interests, closed French bases and a U.S. space-tracking station, and obtained Chinese aid. The government conducted a program of arrests, expulsion of foreigners, and repression of strikes in 1979.

In 1990, Madagascar ended a ban on multiparty politics that had existed since 1975. A 1993 presidential election ended the 17-year rule of Adm. Didier Ratsiraka.

Marc Ravalomanana won 2001 and 2006 presidential elections. A power struggle between Ravalomanana and the military-backed Andry Rajoelina led to Rajoelina's installation as head of a transitional regime, Mar. 17, 2009. Presidential elections in 2013 were won by Hery Rajaonarimampianina. Rajoelina defeated Ravalomanana in a disputed Dec. 19, 2018, presidential runoff. Years of drought left perhaps 2 mil people facing food insecurity by 2022.

The government attempted to limit media coverage of the COVID-19 pandemic. Only about 5% of the pop. had been vaccinated by Aug. 2022.

Until the 15th cent. the area was part of the great Mali Empire. Timbuktu (Tombouctou) was a center of Islamic study. French rule was secured, 1898. The Sudanese Rep. and Senegal became independent as the Mali Federation in 1960, but Senegal withdrew, and the Sudanese Rep. was renamed Mali.

A coup toppled a socialist regime led, 1960-68, by Pres. Modibo Keita. Famine struck in 1973-74, killing as many as 100,000 people.

The military, Mar. 1991, overthrew Pres. Moussa Traoré, who had ruled since 1968. The government and a Tuareg rebel group signed a peace accord in 1994, but Tuareg separatists remained active in the north.

Amadou Toumani Touré, who led the 1991 coup, was elected president in 2002 and reelected 2007. After a Mar. 2012 coup, Islamist rebels, allied with Tuareg groups, seized control of the country's north. In Jan. 2013, France and West African regional forces entered the fight against the Islamists, who were pushed out of most areas they had seized. The UN Stabilization Mission in Mali (MINUSMA) was approved Apr. 25, 2013. Ibrahim Boubacar Keita was elected president Aug. 11, 2013. Attacks by Tuareg rebels and fights against Islamists continued in 2014 and early 2015. A new peace agreement with Tuareg fighters was signed mid-2015, but violence, including Islamist extremist attacks, continued. Keita won a second term in 2018. Ethnic violence and other fighting in central Mali left hundreds dead in 2019. Islamists linked to al-Qaeda and ISIS remained active.

Beginning in June 2020, large-scale demonstrations protested corruption, economic conditions, and disputed Mar.-Apr. parliamentary elections. Keita and his prime minister, Boubou Cissé, were ousted, Aug. 18, 2020, in a military coup led by Col. Assimi Goïta. On May 24, 2021, Goïta ousted civilian transitional leaders, and he became transitional president June 7.

Fighting throughout the country persisted in 2022. Its relations with the Goïta government strained, France announced, Feb. 17, the withdrawal of its troops from Mali (completed Aug. 15). By 2022, Russian Wagner Group mercenaries were fighting alongside

government troops. MINUSMA uniformed personnel in Mali in mid-2022 totaled about 14,000.

Mexico was the site of advanced civilizations. The Mayans, an agricultural people, moved up from Yucatan, built huge stone pyramids, and invented a calendar. The Toltecs were overcome by the Aztecs, who founded Tenochtitlan 1325 CE, now Mexico City. Hernán Cortés, Spanish conquistador, destroyed the Aztec empire, 1519-21. After three centuries of Spanish rule the people revolted,

beginning in 1810. Spain recognized Mexican independence, 1821. A republic was declared in 1823.

Mexican territory extended into the present-day United States. Texas established a republic in 1836, and Mexico lost California and most of the SW in the U.S.-Mexican War, 1846-48.

The French supported an Austrian archduke on the Mexican throne as Maximilian I, 1864-67. He was deposed in an uprising led by Benito Juárez. Dictatorial rule by Porfirio Díaz, president 1877-80, 1884-1911, led to a period of rebellion and factional fighting. A new constitution in 1917 brought reform.

The Institutional Revolutionary Party (PRI) dominated politics from 1929 until the late 1990s. Gains in agriculture, industry, and social services were achieved, but poverty remained widespread. Vast oil reserves were discovered, 1970s-80s. About 10,000 people died when a magnitude 8.0 earthquake struck near Mexico City, Sept. 19, 1985.

The National Action Party won the 2000 and 2006 presidential elections. Despite a government crackdown on drug cartels, drug-related violence intensified. Enrique Peña Nieto (PRI) won the 2012 presidential election. Notorious drug cartel leader Joaquín Guzmán Loera, known as El Chapo, was extradited to the U.S., Jan. 19, 2017, and convicted, Feb. 12, 2019, of drug trafficking.

Vowing to reduce violence and corruption and to combat poverty, leftist Andrés Manuel López Obrador of the Moreno Party easily won the July 1, 2018, presidential election. However, drug cartel and other violence continued, including killings of journalists.

A Supreme Court decision, June 3, 2015, in effect legalized same-sex marriage nationwide. The Supreme Court, June 28, 2021, struck down prohibitions against personal recreational use of marijuana. The Court held, Sept. 7, that state laws criminalizing abortion were unconstitutional.

The North American Free Trade Agreement (NAFTA) with the U.S. and Canada took effect Jan. 1, 1994. A revised pact—renamed the U.S.-Mexico-Canada Agreement (USMCA)—came into force July 1, 2020. It strengthened labor and environmental provisions.

With hundreds of thousands of Central American asylum-seekers and other migrants crossing from Mexico into the U.S. in 2019, Mexico agreed, June 7, to increase troops at its southern border with Guatemala. By 2021, under a 2019 U.S. policy, tens of thousands of asylum seekers were forced to wait in Mexico, often in harsh conditions, while their U.S. cases were pending. Action in 2021 by U.S. Pres. Joe Biden to end the policy was blocked by U.S. courts until mid-2022. Border crossings in 2022 (including people from throughout the Americas and elsewhere) were at the highest levels in more than 20 years.

Hard-hit by the COVID-19 pandemic, Mexico recorded over 6.9 mil cases and nearly 329,000 deaths by Aug. 22, 2022, though deaths may have been much higher; a May 2022 WHO report estimated excess deaths related to the COVID-19 pandemic in 2020-21 were twice the official tally.

In 1918, Romania annexed Bessarabia, west of the Dniester (Nistru) R. In 1924, the Soviet Union established the Moldavian Autonomous Soviet Socialist Republic on the eastern bank of the river (Trans-Dniester region, or Transnistria). It was merged with the Romanian-speaking districts of Bessarabia in 1940 to form the Moldavian SSR. During WWII, Romania, allied with Germany, occupied the area. It was recaptured by the USSR in 1944. Moldova declared independence Aug. 27, 1991, prior to the dissolution of the USSR Dec. 26, 1991.

Fighting erupted Mar. 1992 in Transnistria between Moldovan security forces and Slavic separatists—including ethnic Russians. Defying the Moldovan government, voters in the breakaway Transnistria held legislative elections and approved a separatist constitution in 1995. A peace accord with Transnistria separatists was signed in Moscow in 1997. In a 2006 referendum, Transnistria voters overwhelmingly supported independence from Moldova and eventual union with Russia. About 1,500 Russian troops were in Transnistria in mid-2022.

Pro-Western parties won Moldova's parliamentary elections in 2009, 2010, and 2014. A banking scandal, 2010-14, caused political turmoil. Pavel Filip became prime min., Jan. 20, 2016, pledging to fight corruption. In Moldova's first direct presidential election, pro-Russian candidate Igor Dodon won a Nov. 13, 2016, runoff. Following Feb. 24, 2019, parliamentary elections, pro-EU Maia Sandu became prime min. in June, but she lost a no-confidence vote in Nov. Sandu defeated Dodon in a Nov. 15, 2020, runoff to become Moldova's first woman president. Sandu's party swept July 11, 2021, parliamentary elections. The EU, June 23, 2022, officially made Moldova a candidate for membership. In the wake of Russia's Feb. 2022 invasion of Ukraine, Moldova hosted, by mid-Sept., over 90,000 Ukrainian refugees.

Mongolia reached the zenith of its power in the 13th cent. when Genghis Khan and his successors conquered all of China and extended their influence as far west as Hungary and Poland. In later centuries, the empire dissolved, and Mongolia became a province of China.

With the advent of the 1911 Chinese revolution, Mongolia, with Russian backing, declared its independence. A Communist regime was established, 1921. The Mongolian People's Revolutionary Party (MPRP) yielded its monopoly on power, 1990. A new constitution took effect, 1992.

Riots followed 2008 parliamentary elections, won by the ruling MPRP (renamed the Mongolian People's Party, or MPP, in 2010). The Democratic Party (DP) won the 2009 presidential election and 2012 legislative elections. With the economy slumping, the MPP won June 29, 2016, parliamentary elections. The IMF approved a \$5.5-bil bailout package, May 24, 2017. The MPP won June 24, 2020, legislative elections. Following protests over the government's response to the COVID-19 pandemic, Prime Min. Ukhnaa Khurelsukh (of the MPP) resigned, Jan. 21, 2021. Luvsannamsrai Oyun-Erdene became prime minister, Jan. 27, and Khurelsukh won

the June 9 presidential election. Mongolia had recorded about 974,000 total COVID-19 cases by Aug. 22, 2022.

Part of the medieval Serbian Kingdom, Montenegro preserved its autonomy for centuries because of its mountainous terrain. After WWI, it was part of the Kingdom of Serbs, Croats, and Slovenes, later renamed Yugoslavia. Italian forces occupied parts of Montenegro during WWII. In 1945, with the establishment of a federal Yugoslavia under Communist rule, Montenegro became one of six constituent republics.

In Apr. 1992, after four other republics had declared independence, Montenegro and Serbia became the Federal Republic of Yugoslavia. On June 3, 2006, Montenegro declared independence. The governing, pro-Western Democratic Party of Socialists (DPS) won the most seats in Oct. 16, 2016, parliamentary elections. Montenegro became a member of NATO, June 5, 2017. Berbers were the region's original inhabitants, followed by Carthaginians and Romans. Arabs conquered it in 683. In the 11th and 12th cents., a Berber empire ruled all NW Africa and most of Spain from Morocco.

Part of Morocco came under Spanish rule in the 19th cent.; France controlled the rest in the early 20th. Tribal uprisings lasted from 1911 to 1933. Independence was achieved Mar. 2, 1956. Tangier, an internationalized seaport, was incorporated into Morocco, 1956. Ifni, a Spanish enclave, was ceded in 1969.

King Hassan II assumed the throne in 1961, reigning until his death in 1999; he was succeeded by his eldest son. A bicameral legislature was established in 1997.

Five terrorist attacks, linked to al-Qaeda, in Casablanca May 16, 2003, left 45 dead. Following a series of suicide bombings in 2007, the government stepped up its campaign against militant Islamists. After Arab Spring street demonstrations Feb.-Mar. 2011, the monarchy implemented modest constitutional reforms. Throughout 2011, Moroccans staged protests over persistent unemployment, alleged unjust detentions, and lack of free speech. The moderate Islamist Justice and Development Party (PJD) won a plurality in Oct. 7, 2016, parliamentary elections. Large protests in the impoverished Rif region, 2017-18, prompted a harsh response by security forces. Morocco completed, Dec. 2018, one of the world's largest concentrated solar power complexes. Morocco and Israel agreed, Dec. 10, 2020, to establish diplomatic relations. The National Rally of Independents (RNI) party won the most seats in Sept. 8, 2021,

parliamentary elections. The RNI's Aziz Akhannouch became prime minister, Oct. 7, 2021, heading a coalition government.

Western Sahara

Western Sahara, formerly the protectorate of Spanish Sahara, is bounded on the N by Morocco, the NE by Algeria, the E and S by Mauritania, and the W by the Atlantic O. Phosphates are the major resource. Pop. (2021 est.) 668,862. Capital is Laayoune; pop. (2018 est.) 232,388.

Spain withdrew in Feb. 1976. On Apr. 14, 1976, Morocco annexed over 70,000 sq mi, with the remainder annexed by Mauritania. The Polisario Front guerrilla movement, which proclaimed the region independent Feb. 27, launched attacks with Algerian support. After Mauritania signed a treaty with Polisario Aug. 5, 1979, Morocco occupied Mauritania's portion of Western Sahara.

After years of bitter fighting, Morocco controlled the main urban areas, and Polisario vast, sparsely populated desert areas. The two sides implemented a cease-fire in 1991, when a UN peacekeeping force (MINURSO) was established with a mandate to prepare for a referendum on self-determination. Following military clashes, Polisario ended the cease-fire Nov. 14, 2020. Pres. Donald Trump announced Dec. 10, 2020, the U.S. would recognize Morocco's claim to Western Sahara—the U.S. was the first country to do so officially—as part of a deal in which Morocco would normalize relations with Israel. MINURSO had about 200 personnel in Western Sahara in mid-2022; as of Sept. 30, a referendum had still not been held.

The first Portuguese post on the Mozambique coast was established in 1505 on the trade route to Asia. Mozambique became independent June 25, 1975, after a 10-year war against Portuguese rule led by Frelimo (Front for the Liberation of Mozambique).

The Frelimo government, headed by Pres. Samora Machel, transitioned to a Communist system. Most of the country's whites emigrated. In the 1980s, severe drought and civil war caused famine and heavy loss of life. Pres. Machel was killed in a plane crash, Oct. 19, 1986. Frelimo formally abandoned Marxist-Leninism in 1989, and a new constitution, effective Nov. 30, 1990, established multiparty elections and a free-market economy.

A 1992 peace agreement ended 15 years of hostilities (up to 1 mil killed) between the government and the Mozambique National Resistance (Renamo), which became the main opposition party. Repatriation of 1.7 mil Mozambican refugees ended June 1995.

Frelimo retained power under Pres. Joaquim Chissano (1986-2005) and Pres. Armando Guebuza (2005-15). Filipe Jacinto Nyusi of Frelimo won the Oct. 15, 2014, presidential election. Clashes began in 2013 between government forces and Renamo, which challenged 2014 election results. A truce beginning Dec. 2016 paved the way for May 2018 constitutional amendments decentralizing political power. Cyclone Idai, Mar. 2019, killed more than 600 and displaced hundreds of thousands. Nyusi was reelected Oct. 15, 2019.

Natural gas reserves are estimated at more than 100 tril cu ft (third-largest in Africa). Beginning Oct. 2017, Islamist militants staged a series of attacks in the gas-rich northern Cabo Delgado region. Violence escalated in 2020-21. By mid-2021, Rwandan and other African forces were aiding Mozambican troops. Islamist attacks continued in 2022. The UNHCR estimated that, as of Aug. 31, 2022, more than 946,000 people in northern Mozambique were internally displaced by the conflict.

The Burmese arrived from Tibet before the 9th cent., displacing earlier cultures, and a Buddhist monarchy was established by the 11th cent. Burma was conquered by China's Mongol dynasty in 1272, then ruled by the Shan people as a Chinese tributary until the 16th cent. Britain subjugated Burma in three wars, 1824-84, and ruled the country as part of India until 1937, when Burma became self-governing. Full independence was achieved Jan. 4, 1948.

Gen. Ne Win dominated politics from 1962 to 1988, first as military ruler, then as constitutional president, advancing policies that increased economic socialization and international isolation. Ne Win resigned July 1988, following antigovernment riots. In Sept., the military seized power, under Gen. Saw Maung. In 1989 the country's name was changed to Myanmar.

Although the main opposition party won a decisive victory in 1990 multiparty elections, the military refused to surrender power. A key opposition leader, Aung San Suu Kyi, was held under house arrest, 1989-95, 2000-02, and 2003-10.

In late Sept. 2007, thousands of Buddhist monks led mass protests in Yangon; security forces cracked down by raiding monasteries, arresting monks, and firing on demonstrators. Cyclone Nargis, May 2-3, 2008, killed more than 138,000.

Suu Kyi's National League for Democracy (NLD) won 43 of 45 parliamentary seats in an Apr. 1, 2012, election, and Suu Kyi

traveled to Oslo, Norway, to accept the Nobel Peace Prize (awarded in 1991). The NLD won Nov. 8, 2015, parliamentary elections. NLD candidates were elected president by the parliament, 2016 and 2018. Suu Kyi, constitutionally barred from the presidency, assumed the newly created post of state counsellor, Apr. 6, 2016, becoming the country's de facto leader. The NLD swept Nov. 8, 2020, parliamentary elections.

A military coup, Feb. 1, 2021, ousted the civilian government. Suu Kyi and other NLD leaders were arrested (Suu Kyi was subsequently convicted of various offenses), and Nov. 2020 election results were annulled. Protests against the coup were met with a deadly crackdown. At least hundreds of protesters were killed. Thousands were arrested; hundreds were estimated to have died in detention, and others were tortured. The first executions of pro-democracy activists occurred July 2022. Opponents of the coup began an armed rebellion against the military regime. As a result of the rebellion and various ethnic conflicts, more than 1.3 mil people in Myanmar were internally displaced as of Sept. 2022.

Violence against Rohingya Muslims, in Rakhine state in the W, intensified beginning in 2012. Almost all of Myanmar's Rohingya are not recognized as citizens by the government. Almost 100,000 Rohingya fled by boat, 2014-15, seeking asylum. Attacks by the military beginning in Oct. 2016 caused about 75,000 Rohingya to flee to Bangladesh. New military and vigilante attacks on Rohingya in which at least 10,000 were killed led almost three-quarters of a million Rohingya to flee to Bangladesh beginning in Aug. 2017. A UN official reported, July 2019, that about 128,000 Rohingya in Myanmar were confined to "concentration camps." As of Aug. 31, 2022, Bangladesh hosted more than 943,000 Rohingya refugees.

Namibia was declared a German protectorate in 1890 and officially called South-West Africa. German troops putting down a rebellion killed tens of thousands of Herero and Nama people, 1904-08 (Germany, in 2021, acknowledged the “genocide”). South Africa seized the territory in 1915 during WWI. In 1966, the Marxist South-West Africa People’s Organization (SWAPO) launched a guerrilla war for independence, aided by Angola and Cuba. The UN General Assembly named the area Namibia in 1968.

A 1988 U.S.-mediated agreement ended South African administration. A constitution providing for multiparty government was adopted Feb. 9, 1990, and Namibia gained independence Mar. 21.

Walvis Bay, the principal deepwater port, was returned to Namibia by South Africa in 1994.

SWAPO, the leading political group since independence, won Nov. 2019 presidential and parliamentary elections but saw its vote decline amid a corruption scandal and a slumping economy.

The British reached the island in 1798, but it was annexed to the German Empire in 1886. After WWI, Australia administered Nauru under a League of Nations mandate. Japan occupied the island during WWII. In 1947 Nauru was made a UN trust territory, administered by Australia. It became an independent republic Jan. 31, 1968.

Phosphate exports provided Nauru with high per capita revenues. Phosphate reserves, however, are nearly depleted, and

environmental damage from strip mining has been severe. Rising sea levels linked to global climate change have eroded Nauru's coastline.

A 2012 Amnesty Intl. report found inhumane living conditions at Australia's detention center on Nauru for migrants intercepted trying to enter Australia by boat. An Australian government report, released Mar. 20, 2015, confirmed abuse of detainees by staff. By mid-2022, hundreds of refugees had left Nauru for resettlement in the U.S. (plus some to other countries), hundreds had been returned to their country of origin, and hundreds were detained in Australia after being transferred for medical treatment (some were released in 2022); slightly over 100 refugees remained in Nauru. A Sept. 24, 2021, Nauru-Australia agreement provided for keeping a detention center open indefinitely.

Nepal was originally a group of principalities, with the Gurkha principality becoming dominant about 1769. In 1951 King Tribhubana Bir Bikram, member of the Shah family, ended the system of rule by hereditary premiers of the Ranas family, who had kept the kings virtual prisoners, and established a cabinet system of government. Polygamy, child marriage, and the caste system were officially abolished in 1963. Political parties were legalized in 1990.

Nine members of Nepal's royal family, including King Birendra, died in a June 1, 2001, massacre. The killings were blamed on a 10th family member, Crown Prince Dipendra, who reportedly killed himself, allowing Birendra's brother Gyanendra Bir Bikram Shah Dev to take the throne.

Citing a Maoist insurgency, King Gyanendra assumed absolute authority, Feb. 1, 2005, but after protests, he agreed, Apr. 24, 2006, to reinstate parliament. A new government signed a peace accord with Maoist rebels Nov. 21 ending a decade-long civil war that claimed 13,000 lives. Maoists joined an interim parliament and cabinet in 2007. A constituent assembly voted May 2008 to abolish the monarchy and make Nepal a republic.

A new constitution, establishing a federal system with seven states, was adopted Sept. 20, 2015. Khadga Prasad Sharma Oli, leader of a non-Maoist Communist party, was elected prime min. by parliament, Oct. 11, 2015. Bidhya Devi Bhandari (of Oli's party) was elected by parliament, Oct. 28, 2015, as Nepal's first female president. Oli, facing a no-confidence vote, announced his resignation, July 23, 2016. A coalition of Communist parties won late 2017 legislative elections, and Oli returned as prime min., Feb. 15,

2018. After Oli lost support within his coalition and two attempts (Dec. 2020 and May 2021) to dissolve parliament were overturned by the Supreme Court, opposition leader Sher Bahadur Deuba won a confidence vote and became prime minister July 13, 2021.

A magnitude 7.8 earthquake near Kathmandu, Apr. 25, 2015, killed more than 8,000 people and displaced 2.8 mil. Historic temples were heavily damaged. A second quake, May 12, brought the combined death toll to over 8,600.

Overcrowding contributed to at least 11 deaths (9 in Nepal) on Mt. Everest during the 2019 climbing season, one of the highest annual death tolls. Nepal did not permit climbing in 2020 because of the COVID-19 pandemic; climbing resumed as of Apr. 2021.

Julius Caesar conquered the region in 55 BCE, when it was inhabited by Celtic and Germanic tribes. After the empire of Charlemagne fell apart, the Netherlands (Holland, Belgium, Flanders) split among counts, dukes, and bishops, passed to Burgundy and thence to Spain. William the Silent, prince of Orange, led a confederation of the northern provinces, called Estates, in the Union of Utrecht, 1579; in 1581 they repudiated allegiance to Spain. The rise of the Dutch republic to naval, economic, and artistic eminence came in the 17th cent.

After a period of French hegemony, 1795-1813, the Congress of Vienna in 1815 formed a kingdom of the Netherlands, including Belgium, under William I. In 1830, Belgium seceded.

The Netherlands maintained its neutrality in WWI but was invaded during WWII and occupied by Germany, 1940-45. In 1949, after several years of fighting, the Netherlands granted independence to Indonesia.

New Zealand comprises North Island, 43,911 sq mi; South Island, 58,084 sq mi; Stewart Island, 649 sq mi; Chatham Isls., 373 sq mi; and several groups of smaller islands. The Maori, a Polynesian group from the eastern Pacific, reached New Zealand before and during the 14th cent. The first European to sight New Zealand was Dutch navigator Abel Janszoon Tasman. The Maori refused to allow him to land. British Capt. James Cook explored the coasts, 1769-70.

British sovereignty was proclaimed and Maori land rights were recognized in the Treaty of Waitangi, 1840, with organized settlement beginning the same year. Representative institutions were granted in 1853. The Maori Wars, or New Zealand Wars, ended in 1870 with British victory. The colony became a dominion in 1907 and gained full independence in 1947.

A progressive tradition in politics began in the 19th cent. Much of the nation's economy has been deregulated since the 1980s. Jenny

Nicaragua, inhabited by various Indian tribes, was conquered by Spain in 1552. After gaining independence from Spain, 1821, Nicaragua was united for a short period with Mexico, then with the United Provinces of Central America, before becoming an independent republic, 1838. U.S. Marines occupied the country at times in the early 20th cent., the last time from 1926 to 1933.

Gen. Anastasio Somoza Debayle held the presidency 1967-72, 1974-79. Martial law was imposed in Dec. 1974, after officials were kidnapped by Marxist Sandinista guerrillas. Nationwide strikes touched off a civil war, 1978, which ended when Somoza fled Nicaragua and the Sandinistas took control of Managua, July 1979. Somoza was assassinated in Paraguay, Sept. 17, 1980.

Relations with the U.S. were strained as a result of Nicaragua's aid to leftist guerrillas in El Salvador and U.S. backing of anti-Sandinista contra guerrilla groups, which fought the Sandinista government throughout the 1980s. In 1985 the U.S. House rejected Pres. Ronald Reagan's request for military aid to the contras. The U.S. later secretly diverted funds to the contras.

In a stunning upset, Violeta Barrios de Chamorro defeated Sandinista leader Daniel Ortega Saavedra in national elections, Feb. 25, 1990. Conservative candidates won the 1996 and 2001 presidential elections. Drought and a drop in coffee prices precipitated an economic crisis in 2001.

Ortega won the Nov. 2006 presidential election. He was reelected Nov. 6, 2011, and Nov. 6, 2016. In 2016, Rosario Murillo Zambrana, Ortega's wife, was elected vice president.

Months of protests, beginning Apr. 2018, against government policies and authoritarian rule resulted in hundreds of deaths, most at the hands of security forces or allied paramilitary groups. Hundreds were arrested, some reportedly tortured in detention. By early 2021, more than 100,000 Nicaraguans had fled the country. In the months leading up to the Nov. 7, 2021, presidential election,

opposition leaders, activists, and critics of the government were arrested; Ortega and Murillo were reelected. Nicaraguans continued to leave for other countries—a total of more than 150,000 to Costa Rica alone by early 2022. Continuing its crackdown on dissent, the government arrested Catholic clerics and shut down church media outlets in 2022.

Seeking Chinese aid, Nicaragua established diplomatic relations with China, Dec.10, 2021, breaking ties with Taiwan.

Niger was part of ancient and medieval African empires. European explorers reached the area in the late 18th cent. The French colony of Niger was established 1900-22 after the defeat of Tuareg fighters, who had invaded the area from the north a century before. The country became independent Aug. 3, 1960.

In 1993, Niger held its first free and open elections since independence. A peace accord Apr. 24, 1995, ended a Tuareg rebellion that began in 1990. After a coup, Jan. 27, 1996, the military retained control. Oct.-Nov. 1999 elections, under a new constitution, restored civilian rule.

Popularly elected in 1999 and 2004, Pres. Mamadou Tandja invoked emergency powers in 2009 to remain in office. He was overthrown by a military junta Feb. 18, 2010. Civilian rule returned following 2011 elections. Pres. Mahamadou Issoufou won reelection in 2016. Mohamed Bazoum, of Issoufou's party, won a Feb. 21, 2021, presidential runoff.

Beginning in Feb. 2015, the Nigeria-based Islamist extremist group Boko Haram staged attacks in southern Niger. Niger sent

troops into Nigeria to fight Boko Haram and joined a regional joint force to combat Islamist terrorism. Islamist extremists based in Mali staged attacks in W Niger; an attack by ISIS-affiliated militants, Oct. 4, 2017, killed 9, including 4 U.S. special operations troops. Islamist violence in W Niger in 2021 killed hundreds of civilians. Islamist extremist attacks in W and S Niger continued in 2022. As of Aug. 31, 2022, Niger had more than 347,000 internally displaced persons and hosted over 203,000 refugees from Nigeria, as well as about 64,000 from Mali.

Early cultures in Nigeria date back to at least 700 BCE. From the 12th to the 14th cent., more advanced cultures developed in the Yoruba area, at Ife, and in the north, where Muslim influence prevailed. Portuguese and British slavers appeared in the 15th-16th cent. Britain seized Lagos, 1861, and gradually extended control inland until 1900. Nigeria became independent Oct. 1, 1960, and a republic Oct. 1, 1963.

On May 30, 1967, the Eastern Region seceded, proclaiming itself the Republic of Biafra, plunging the country into civil war. Casualties were estimated at over 1 mil, including many Biafrans (mostly Igbos) who died of starvation despite international relief efforts. The secessionists capitulated Jan. 12, 1970.

Nigeria emerged as one of the world's leading oil exporters in the 1970s, but much of the revenue has been squandered through

corruption and mismanagement. Oil spills have polluted much of the Niger Delta region.

After 13 years of military rule, the nation made a peaceful return to civilian government Oct. 1979. Military rule resumed Dec. 31, 1983. A coup brought Gen. Sani Abacha to power in 1993. His brutal rule ended June 8, 1998, when he died of an apparent heart attack. Olusegun Obasanjo won a presidential election Feb. 27, 1999, to lead a civilian government.

The imposition of strict Islamic law in northern states led to clashes, Jan.-Mar. 2000, in which at least 800 people died. Fighting between Muslims and Christians in the early 2000s claimed hundreds of lives. Vice Pres. Goodluck Jonathan, a southern Christian, became president in 2010 when his predecessor died. Jonathan won reelection Apr. 16, 2011, over Muhammadu Buhari, a northern-based Muslim.

Boko Haram, a radical Islamist group based in NE Nigeria seeking to establish an Islamist state, began terrorist attacks in 2009 against government forces and civilian targets. The group gained control of a large area in the NE and terrorist attacks escalated, 2013-15. Boko Haram split, in 2016, into ISIS-affiliated and non-affiliated factions.

Boko Haram also staged attacks in neighboring Chad, Cameroon, and Niger; troops from those countries fought Boko Haram in Nigeria beginning in 2015. Vowing tougher action against Boko Haram, Buhari defeated Jonathan in the Mar. 28-29, 2015, presidential election. Subsequent government offensives retook much of the territory Boko Haram had seized, but Boko Haram forces, including the ISIS-affiliated militants, continued to control areas of NE Nigeria and stage deadly attacks against civilians and security forces in the NE and elsewhere in the country, 2016-22.

Amid ongoing Islamist, as well as other religious and ethnic violence (including in Biafra), Buhari won reelection, Feb. 23, 2019. Boko Haram leader Abubakar Shekau died, May 2021, in a conflict with ISIS-affiliated fighters, as the ISIS forces became the dominant extremist group in the NE.

Islamist extremists, as well as other groups apparently seeking ransom, have kidnapped thousands of Nigerians and foreigners since 2014, including a number of mass abductions of schoolchildren.

The Council on Foreign Relations estimated that, by Sept. 2022, more than 92,000 people had been killed since 2011 as a result of Islamist extremist attacks, clashes with security forces, and actions by other armed groups. The UNHCR estimated that, as of Aug. 31, 2022, almost 343,000 Nigerian refugees were in Niger, Cameroon, or Chad; 2.2 mil Nigerians were internally displaced.

A WHO study released in May 2022 estimated 186,000 excess deaths in Nigeria related to the COVID-19 pandemic in 2020-21, exceeding the reported death tally by many tens of thousands.

Muslim Turks ruled present-day North Macedonia from 1389 to 1912. In 1913, the area was incorporated into Serbia, which in 1918 became part of the Kingdom of Serbs, Croats, and Slovenes (later Yugoslavia). In 1946, the area, then called Macedonia, became a constituent republic of Yugoslavia.

Ethnic Albanian guerrillas launched an offensive Mar. 2001 in NW Macedonia. An accord signed Aug. 13 paved the way for a NATO peacekeeping force. A law broadening the rights of ethnic Albanians was enacted Jan. 2002.

In 2015 and early 2016, tens of thousands of migrants from the Middle East and SW Asia who landed in Greece tried to cross Macedonia on their way to N Europe. After building border fencing and taking other steps to restrict access, Macedonia announced, Mar. 9, 2016, that its border with Greece was closed to migrants.

The first ruler of Norway was Harald the Fairhaired, who came to power in 872 CE. Between 800 and 1000, Norway's Vikings raided and occupied widely dispersed parts of Europe. The country was united with Denmark, 1381-1814, and with Sweden, 1814-1905. In 1905, the country became independent with Prince Charles of Denmark as king.

Norway remained neutral during WWI. In WWII, Germany attacked Norway Apr. 9, 1940, and held it until liberation May 8, 1945. The country abandoned its neutrality after the war and joined NATO. In a referendum Nov. 28, 1994, Norwegian voters rejected European Union membership.

Norway has one of the highest living standards in the world. Hydropower accounts for more than 90% of electricity production. Pakistan shares the 5,000-year history of the India-Pakistan subcontinent. At present-day Harappa and Mohenjo Daro, the Indus Valley civilization, with large cities and elaborate irrigation systems, flourished c. 4,000-2,500 BCE. Aryan invaders from the northwest conquered the region around 1,500 BCE, forging the Vedic civilization that dominated the region for over a thousand years. The first Arab invasion, 712 CE, introduced Islam. Present-day Pakistan and India were part of the Mughal Empire from 1526 to 1857. Muslim power faded by the end of the 19th cent. as the British gained control.

Muhammad Ali Jinnah (1876-1948) was the principal architect of Pakistan. When the British withdrew, Aug. 14, 1947, two largely Islamic regions of British India acquired self-government as Pakistan, with dominion status in the Commonwealth. Pakistan consisted of West Pakistan and East Pakistan, nearly 1,000 mi apart on opposite sides of India. Kashmir, a predominantly Muslim region divided between Pakistan and India, has remained a source of conflict between the two countries.

Rioting and strikes broke out in the East after Pakistan's government, Mar. 1, 1971, postponed the constituent assembly, dominated by supporters of regional autonomy for East Pakistan. Armed conflict between East and West lasted from Mar. to Dec. 1971, with India siding with Easterners, who proclaimed the independent nation of Bangladesh. Thousands were killed, and

some 10 mil Easterners fled to India. Full-scale war erupted between India and Pakistan. A day after Pakistan troops in the East surrendered, Pakistan agreed to a cease-fire in the West Dec. 17, 1971. On July 3, 1972, Pakistan and India signed a pact providing for troop withdrawals.

Zulfikar Ali Bhutto, who became president in 1971 and prime min. in 1973, was overthrown in a military coup July 1977. Convicted of complicity in a 1974 political murder, he was executed Apr. 4, 1979. Millions of Afghan refugees entered Pakistan after the USSR invaded Afghanistan Dec. 1979 and after U.S.-led forces began fighting the Taliban in Afghanistan in 2001. Although millions of refugees were repatriated, almost 1.3 mil Afghan refugees registered with the UNHCR were living in Pakistan as of June 30, 2022.

Pres. Mohammad Zia ul-Haq was killed when his plane exploded in Aug. 1988. Following Nov. elections, Benazir Bhutto, daughter of Zulfikar Ali Bhutto, became prime min. and the first elected woman leader of a Muslim nation. She was accused of corruption and dismissed by the president, Aug. 1990. Bhutto returned to power Oct. 1993 but was dismissed Nov. 1996 amid further corruption charges. Responding to India's nuclear weapons tests, Pakistan conducted its own tests in 1998.

Prime Min. Nawaz Sharif fired, Oct. 1999, army chief Gen. Pervez Musharraf, whose supporters staged a bloodless coup. Musharraf assumed the presidency June 20, 2001. Following the Sept. 11, 2001, terrorist attacks on the U.S., Pres. Musharraf pledged cooperation with the U.S. in fighting Taliban and al-Qaeda militants within Pakistan and in neighboring Afghanistan. An earthquake that rocked Pakistan and the Pakistani-held region of Kashmir Oct. 8, 2005, killed about 80,000 people.

More than 140 people died Oct. 18, 2007, when suicide bombers struck Benazir Bhutto's convoy upon her return from more than eight years in exile. Musharraf, who had won the Oct. 6 presidential election, gave up his army post Nov. 25 and was sworn in as civilian president the next day. Bhutto was assassinated Dec. 27, 2007, after a rally in Rawalpindi.

Headed by Bhutto's widower, Asif Ali Zardari, the Pakistan Peoples Party led in parliamentary elections Feb. 18, 2008. Musharraf resigned Aug. 18 under threat of impeachment, and Zardari became president Sept. 9. Amid deteriorating security, U.S. and Pakistani forces clashed with the Taliban near the Afghan border, and Islamists carried out new suicide attacks. A 2009 government offensive against the Taliban in the strategic Swat Valley displaced nearly 2 mil civilians. Catastrophic floods and monsoon rains, July-Aug. 2010, inundated one-fifth of Pakistan, leaving more than 1,750 people dead and displacing up to 20 mil.

On May 2, 2011, U.S. commandos killed al-Qaeda leader Osama bin Laden in Abbottabad. The raid, carried out by helicopter from Afghanistan, was launched without prior warning to Pakistani authorities. The U.S. has suspected some Pakistani military and other officials of covert links and assistance to Islamist extremist groups such as the Taliban and al-Qaeda.

On Oct. 9, 2012, 15-year-old Malala Yousafzai, who advocated for education rights for girls in Pakistan, was shot by the Taliban, sparking worldwide outrage. After treatment at a British hospital, she resumed her advocacy, for which she shared the 2014 Nobel Peace Prize. A terrorist attack on a Peshawar school, Dec. 16, 2014, left about 150 dead. In 2007-14, an estimated 7,500 people died in terrorist attacks. Fighting between Pakistani forces and Islamic extremists resulted in more than 17,000 fatalities, 2007-14.

Musharraf, charged with treason in 2014, was convicted in absentia, Dec. 2019. He had been allowed to leave the country, Mar. 18, 2016, for medical treatment in Dubai. Former Prime Min. Nawaz Sharif was returned to office in May 11, 2013, elections. With Sharif accused of corruption, a Supreme Court ruling, July 28, 2017, forced him to step down as prime min. Sharif was convicted on corruption charges, July and Dec. 2018; he was allowed to leave the country for medical treatment, Nov. 2019.

An Aug. 8, 2016, Islamist suicide bombing at a hospital in Quetta killed more than 70. At least 90 people were killed, Feb. 16, 2017, in a suicide bombing in Sehwan for which ISIS claimed responsibility. A

July 13, 2018, Islamist extremist suicide bombing in Mastung left at least 149 dead.

The party of former cricket star Imran Khan, the Pakistan Movement for Justice, with apparent backing from the military, won the most seats in July 25, 2018, parliamentary elections; Khan became prime min. Aug. 18. Arif Alvi, from Khan's party, was elected president Sept. 4, 2018. Hurt by economic problems and a loss of military support, Khan lost a no-confidence vote and was removed from office, Apr. 10, 2022. Shehbaz Sharif (brother of Nawaz Sharif) became prime minister, Apr. 11.

Following the Aug. 2021 Taliban victory in Afghanistan, attacks increased in Pakistan by Islamist militants apparently using sanctuaries in eastern Afghanistan. Unusually heavy monsoon rains, perhaps related to climate change, beginning in June 2022 caused flooding that inundated one-third of the country, killed over 1,600 by Sept. 30, and caused extensive damage to homes and agriculture; more than 33 mil people were displaced.

A WHO study released in May 2022 estimated 230,000 excess deaths in Pakistan related to the COVID-19 pandemic in 2020-21, eight times higher than the recorded tally.

The powerful Inca Empire had its seat at Cuzco in the Andes and covered much of western S America. A civil war had weakened the empire when Spaniard Francisco Pizarro began raiding Peru for its wealth, 1532. In 1533 he executed the Inca ruler, Atahualpa, and enslaved the people.

José de San Martín captured Lima from the Spanish in 1821; Simón Bolívar routed Spanish forces in 1824, and for much of the 19th cent., the country was governed by military leaders. Chile defeated Peru in the War of the Pacific, 1879-83. Right-wing groups allied with the military and the leftist APRA party vied for power in the first half of the 20th cent.

Peru returned to democratic leadership in 1980 but was plagued by economic problems and by leftist Shining Path (Sendero

Luminoso) guerrillas. Conflict between guerrillas and government troops, 1980-2000, killed more than 69,000.

Elected president in June 1990, Alberto Fujimori dissolved Congress, suspended parts of the constitution, and initiated press censorship, Apr. 1992. The leader of Shining Path was captured Sept. 12. Fujimori won reelection in 1995 and 2000, but his repressive antiterrorism tactics drew international criticism.

Scandals involving a top aide led Fujimori to leave office, Nov. 2000. He was convicted, 2007-15, on charges that included complicity in a paramilitary death squad's killings and misusing public funds.

In a presidential runoff election June 5, 2011, leftist Ollanta Humala Tasso defeated Keiko Fujimori, daughter of the former president. Pedro Pablo Kuczynski defeated Keiko Fujimori, June 5, 2016. Facing impeachment over a corruption scandal, Kuczynski resigned and was replaced, Mar. 2018, by Vice Pres. Martín Vizcarra. Accused of corruption, Vizcarra was impeached by Congress, Nov. 9, 2020.

In a June 6, 2021, presidential runoff, leftist José Pedro Castillo Terrones narrowly defeated (with 50.1% of the vote) Keiko Fujimori. Corruption scandals, sometimes-violent protests over rising prices, and numerous resignations of government officials marred Castillo's administration.

As of mid-2022, about 1.3 mil Venezuelan migrants and asylum seekers were in Peru, most having fled economic hardship and repression since 2015.

Peru was one of the worst affected countries in Latin America by the COVID-19 pandemic, which at times severely strained the health care system. By Aug. 22, 2022, the country had recorded more than 4 mil cases and 215,000 deaths; deaths per 100,000 pop. were the highest in the world.

Originally inhabited by Malay peoples, the archipelago was visited by Magellan, 1521. The Spanish founded Manila, 1571. Spain ceded the islands, named for King Philip II of Spain, to the U.S. for \$20 mil, 1898, following the Spanish-American War. U.S. troops suppressed a guerrilla uprising in a brutal war, 1899-1905. Japan attacked the Philippines Dec. 8, 1941, and occupied the islands during WWII. Independence was proclaimed, July 4, 1946. A republic was established.

The repressive and corrupt regime of Pres. Ferdinand Marcos and his wife, Imelda, was in place 1965-86. The assassination of prominent opposition leader Benigno S. Aquino Jr., Aug. 21, 1983, sparked calls for Marcos's resignation. Marcos defeated Corazon Aquino, widow of the slain opposition leader, Feb. 16, 1986, in an allegedly fraudulent election. Mass protests and international pressure forced Marcos to flee the country Feb. 25, and Aquino became president.

Her government was plagued by a weak economy, widespread poverty, and Communist and Muslim insurgencies. Fidel Ramos won the May 1992 presidential election. A treaty with Muslim separatist guerrillas providing for expansion and development of an autonomous Muslim region on Mindanao, in the southern Philippines, was signed Sept. 2, 1996.

Joseph (Erap) Estrada, a former movie actor, won the presidential election, May 11, 1998, but was impeached on bribery and corruption charges Nov. 13, 2000. Vice Pres. Gloria Macapagal Arroyo became president Jan. 20, 2001, and won reelection May 10, 2004. After Estrada was convicted in 2007 of taking more than \$85

mil in bribes and kickbacks while in office, then pardoned, Benigno “NoyNoy” Aquino III, the son of former Pres. Aquino, defeated Estrada in the May 10, 2010, presidential election.

The government, 2012 and 2014, signed new peace and autonomy deals with Muslim rebels on Mindanao; violence had persisted after the 1996 accord. However, the Abu Sayyaf Islamist guerrilla group and the rebel group Maute, both of which claimed allegiance to ISIS, continued to stage attacks.

Typhoon Haiyan, Nov. 8, 2013, killed more than 6,200 people and displaced over 4 mil.

Vowing a tough crackdown on drug crime, Rodrigo Duterte was elected president, May 9, 2016. By the end of 2017, an estimated 12,000 drug suspects had been killed by police or vigilantes since Duterte took office; 1.3 mil drug suspects had surrendered as of mid-2017, according to government figures. Muslim rebels held part of the city of Marawi, May-Oct. 2017. Legislation to implement the 2014 autonomy agreement was signed in July 2018. Jan. 21 and Feb. 6, 2019, referenda in the south endorsed a new Bangsamoro autonomous region, although extremist attacks continued. Duterte signed, July 3, 2020, an antiterrorism bill giving security forces sweeping powers. Prosecuted in the Philippines, journalist Maria Ressa shared the 2021 Nobel Peace Prize.

Slavic tribes in the area were converted to Latin Christianity in the 10th cent. Poland was a great power from the 14th to the 17th cent. In three partitions (1772, 1793, 1795) it was apportioned among Prussia, Russia, and Austria. Overrun by the Austro-German armies in WWI, it declared its independence on Nov. 11, 1918, and was recognized as independent by the Treaty of Versailles, June 28, 1919. Large territories to the east were taken in a war with Russia, 1921.

Germany and the USSR invaded Poland Sept. 1939 and divided the country. During the war, Nazis killed some 6 mil Polish citizens, half of them Jews. (Controversial 2018 legislation outlawed attributing to Poland any role in Nazi atrocities.) In compensation for territory ceded to the USSR when WWII ended, Poland received German territory comprising Silesia, Pomerania, West Prussia, and part of East Prussia. Communists, who aligned themselves with the USSR, dominated the 1947 election.

In 12 years of rule by Stalinists, large estates were abolished, industries nationalized, schools secularized, and Roman Catholic prelates jailed. Farm production fell off. Harsh working conditions caused a riot in Poznan, June 28-29, 1956. A new Politburo, committed to a more independent Polish Communism, was named Oct. 1956. Collectivization of farms was ended and religious liberty increased.

After worker riots over price rises and new wage rules, 1970, the rules were dropped and price rises revoked.

Independent trade union Solidarity gained strength in the 1980s. Led by Lech Walesa, Solidarity helped to win political and economic reforms, including free elections, in an Apr. 5, 1989, accord. Candidates endorsed by Solidarity swept the parliamentary elections, June 4. Walesa became president Dec. 22, 1990.

Policies to transform the economy into a free-market system led to inflation, unemployment, and a return to the political left in 1993

parliamentary elections. A former Communist, Aleksander Kwasniewski, succeeded Walesa as president, 1995. Poland became a full member of NATO, Mar. 12, 1999, and entered the European Union May 1, 2004.

Lech Kaczynski of the conservative Law and Justice (PiS) party won a presidential runoff election Oct. 23, 2005 (he was killed in a plane crash, Apr. 10, 2010). Andrzej Duda of PiS won a May 24, 2015, presidential runoff. PiS won Oct. 25, 2015, parliamentary elections. July 2017 legislation allowing the justice minister to appoint judges drew EU criticism as a threat to judicial independence. Legislation effective July 2018 to force the retirement of some Supreme Court judges prompted widespread protests. PiS won a slim majority in Oct. 13, 2019, parliamentary elections. Duda narrowly won reelection, July 12, 2020. Following an Oct. 2020 court ruling, and despite massive protests, a ban on almost all abortions went into effect Jan. 27, 2021. The EU, in 2021, began withholding some grant funding to Poland.

NATO, which first deployed troops to Poland in 2017, pledged at a June 2022 meeting to increase troop strength, in response to Russia's Feb. 2022 invasion of Ukraine. By late Sept., Poland hosted more than 1.4 mil Ukrainian refugees.

As of Aug. 22, 2022, the COVID-19 pandemic had caused more than 6.1 mil recorded cases and almost 117,000 deaths in Poland.

Romania's earliest known people merged with invading Proto-Thracians, preceding by centuries the Dacians. Rome occupied the Dacian kingdom, 106-271 CE; people and language were Romanized. The Turkey-dominated principalities of Wallachia and Moldavia were united in 1859, became Romania in 1861, and gained recognition as an independent kingdom, 1881.

After WWI, Romania acquired Bessarabia, Bukovina, Transylvania, and Banat. In 1940 it ceded Bessarabia and Northern Bukovina to the USSR, part of southern Dobrudja to Bulgaria, and northern Transylvania to Hungary. In 1941, Prem. Marshal Ion

Antonescu led Romania in support of Germany against the USSR. He was overthrown in 1944, and Romania joined the Allies. After occupation by Soviet troops, a People's Republic was proclaimed, Dec. 30, 1947.

The domestic policies of Nicolae Ceausescu (in power 1965) were repressive. All industry was state-owned, and state farms and cooperatives owned almost all Arable land. Ceausescu's security forces fired on anti-government demonstrators, Dec. 1989, killing hundreds, but when the army sided with the protesters, his regime fell. Ceausescu and his wife were executed Dec. 25, 1989.

A new constitution providing for a multiparty system took effect Dec. 8, 1991. Many state-owned companies were privatized in 1996. Romania became a full NATO member in 2004. It entered the European Union Jan. 1, 2007.

The Social Democratic Party's (PSD) Victor-Viorel Ponta became prime min. May 7, 2012. He ran for president in 2014 but lost the runoff to centrist Klaus Iohannis. Large protests over government incompetence led to Ponta's resignation, Nov. 4, 2015. The PSD's Viorica Dancila became Romania's first female prime min. Jan. 29, 2018. After Dancila, Oct. 10, 2019, lost a no-confidence vote, Ludovic Orban of the center-right National Liberal Party (PNL) became prime min., Nov. 4. Iohannis won reelection in a Nov. 24 presidential runoff (defeating Dancila). After the PNL finished second to the PSD in Dec. 6, 2020, parliamentary elections, the PNL's Florin Citu formed a short-lived coalition government. Nicolae Ciuca of the PNL became prime min., Nov. 25, 2021, heading a broad coalition with the PSD (which was scheduled to take over the premiership in May 2023).

Slavic tribes began migrating into present-day Russia from the W in the 5th cent. Scandinavian chieftains controlled much of today's western Russia beginning in the 9th cent. In the 13th cent., Mongols overran the area. Under the grand dukes and princes of Muscovy, or Moscow, Mongol control was ended by 1480. Ivan the Terrible was proclaimed Tsar of Russia, 1547. Peter the Great (1682-1725) extended the domain and, in 1721, founded the Russian empire. Western ideas and the beginnings of modernization spread through the empire in the 19th and early 20th cent.

Military reverses in the 1905 war with Japan and in WWI led to the breakdown of the Tsarist regime. The 1917 Revolution began in Mar. with a series of sporadic strikes for higher wages by factory workers. A provisional democratic government under Prince Georgi Lvov was established but a second provisional government, under Alexander Kerensky, followed in May. Vladimir Ilyich Lenin, Nov. 7, overthrew the Kerensky government and the freely elected Constituent Assembly in a Communist coup.

Soviet Union. Lenin's death Jan. 21, 1924, led to an internal power struggle won by Joseph Stalin. His brutal tactics, including purge trials, mass executions, and exile to work camps, resulted in millions of deaths.

Despite a Germany-USSR non-aggression pact signed in Aug. 1939, Germany invaded the Soviet Union, June 1941. Russian winter counterthrusts, 1941-42 and 1942-43; victory at Stalingrad (now Volgograd), Feb. 2, 1943 (2 mil total casualties); and resistance to the siege of Leningrad (now St. Petersburg) stopped the German advance. Russian armies drove the Germans from Eastern Europe and the Balkans in the next two years.

After WWII, Communists took over in countries throughout the region, extending the Soviet sphere of influence. The USSR and the U.S., the world's leading nuclear superpowers, became Cold War rivals. After Stalin died, Mar. 5, 1953, Nikita Khrushchev gained power and denounced Stalin, 1956, beginning "de-Stalinization."

Under Khrushchev the open antagonism of Poles and Hungarians toward Moscow's domination was suppressed in 1956. He aided the Cuban revolution under Fidel Castro but withdrew Soviet missiles from Cuba during a confrontation with U.S. Pres. John Kennedy, Sept.-Oct. 1962. Khrushchev was deposed, Oct. 1964, and replaced by Leonid I. Brezhnev. In Aug. 1968, Soviet forces invaded Czechoslovakia, crushing liberalization there.

Massive Soviet military aid to North Vietnam in the late 1960s and early 1970s helped ensure Communist victories throughout Indochina. In Dec. 1979, Soviet forces entered Afghanistan to support a pro-Soviet regime against U.S.-supported Muslim resistance fighters. In Apr. 1988, the Soviets agreed to withdraw their troops, ending a futile 8-year war.

Mikhail Gorbachev was chosen Communist Party gen. sec., Mar. 1985. In 1987 he initiated a program of political and economic reforms through openness (*glasnost*) and restructuring (*perestroika*). Gorbachev faced economic problems as well as ethnic and nationalist unrest in the republics. A coup by Communist hardliners Aug. 1991 was foiled with help from Russian Republic Pres. Boris Yeltsin. On Aug. 24, Gorbachev resigned as leader of the Communist Party. Several republics declared their independence. On Aug. 29, the Soviet Parliament voted to suspend all activities of the Communist Party. The Soviet Union officially broke up Dec. 26, 1991.

Russian Federation. Under Pres. Yeltsin, Russia took steps toward privatization, which caused inflation and a severe economic downturn. In June 1992, Yeltsin and U.S. Pres. George H. W. Bush agreed to massive arms reductions. In a referendum Dec. 12, 1993, a new constitution was approved. Russian troops fought rebels in the breakaway republic of Chechnya Dec. 1994-Aug. 1996, when a peace accord temporarily ended the conflict. Yeltsin was reelected in 1996.

An Aug. 1999 operation to suppress Islamic rebels in the republic of Dagestan reignited the war in neighboring Chechnya, where Russia launched a full-scale assault. Yeltsin unexpectedly resigned Dec. 31, 1999, naming Prime Min. Vladimir Putin as his interim successor. Putin won presidential elections Mar. 2000 and Mar. 2004. Putin's allies won legislative elections, Dec. 2003.

After Chechen rebels, Sept. 1, 2004, seized control of a school in Beslan, North Ossetia, Russian troops stormed the school Sept. 3; more than 330 people, including 186 children, died. Putin cited the terrorist threat Sept. 13 in proposing a government overhaul that tightened his control over parliament and regional officeholders. Russian forces killed Chechen rebel leader Aslan Maskhadov, Mar. 8, 2005, and Chechen guerrilla leader Shamil Basayev, organizer of the Beslan attack, July 10, 2006.

Constitutionally barred from seeking another term, Pres. Putin backed his protégé Prime Min. Dmitri Medvedev, who won the presidential election Mar. 2, 2008. Medvedev named Putin as prime min. A long-simmering conflict with Georgia erupted into open warfare Aug. 7-16. Russian troops supported secessionists in the enclaves of South Ossetia and Abkhazia, which Russia recognized as independent, Aug. 26, 2008.

Russia declared, Apr. 16, 2009, that it had ended counterterrorism operations in Chechnya; from June through Aug., there was an upsurge of insurgent violence in Chechnya and neighboring Dagestan and Ingushetia. Suicide bombers from Dagestan struck two Moscow subway stations Mar. 29, 2010, killing 40 people.

Medvedev and U.S. Pres. Barack Obama, Apr. 8, 2010, signed a nuclear arms reduction treaty known as New START. Putin won the Mar. 4, 2012, presidential election, though there were claims of fraud. Putin signed a law, June 30, 2013, effectively making it illegal to advocate publicly for gay rights. Persecution of LGBTQ people increased in subsequent years. A 2020 constitutional amendment defined marriage as only between a man and a woman.

After Ukraine's pro-Russian president was removed from office Feb. 22, 2014, Russia sent troops into Ukraine's Crimean Peninsula and annexed Crimea Mar. 18. Russia also provided military support to pro-Russian separatists in eastern Ukraine beginning in Apr. 2014; separatists gained control of part of the Donbas region.

Russia supported Pres. Bashar al-Assad in Syria's civil war beginning in 2011. In Sept. 2015, Russia sent combat aircraft and troops to Syria. Russian airstrikes against various rebel forces, including ISIS, and rebel-held areas caused high civilian casualties. An ISIS-affiliated group claimed responsibility for planting a bomb on a Russian airliner that crashed in Egypt, Oct. 31, 2015, killing all 224 onboard.

Putin's United Russia party won Sept. 18, 2016, parliamentary elections. With the media tightly controlled and amid allegations of fraud, Putin won a new 6-year term as president, Mar. 18, 2018; leading dissident Aleksei Navalny was barred from running. Constitutional changes approved in 2020 allowed Putin to serve two more 6-year terms as president after his current term expires in 2024.

U.S. government security agencies concluded in Dec. 2016 that Russia attempted to interfere in the 2016 U.S. presidential election, apparently to assist the candidacy of Donald Trump, using tactics including cyberattacks and manipulation of social media. U.S. officials concluded that Russian interference occurred in the 2018 and 2020 elections as well. The U.S., 2021, blamed Russia for cyberattacks on government agencies, infrastructure, and companies. The U.S. State Dept. estimated in Sept. 2022 that Russia had spent at least \$300 mil since 2014 to influence politics in more than two dozen countries around the world.

Russian agents were apparently responsible for the poisoning, in the UK in Mar. 2018, of a former Russian intelligence officer. Navalny was apparently poisoned, Aug. 20, 2020; he was arrested, Jan. 17, 2021, after returning from medical treatment abroad.

Beginning in 2014, the U.S. accused Russia of violating the 1987 Intermediate-Range Nuclear Forces (INF) Treaty. The U.S. withdrew from the INF treaty Aug. 2, 2019. A 5-year extension, agreed to by Russia and the U.S., of the New START treaty went into effect Feb. 2021.

Putin's party swept Sept. 2021 parliamentary elections. Opposition leaders charged fraud.

On Feb. 24, 2022, Russia launched a large-scale invasion of Ukraine from the north, east, and south. The U.S., the EU, and other nations imposed sanctions that hurt the Russian economy. Russia's initial northern attack faltered, but after 6 months of heavy fighting, Russia controlled extensive areas of eastern and southern Ukraine, somewhat reduced by Ukrainian offensives beginning in late Aug. 2022. Russian attacks caused high Ukrainian civilian casualties, and Russian troops were accused of war crimes. The U.S. in July estimated Russian troops killed or wounded since Feb. at over 75,000. A Russian mobilization in Sept. to enlist 300,000 new troops caused hundreds of thousands of people to leave the country. After sham referenda in Russian-controlled parts of four eastern and southern Ukrainian provinces, Putin signed legislation, Oct. 5, to annex the four regions.

Russia was one of the world's most severely affected countries by the COVID-19 pandemic, with 19.1 mil reported cases (9th-highest) by Aug. 22, 2022. A May 2022 WHO report estimated 1 mil excess COVID-related deaths in Russia in 2020-21, more than triple its reported number.

For centuries, the Tutsi dominated the Hutu majority. A civil war broke out in 1959 and Tutsi power was ended. Many Tutsi went into exile. Rwanda, which had been part of the Belgian UN trusteeship of Rwanda-Urundi, became independent July 1, 1962.

A large-scale massacre of Tutsi occurred in 1963. Hutu rivalries led to a bloodless coup July 1973 in which Hutu army officer Juvénal Habyarimana took power. After an invasion and coup attempt by Tutsi exiles in 1990, a multiparty democracy was established.

Renewed ethnic strife led to an Aug. 1993 peace accord between the government and rebels of the Tutsi-led Rwandan Patriotic Front (RPF). But after Habyarimana and Burundi Pres. Cyprien Ntaryamira were killed Apr. 6, 1994, in a suspicious plane crash, violence broke out. More than 1 mil may have died in massacres, mostly of Tutsi by Hutu militias, and in civil warfare as the RPF sought power. About 2 mil Tutsi and Hutu fled to camps in Zaire (now Dem. Rep. of the Congo, or DRC) and other countries; many died of disease. French troops under a UN mandate temporarily moved into SW Rwanda June 23 to establish a safe zone. The RPF claimed victory, installing a government led by a moderate Hutu president in July. More than 1 mil refugees, mostly Hutu, returned to Rwanda in Nov.-Dec. 1996.

Former Prime Min. Jean Kambanda pleaded guilty to genocide, May 1, 1998, before the UN-backed Intl. Criminal Tribunal for Rwanda (ICTR); he received a life sentence Sept. 4, 1998. RPF leader Maj. Gen. Paul Kagame became Rwanda's first Tutsi president Apr. 22, 2000.

Rwandans approved a new constitution, May 26, 2003, and reelected Pres. Kagame, Aug. 25. Rwanda cut diplomatic ties with France Nov. 24, 2006, after a French judge linked Kagame to the 1994 deaths of Habyarimana and Ntaryamira. The country restored relations with France, Nov. 2009, the same month Rwanda joined the Commonwealth. Accused of being one of the architects of the 1994 genocide, Col. Theoneste Bagosora was convicted and

sentenced to prison by the ICTR, Dec. 18, 2008. A Rwandan court Jan. 20, 2009, sentenced former Justice Min. Agnes Ntamabyariro to life in prison for her role in inciting the massacres. Up to 4,000 Rwandan troops fought that month alongside Congolese forces against Hutu militias in eastern DRC. After a campaign criticized as repressive by human rights groups, Pres. Kagame won reelection Aug. 9, 2010.

An Oct. 17, 2012, UN report found that the Rwanda military was backing a rebellion (2012-13) by the mostly-Tutsi M23 group in the DRC. Shortly before the ICTR ceased operations, Dec. 31, 2015, one of its most-wanted fugitives, Ladislav Ntaganzwa, was arrested by Interpol in the DRC. His genocide trial in Rwanda ended in a conviction and life sentence, May 28, 2020. Suppressing political opposition, Kagame won—with almost 99% of the vote—a new term as president in an Aug. 4, 2017, election.

Dissident Paul Rusesabagina, whose protection of over 1,200 Tutsi from the 1994 genocide was dramatized in the film *Hotel Rwanda*, was arrested, Aug. 2020, on terrorism charges. He was convicted and sentenced to 25 years in prison, Sept. 20, 2021.

By Aug. 2022, more than 84% of Rwandans had been vaccinated against the virus causing the COVID-19 pandemic that began in early 2020—the highest percentage for any country on the African mainland.

St. Kitts (formerly St. Christopher; known by Indigenous peoples as Liamuiga) and Nevis were reached by Columbus in 1493. They were settled by Britain in 1623 (ownership was disputed with France until 1713). The colony achieved self-government in 1967, becoming independent, Sept. 19, 1983. Twenty years of Labour Party governments ended when an opposition coalition won Feb. 16, 2015, legislative elections. Portuguese settlers arrived in the 15th cent., but French control grew from the 17th cent. The last independent Muslim state was subdued in 1893. Senegal became an independent republic Aug. 20, 1960, but French political and economic influence remained strong. Senegambia, a loose confederation of Senegal and The Gambia, was established in 1982 but dissolved seven years later.

Forty years of Socialist Party rule ended when Abdoulaye Wade won a presidential runoff election, Mar. 19, 2000. A Senegalese ferry capsized Sept. 26, 2002, killing at least 1,863 people. Wade lost his bid for a third term Mar. 26, 2012, to Macky Sall. After a campaign marred by violence, Sall's coalition won July 30, 2017, legislative elections. Sall won the Feb. 24, 2019, presidential election; leading opposition candidates were barred. Sall's coalition initially fell one seat short of a majority in July 31, 2022, legislative elections—but gained a majority after one former opposition member joined. Sall appointed former foreign minister Amadou Ba prime minister as of Sept. 17, 2022.

Serbia was a vassal principality of Turkey from 1389 to 1878, when the Treaty of Berlin established it as an independent kingdom.

After the Balkan wars, Serbia annexed Old Serbia and Macedonia, 1913.

When the Austro-Hungarian empire collapsed after WWI, the Kingdom of Serbs, Croats, and Slovenes—Yugoslavia after 1929—was formed from the provinces of Croatia, Dalmatia, Bosnia, Herzegovina, Slovenia, Vojvodina, and the independent state of Montenegro.

After Nazi Germany's occupation 1941-45, Yugoslavia became a federal republic, headed by Josip Broz, a Communist, known as Marshal Tito. He rejected Stalin's dictatorship and accepted economic and military aid from the West. After Tito died in 1980, Yugoslavia held together for a decade before breaking apart. During 1991-95, Serbia, under Pres. Slobodan Milosevic, supported ethnic Serb fighters in Croatia and in Bosnia and Herzegovina, which had declared independence. The republics of Serbia and Montenegro proclaimed a new Federal Republic of Yugoslavia, Apr. 17, 1992. The UN imposed sanctions on the newly reconstituted Yugoslavia to end the bloodshed in Bosnia.

A peace agreement was reached in 1995. A UN-backed war crimes tribunal began in May 1996 to try suspects from the former Yugoslavia. Barred from running for a third term as Serbian president, Milosevic had himself inaugurated as president of Yugoslavia, July 23, 1997.

Serbian efforts to suppress a secessionist movement in Kosovo led in Mar.-June 1999 to a war with the U.S. and its NATO allies; they accused Milosevic of pursuing a policy of ethnic cleansing against the predominantly Muslim Kosovars (ethnic Albanians). NATO stationed a multinational force in Kosovo, which was placed under UN administration.

Milosevic initially refused to accept defeat by opposition leader Vojislav Kostunica in a 2000 presidential election but resigned Oct. 6 after mass demonstrations. After surrendering to Serbian authorities Apr. 1, 2001, Milosevic was extradited June 28 to The Hague, Netherlands, where a UN tribunal had indicted him for war crimes. He was found dead in prison Mar. 11, 2006, before his trial was completed.

A pact to reconstitute Yugoslavia as a new union of Serbia and Montenegro took effect Feb. 4, 2003. Zoran Djindjic, premier of the Republic of Serbia, was assassinated Mar. 12 in Belgrade, triggering a roundup of more than 4,500 people associated with organized crime and the Milosevic regime. Montenegrins voted for separation in a referendum May 21, 2006, and Montenegro became an independent republic June 3.

Kosovo declared independence from Serbia Feb. 17, 2008, but Serbia refused to recognize the new country. Following parliamentary elections in Serbia May 11, a pro-Western government took office. To meet a requirement for future EU membership, Serbia arrested, in 2008, former Bosnian Serb leader Radovan Karadzic; he was convicted at The Hague of genocide and crimes against humanity, Mar. 24, 2016. Serbia's parliament passed a resolution Mar. 31, 2010, apologizing for the 1995 massacre of 8,000 Bosniaks (primarily Muslim ethnic group) by Bosnian Serbs at Srebrenica. Ratko Mladic, the former Bosnian Serb military commander accused of directing the Srebrenica massacre, was arrested in Serbia, May 2011, and sent to The Hague; he was convicted, Nov. 22, 2017, of genocide, war crimes, and crimes against humanity. Aleksandar Vucic, an advocate of EU membership and also close ties to Russia, became prime min. following Mar. 16, 2014, elections.

An estimated 900,000 refugees and other migrants, largely from the Middle East and SW Asia, passed through Serbia in 2015 and early 2016, most en route to N Europe. The government essentially closed Serbia's borders Mar. 9, 2016.

Vucic was elected president, Apr. 2, 2017. Ana Brnabic took office, June 29, as Serbia's first female prime min. Months of anti-Vucic demonstrations began in late 2018, protesting authoritarian policies and control of the media. In June 21, 2020, parliamentary elections boycotted by leading opposition parties, Vucic's coalition won a landslide victory. Vucic won reelection, Apr. 3, 2022, and his coalition won parliamentary elections.

The islands were occupied by France in 1768 and seized by Britain in 1794. Seychelles declared independence June 29, 1976. Tourism, a major driver of economic growth, was hurt by the COVID-19 pandemic in 2020, before rebounding in 2021. Over 86% of the pop. had been vaccinated, the highest percentage in Africa.

The country's first president was ousted in a 1977 coup by socialist leader France Albert René. A 1993 constitution provided for a multiparty state. René resigned in 2004. Vice Pres. Opposition candidate Wavel Ramkalawan defeated Faure in the Oct. 2020 presidential election, ending more than four decades of rule by Faure's party.

The British founded Freetown, 1787, as a haven for freed slaves. Full independence arrived Apr. 27, 1961. A one-party state was established by referendum in 1978.

Mutinous soldiers ousted Pres. Joseph Momoh, Apr. 30, 1992. A coup, Jan. 16, 1996, paved the way for multiparty elections and a return to civilian rule. A peace accord, signed Nov. 30 with the

Revolutionary United Front (RUF), brought a temporary halt to a civil war that had claimed over 10,000 lives in five years.

After a May 25, 1997, coup, Nigeria's military restored Pres. Ahmad Tejan Kabbah to power on Mar. 10, 1998, but RUF rebels mounted a guerrilla counteroffensive, killing thousands of civilians and mutilating thousands more. A power-sharing agreement between the Kabbah government and the RUF, July 1999, collapsed in early May 2000, but rebel leader Foday Sankoh was captured in Freetown, May 17 (he died in UN custody, July 29, 2003). Government and rebel leaders declared an official end to the war Jan. 18, 2002; more than 50,000 people had died in the conflict. Kabbah won the May 14, 2002, presidential election.

Opposition leader Ernest Bai Koroma won a presidential runoff vote, Sept. 8, 2007. Three former RUF leaders were convicted of war crimes, Feb. 25, 2009. A 2012 cholera epidemic caused about 23,000 cases and 300 deaths. Koroma won reelection Nov. 17, 2012. An Ebola virus epidemic caused 14,124 cases and 3,956 deaths in Sierra Leone, 2013-16. After a campaign marred by violence, Julius Maada Bio, a leader of the 1992 mutiny and 1996 coup, was declared the winner, Apr. 4, 2018, of a presidential runoff election. On Feb. 7, 2019, Bio declared a national emergency in response to the high incidence of rape and other sexual violence against women. Parliament voted, July 23, 2021, to abolish capital punishment. Soaring inflation in 2022 led to violent protests in Aug. 2022, met with a harsh government response, leaving more than two dozen dead.

Founded in 1819 by Sir Thomas Stamford Raffles, Singapore was a British colony until 1959, when it became autonomous within the Commonwealth. On Sept. 16, 1963, it joined with Malaya, Sarawak, and Sabah to form the Federation of Malaysia. Tensions between Malays, dominant in the federation, and ethnic Chinese, dominant in Singapore, led to an accord under which Singapore became a separate nation, Aug. 9, 1965.

Singapore is a major port and manufacturing, banking, and commerce center. Asian immigrant workers hold many low-paying jobs. The government, dominated by the People's Action Party (PAP), has taken strong actions to keep order and suppress dissent.

Singapore's first prime min., Lee Kuan Yew (in office 1959-90), credited with building the country's strong economy, died Mar. 23, 2015. His son, Lee Hsien Loong, took office as prime min., Aug. 12, 2004. Halimah Yacob became Singapore's first female president, Sept. 14, 2017.

Singapore had recorded more than 1.8 mil total COVID-19 cases by Aug. 22, 2022; about 85% of the pop. had been vaccinated. After a pandemic-related GDP decline in 2020, the economy rebounded in 2021.

The Slovenes settled in their current territory during the 6th to 8th cent. They fell under German domination in the 9th cent. After 1848, the Slovenes, divided among several Austrian provinces, began their struggle for unification. In 1918 a majority of Slovenes became part of the Kingdom of Serbs, Croats, and Slovenes, later renamed Yugoslavia.

Slovenia declared independence June 25, 1991; attained full membership in the EU and NATO in 2004; and adopted the euro Jan. 1, 2007. About 474,000 migrants (many from the Middle East and SW Asia) entered Slovenia Oct. 1, 2015-Mar. 8, 2016; Slovenia, Mar. 8, essentially closed its border to migrants. The rightist, anti-

immigration Slovenian Democratic Party (SDS) won the most seats in June 3, 2018, National Assembly elections. Five center-left parties formed a coalition minority government but couldn't pass legislation. Janez Jansa of SDS became prime minister, Mar. 13, 2020. The environmentalist, pro-democracy Freedom Movement (GS) outpolled the SDS in Apr. 24, 2022, elections; Robert Golob of GS became prime minister, heading a center-left coalition government.

As of Aug. 22, 2022, the COVID-19 pandemic had caused about 1.1 mil recorded cases in Slovenia and over 8,000 deaths.

The Solomon Isls. were inhabited by Melanesians. Britain established a protectorate in the 1890s over most of the group. The islands, including Guadalcanal, saw major WWII battles. They achieved self-government, Jan. 2, 1976, and formal independence, July 7, 1978.

To restore order after years of factional violence, an Australian-led regional security force (RAMSI) arrived in July 2003.

Following Apr. 2006 elections, parliament's choice of Snyder Rini as prime min. led to two days of rioting in Honiara over alleged influence-buying by the ethnic Chinese business community. Rini resigned, Apr. 26, 2006. Former prime min. Manasseh Sogavare (2000-01, 2006-07) again became head of government following Nov. 19, 2014, parliamentary elections. RAMSI formally ended June 2017. Sogavare, Nov. 6, 2017, lost a no-confidence vote, but he returned as prime minister after Apr. 3, 2019, elections.

Seeking Chinese aid, the government in 2019 switched diplomatic relations from Taiwan to China. A security agreement with China was signed in 2022. Parliament, Sept. 8, 2022, approved a constitutional amendment postponing 2023 elections, most likely until 2024.

British Somaliland (present-day N Somalia) was formed in the 19th cent., as was Italian Somaliland (now central and S Somalia). Italy lost its African colonies in WWII. British Somaliland gained independence, June 26, 1960, and by prearrangement, merged, July 1, with the UN Trust Territory of Somalia to create the independent Somali Republic.

On Oct. 15, 1969, Somalia's first civilian president, Abdirashid Ali Sharmarke, was assassinated. Six days later, Maj. Gen. Muhammad Siad Barre led a military coup. In 1970, he declared the country a socialist state.

Somalia has laid claim to Ogaden, the huge eastern region of Ethiopia, peopled mostly by Somalis. Some 11,000 Cuban troops with Soviet arms defeated Somali army troops and ethnic Somali rebels in Ethiopia, 1978. Guerrilla fighting in Ogaden continued until 1988, when a peace agreement was reached with Ethiopia.

Fighting in Mogadishu led Siad Barre to flee the capital, Jan. 1991. Fighting between rival factions caused 40,000 casualties, 1991-92, and by mid-1992, the civil war, drought, and banditry combined to produce a famine that threatened some 1.5 mil people.

U.S. troops and the UN worked to safeguard food delivery, 1991-93, resulting in significant U.S. and other casualties; a failed mission Oct. 3-4, 1993, left 18 U.S. troops and more than 500 Somalis dead. The U.S. withdrew its peacekeeping forces Mar. 25, 1994.

When the last UN troops pulled out, Mar. 3, 1995, armed factions controlled different regions. A peace deal Jan. 29, 2004, led to the Aug. 22 inauguration of a transitional parliament, Somalia's first legislature in 13 years. Meeting in Nairobi, Kenya, the parliament chose Abdullahi Yusuf Ahmed as president. On June 5, 2005, an

Islamist militia took over Mogadishu. Islamists held much of the central and southern regions.

With aid from Ethiopian troops, transitional govt. forces recaptured Mogadishu in Dec. 2006. The UN Security Council authorized, Feb. 20, 2007, an African Union peacekeeping mission to Somalia (AMISOM). An upsurge of fighting in Mogadishu, Feb.-Apr., killed hundreds of people and caused 350,000 to flee. Bombings and kidnappings escalated in 2007-08; many of the attacks on transitional authorities and their allies were blamed on al-Shabab, an al-Qaeda ally.

After Pres. Yusuf resigned Dec. 29, 2008, the transitional parliament, meeting in Djibouti Jan. 31, 2009, elected a moderate Islamist, Sheikh Sharif Sheikh Ahmed. Meanwhile, pirates carried out more than 200 attacks off the Horn of Africa in 2009. Pirates and Islamist insurgents continued to disrupt famine relief efforts in 2010-11. Pressured by AMISOM forces, al-Shabab pulled out of Mogadishu, Aug. 6, 2011, but continued to control much of southern Somalia. A caretaker government was sworn in Aug. 20, 2012, and the new parliament elected Hassan Sheikh Mohamud president Sept. 10. Bombings and other attacks by al-Shabab, in Mogadishu and elsewhere, continued. Al-Shabab leader Ahmed Abdi Godane was killed by a U.S. airstrike Sept. 1, 2014. AMISOM and Somali forces had pushed al-Shabab out of major towns by mid-2015. However, the group's terrorist attacks continued, and it retook territory in subsequent years.

Delayed by violence, late 2016 indirect elections resulted in the seating of a new bicameral parliament Dec. 27. Parliament, Feb. 8, 2017, elected former Prime Min. Mohamed Abdullahi Mohamed (2010-11) as Somalia's president. He pledged stronger action against Islamist militants, but further deadly al-Shabab attacks occurred. A truck bombing in Mogadishu, Oct. 14, 2017, killed more than 500. Combat and terrorist attacks continued, 2018-22. An al-Shabab attack on a Mogadishu hotel, Aug. 19-21, 2022, left more than 20 dead and over 100 wounded.

U.S. forces assisted Somali government forces and AMISOM troops. AMISOM had about 19,000 troops in Somalia on Apr. 1,

2022, when its mission officially ended. It was replaced by the African Union Transition Mission in Somalia (ATMIS), under which Somali government forces would take the lead role in fighting al-Shabab.

Delayed indirect legislative elections were completed Apr. 2022, and on May 15, Hassan Sheikh Mohamud was again elected president by legislators. Ongoing drought and warfare left millions of Somalis facing food insecurity in 2022.

San and KhoiKhoi people were the original inhabitants. Bantus, including Zulu, Xhosa, Swazi, and Sotho, occupied the area from northeastern to southern South Africa before the 17th cent.

The Dutch settled the Cape of Good Hope area, beginning in the 17th cent. Britain seized the Cape, 1806. Many Dutch trekked north and founded two republics, Transvaal and Orange Free State. Diamonds were discovered, 1867, and gold, 1886. The Dutch (Boers) resented encroachments by the British and others; the Anglo-Boer War followed, 1899-1902. Britain won and created, May 31, 1910, the Union of South Africa, incorporating two British

colonies (Cape and Natal) with Transvaal and Orange Free State. After a referendum, the Union became the Republic of South Africa, May 31, 1961, and withdrew from the Commonwealth (it rejoined in 1994).

Daniel Malan's National Party, elected in 1948, made the policy of separate development of the races, or apartheid, official. Under apartheid, the majority-Black population was restricted to living and working in designated areas, attended separate schools, could hold only certain jobs, and were paid less than whites for similar work. Only whites could vote or run for public office. Persons of Asian Indian ancestry and those of mixed race ("coloureds") had limited political rights.

Protests against apartheid were suppressed. At Sharpeville on Mar. 21, 1960, government troops killed 69 Black protesters. At least 600 persons, mostly Bantus, were killed in 1976 anti-apartheid riots. In 1986, Nobel Peace Prize winner Bishop Desmond Tutu called for Western nations to apply sanctions against South Africa to force an end to apartheid. On May 19, South Africa attacked three neighboring countries—Zimbabwe, Botswana, Zambia—striking at guerrilla strongholds of the anti-apartheid African National Congress (ANC).

Some 2 mil South African Black workers staged a strike, June 6-8, 1988. Pres. P. W. Botha, head of the government since 1978, resigned Aug. 14, 1989, and was replaced by F. W. de Klerk. In 1990 the government lifted its ban on the ANC. Anti-apartheid leader Nelson Mandela was freed Feb. 11 after more than 27 years in prison.

In 1993 negotiators agreed on basic principles for a new democratic constitution, and Mandela and de Klerk shared the Nobel Peace Prize. South Africa's partially self-governing Black territories, or "homelands," were incorporated into a national system of nine provinces. The ANC won elections Apr. 26-29, 1994, making Mandela president. The predominantly-Zulu Inkatha Freedom Party won control of the legislature in a mainly Zulu province. By then, fighting between the ANC and Inkatha had killed more than 14,000 people in the Zulu region.

A post-apartheid constitution became law Dec. 10, 1996. The ANC won elections, June 2, 1999, and ANC leader Thabo Mbeki became president. South Africa, Nov. 30, 2006, became the first African country to legalize same-sex marriage.

Mbeki's former deputy president, Jacob Zuma, became president after Apr. 22, 2009, elections. Despite corruption charges, Zuma was reelected president by the National Assembly, May 21, 2014. With the economy weak and claims of corruption continuing, Zuma resigned Feb. 14, 2018. Cyril Ramaphosa, head of the ANC since Dec. 2017, was elected president by the National Assembly, Feb. 15, 2018. The ANC retained a parliamentary majority in May 8, 2019, elections, and the National Assembly reelected Ramaphosa president, May 22, 2019. The jailing, July 7, 2021, of former Pres. Zuma for failing to cooperate with a corruption inquiry triggered violent protests and looting that left hundreds dead.

South Africa was the African country hit hardest by the COVID-19 pandemic. By Aug. 22, 2022, the country had 4 mil recorded cases, and over 102,000 had died.

South Sudan was a region of the Republic of the Sudan when that country became independent in 1956. Northerners (mostly Arab Muslims) dominated, while southerners (mostly Black Africans who practiced Christianity or traditional religions) were marginalized. Southern rebels waged war against the north, 1955-72, until an agreement was reached offering regional self-government for the south. Oil was discovered in the south in 1978.

Civil war broke out again in 1983. Fighting and related famine cost an estimated 2 mil lives and displaced millions of southerners. A peace accord was signed in 2005. A power-sharing agreement allowed for an independence referendum.

Almost 99% of southern Sudanese who voted in the referendum, Jan. 9-15, 2011, supported secession. The UN Security Council, July 8, authorized a peacekeeping force (UNMISS) for the area. South Sudan attained full independence July 9, 2011.

Pres. Salva Kiir fired Vice Pres. Riek Machar, July 23, 2013. Heavy fighting broke out in Juba in Dec. 2013 between government troops and rebels led by Machar. Forces of Kiir and Machar (who belong to different ethnic groups) battled throughout the country in 2014-15. Kiir and Machar signed a peace accord Aug. 2015. Renewed heavy fighting began July 7, 2016. A new peace agreement was signed Sept. 12, 2018. A U.S.-funded study reported, Sept. 26, 2018, that South Sudan's civil war had caused about 383,000 "excess deaths" since late 2013. After Kiir and Machar agreed in Feb. 2020 on a new transitional government, leading to elections in three years, Machar was sworn in as first vice president Feb. 22. However, some violence continued. As of Aug. 31, 2022, more than 2.2 mil South Sudanese were internally displaced, and over 2.3 mil were refugees in neighboring countries.

As of May 31, 2022, UNMISS had more than 15,000 uniformed personnel in South Sudan. Millions of South Sudanese faced hunger in 2022 as a result of drought, floods, and food shortages related to the war in Ukraine.

Settled by Iberians, Basques, and Celts, Spain was successively ruled (wholly or in part) by Carthage, Rome, and the Visigoths. Muslims invaded Iberia from N Africa in 711. Reconquest of the peninsula by Christians from the N laid the foundations of modern Spain. In 1469 the kingdoms of Aragon and Castile were united by the marriage of Ferdinand II and Isabella I. Moorish rule ended with the fall of Granada, 1492, the year Spain's large Jewish community was expelled.

Spain established a colonial empire after Columbus's 1492 "discovery" of America. Cortés conquered Mexico, and Pizarro conquered Peru. Spain lost most of its American colonies in the early 19th cent. and Cuba, the Philippines, and Puerto Rico in the Spanish-American War, 1898.

Primo de Rivera became dictator, 1923. King Alfonso XIII revoked the dictatorship, 1930, but was forced into exile in 1931. A republic was proclaimed, which disestablished the church, curtailed its privileges, and secularized education. A Popular Front of

socialists, Communists, republicans, and anarchists governed 1936-39.

Army officers under Francisco Franco revolted, 1936. Some 500,000 to 1 mil died in the Spanish Civil War before Franco's Nationalist forces won a complete victory Apr. 1, 1939. Franco ruled as a dictator. Spain was officially neutral in WWII but had cordial relations with Nazi Germany for most of the war.

After Franco's death, Nov. 20, 1975, Prince Juan Carlos became king. In free elections, June 1977, moderates and democratic socialists won the most votes. The king thwarted a 1981 coup attempt by right-wing military officers. The Socialist Workers' Party (PSOE), under Felipe González Márquez, won four consecutive general elections, 1982-93, but lost to a coalition of conservative and regional parties, 1996.

Islamic extremists bombed four commuter trains in central Madrid, Mar. 11, 2004, killing 191 people. The PSOE won elections three days later. Spain legalized same-sex marriage in 2005.

Spain's economy suffered during the worldwide financial crisis that began in 2008; in May 2010, as the budget deficit mounted, the government introduced austerity measures to reassure international lenders. Mariano Rajoy's conservative Popular Party (PP) won Nov. 2011 elections. Spain received a 100-bil euro EU bailout for its ailing banks in 2012. Spain's unemployment rate surpassed 26% in 2013. GDP began growing in 2014, after five years of decline, but unemployment remained high.

Juan Carlos abdicated in favor of his son, who became King Felipe VI, June 19, 2014. Hurt by corruption scandals, the PP lost support in Dec. 20, 2015, and June 26, 2016, legislative elections, but Rajoy was sworn in as head of a minority govt., Oct. 31, 2016. Rajoy lost a no-confidence vote, June 1, 2018; the PSOE's Pedro Sánchez became prime min. The PSOE won the most seats but not a majority in Apr. 28 and Nov. 10, 2019, elections. Sánchez formed a new coalition minority government, Jan. 7, 2020.

In one of a series of events linked by police to an Islamist extremist cell in Catalonia, 14 people were killed and more than 100 injured in Barcelona, Aug. 17, 2017, when a terrorist drove a van

through a crowded pedestrian area; he then apparently killed the driver of a car he stole.

Spain was the European entry point for almost 183,000 African and Middle Eastern migrants (most arriving by boat), 2018-21. More than 21,000 arrived, Jan. to mid-Sept. 2022.

Spain experienced extreme summer heat, drought, and wildfires in 2022, a possible impact of climate change.

The country was hard-hit by the COVID-19 pandemic. After several spikes in new infections, Spain had recorded about 13.3 mil total cases (12th-highest in the world) and over 112,000 deaths by Aug. 22, 2022.

Catalonia and the **Basque Country** were granted autonomy, Jan. 1980, following approval in referendums. But Basque extremists pushed for independence. The Basque separatist group ETA carried out bombings that killed about 830 since 1968. ETA declared a unilateral cease-fire in 2011 and said in 2018 that it was disbanding. In Catalonia, voters approved expanded home-rule, June 18, 2006.

Separatist parties won Catalonia's regional parliamentary elections Sept. 27, 2015. Catalonia scheduled a separation referendum for Oct. 1, 2017, but Spanish authorities took steps to interfere with balloting. After the regional parliament, Oct. 27, voted to declare independence, the national government dissolved the parliament and removed pro-independence regional president Carles Puigdemont from office. In new regional parliamentary elections, Dec. 21, separatists again won a majority. On Oct. 14, 2019, 9 separatist leaders were convicted and given prison terms for their roles in the 2017 secession attempt (they were pardoned June 22, 2021). In Feb. 14, 2021, elections, pro-independence parties won a majority. Regional president Pere Aragonès called for negotiations with the Spanish govt. **Website:** web.gencat.cat

The island was known to the ancient world as Taprobane (Greek for copper-colored) and later as Serendip (from Arabic). Colonists from N India subdued the Indigenous Veddahs about 543 BCE; their descendants, the Buddhist Sinhalese, still form most of the population. Hindu descendants of Tamil immigrants from S India are the largest minority ethnic group.

Parts were occupied by the Portuguese in 1505 and the Dutch in 1658. The British seized the island in 1796. It became an independent member of the Commonwealth as Ceylon in 1948 before changing its name to Sri Lanka May 22, 1972.

Prime Min. Solomon W. R. D. Bandaranaike was assassinated Sept. 25, 1959. His widow, Sirimavo Bandaranaike, served as prime min. 1960-65, 1970-77, 1994-2000. In the 1970s, thousands of ultra-leftists were executed, while massive land reform and nationalization of foreign-owned plantations took place.

Tensions between Sinhalese and Tamil separatists erupted in the early 1980s and turned into a 20-year civil war that killed more than 60,000; another 20,000, mostly young Tamils, "disappeared" while in

government custody. Pres. Ranasinghe Premadasa was assassinated May 1, 1993, by a Tamil rebel. A truce intended to bring an end to the civil war was signed Feb. 22, 2002.

More than 31,000 died in the Dec. 26, 2004, Indian Ocean tsunami. Prime Min. Mahinda Rajapaksa won the 2005 presidential election and was reelected in 2010. Thousands died during more than three years of fighting among government forces, paramilitary groups, and Tamil rebels beginning in Dec. 2005. Tamil leader Vellupillai Prabhakaran was killed May 18-19, 2009, and Pres. Rajapaksa formally declared victory. Maithripala Sirisena defeated Rajapaksa in the Jan. 8, 2015, presidential election.

Loans and investments from China have financed large infrastructure projects in recent years. More than 250 died Easter Sunday, Apr. 21, 2019, in suicide bombings at churches and other sites carried out by Islamist extremists. Gotabaya Rajapaksa, brother of the former president, won the Nov. 16, 2019, presidential election. He named Mahinda Rajapaksa prime min.

Amid a financial crisis and violent protests against widespread shortages and mismanagement of the economy, Mahinda Rajapaksa resigned, May 9, 2022, and was replaced as prime min., May 12, by Ranil Wickremesinghe. As protests intensified, Gotabaya Rajapaksa left the country, July 13, and submitted his resignation the next day; he returned to Colombo Sept. 3. Northern Sudan, ancient Nubia, was settled by Egyptians in antiquity. The population was converted to Coptic Christianity in the 6th cent. Arab conquests brought Islam to the area in the 15th cent. In the 1820s, Egypt took over Sudan, defeating the last of the earlier empires, including the Fung. In the 1880s, Muhammad Ahmad, who called himself the Mahdi (leader of the faithful), and his followers, the dervishes, led a revolution. An Anglo-Egyptian force crushed the Mahdi's successors, 1898.

Sudan gained independence Jan. 1, 1956. In 1969, a Revolutionary Council took power, led by authoritarian Pres. Gaafar al-Nimeiry. He was overthrown, Apr. 6, 1985. Sudan held democratic elections in 1986. Brig. Omar Hassan Ahmad al-Bashir staged a coup, June 30, 1989. He became president in 1993.

During 1955-72 and 1983-2005, rebels in the south (primarily Christians and followers of traditional religions) fought against government domination by mostly Arab-Muslim northern Sudan. War and famine cost an estimated 2 mil lives. An accord largely ended the rebellion Jan. 9, 2005, but violence increased beginning in 2011.

A rebellion in the Darfur region of western Sudan caused a new crisis, 2003-11. Marauding Arab militias, the *janjaweed*, reportedly acting in collusion with Sudanese government troops, looted and burned homes in Darfur. More than 7,000 African Union (AU) peacekeepers were ineffectual. By Sept. 2009, the Darfur war had killed about 300,000 people and displaced another 2.7 mil.

After southern Sudanese voted overwhelmingly for secession, Jan. 9-15, 2011, South Sudan attained full independence July 9. Conflict in Darfur flared up again in 2014-16. A UN-AU peacekeeping mission in Darfur (UNAMID) included almost 16,000 uniformed personnel as of Aug. 31, 2017. The government signed a peace agreement, Oct. 3, 2020, with some Darfur and southern rebel groups. The UNAMID mission ended Dec. 31, 2020, but violence in Darfur increased again in 2021-22.

After months of deadly protests triggered by economic hardship, Bashir was ousted in a military coup, Apr. 11, 2019. Protests continued, demanding civilian rule. An agreement signed Aug. 17, 2019, by military and protest leaders provided for a 39-month power-sharing transition government, followed by a democratically elected government. Bashir was convicted on corruption charges, Dec. 14, 2019, and went on trial, July 21, 2020, on charges related to the 1989 coup. He also faced war crimes charges at the Intl. Criminal Court in The Hague.

In an Oct. 25, 2021, coup led by transition government head Gen. Abdel Fattah al-Burhan, the military essentially seized full power. In the following months, security forces cracked down violently on anti-coup protesters.

The Netherlands acquired Suriname in 1667 from Britain. The 1954 Dutch constitution raised the colony to a level of equality with the Netherlands. Independence was granted Nov. 25, 1975; some 40% of the population (mostly E Indians, who opposed independence) immigrated to the Netherlands.

inspections. Bouterse's son Dino pleaded guilty in the U.S., Aug. 29, 2014, to drug trafficking and terrorism charges. Bouterse was reelected by the National Assembly, July 14, 2015. He was convicted, in Surname Nov. 29, 2019, of murder in connection with the 1982 coup; he appealed. Following an opposition victory in May 25, 2020, elections, the new National Assembly elected Chandrikapersad Santokhi president, July 13.

Suriname was affected, 2015-17, by a Zika virus outbreak (about 3,500 cases).

The Swedes have lived in present-day Sweden for at least 5,000 years. Gothic tribes from Sweden played a major role in the disintegration of the Roman Empire. Swedish chieftains controlled much of present-day western Russia and Ukraine in the 9th cent. The Swedes were Christianized from the 11th cent., and a strong centralized monarchy developed. The Riksdag, the first European parliament to represent all classes of society, was first called in 1435.

A revolt led by Gustavus I in 1521-23 freed Sweden from Danish rule (dating from 1397); he built up the government and military and established the Lutheran Church. In the 17th cent. Sweden was a major European power, gaining most of the Baltic seacoast. The Napoleonic wars, 1799-1815, in which Sweden acquired Norway (it became independent 1905), were the last in which Sweden participated.

The Social Democratic Party (SAP) has governed Sweden for most of the period since World War II. Prime Min. Olof Palme was shot to death in Stockholm, Feb. 28, 1986. Sweden entered the EU, Jan. 1, 1995. A center-right alliance defeated the SAP in 2006 and 2010 parliamentary elections. Parliament voted Apr. 1, 2009, to legalize same-sex marriage. The SAP won Sept. 14, 2014, elections, in which the right-wing, anti-immigration Sweden Democrats (SD) won 49 seats.

About 238,000 migrants, mostly from the Middle East, SW Asia, and Africa, applied for asylum in Sweden in 2015-18. Legislation tightening asylum rules was enacted June 21, 2016. Of applications decided, 2015-18, about 50% were approved.

In Sept. 9, 2018, elections, an SAP-led coalition fell short of a majority but retained power; the SD won 62 seats. In Nov. 2021, the SAP's Magdalena Andersson became Sweden's first female prime min. In Sept. 11, 2022, elections center-right parties, including the SD (which won 73 seats and over 20% of the vote), narrowly defeated the SAP-led coalition. The Moderate Party's Ulf Kristersson began talks to form a coalition government.

Following Russia's Feb. 2022 invasion of Ukraine, Sweden applied to join NATO, May 18.

As the COVID-19 pandemic spread in 2020, the government resisted strict lockdowns to combat transmission. As of Aug. 22, 2022, Sweden had recorded more than 2.5 mil cases and nearly 20,000 deaths.

Switzerland, the former Roman province of Helvetia, traces its modern history to 1291, when three cantons created a defensive league. Other cantons were subsequently admitted to the Swiss Confederation, which obtained its independence from the Holy Roman Empire through the Peace of Westphalia (1648). The cantons were joined under a federal constitution in 1848.

Switzerland has maintained an armed neutrality since 1815 and has not been involved in a foreign war since 1515. It is the seat of many UN and other international agencies but only became a full UN member on Sept. 10, 2002.

Switzerland is a world banking center. The government announced, Mar. 1997, a \$4.7-bil fund to compensate victims of the Nazi Holocaust and other catastrophes. Swiss banks agreed Aug. 12, 1998, to pay \$1.25 bil in reparations. A June 2002 referendum decriminalized abortion. Referenda in 2005 harmonized many policies with the EU.

In a Nov. 2009 referendum, voters approved a constitutional ban on construction of new minarets on mosques. A Mar. 2021 referendum banned face coverings such as a burqa in public.

In a Feb. 9, 2014, referendum, voters called on the government to set immigration quotas; however, Dec. 2016 legislation rejected quotas, which could have jeopardized trade with the EU.

Switzerland officially opened the 35-mi Gotthard Base Tunnel, the world's longest railway tunnel, June 1, 2016. In a May 19, 2019, referendum, voters approved stricter gun controls. Dec. 18, 2020, legislation legalized same-sex marriage, ratified by voters in a Sept. 26, 2021, referendum.

In recent years, glaciers in the Swiss Alps have been shrinking as a result of climate change.

Switzerland had recorded almost 4 mil total COVID-19 cases as of Aug. 22, 2022; over 13,000 had died.

Syria was the center of the Seleucid Empire but later was absorbed into the Roman and Arab empires. Ottoman rule prevailed for four cents., until the end of WWI.

The state of Syria was formed from former Turkish districts, separated by the Treaty of Sevres, 1920, and divided into the states of Syria and Greater Lebanon. Both were administered under a French League of Nations mandate, 1920-41. The occupying French proclaimed Syria a republic Sept. 16, 1941; independence came Apr. 17, 1946. Syria joined the Arab invasion of Israel in 1948.

Syria belonged to the United Arab Republic from Feb. 1958 to Sept. 1961. The Socialist Baath party seized power Mar. 1963 and became the only legal party. The Alawite minority has dominated the government (Alawism is a sect of Shiite Islam).

In the June 1967 Arab-Israeli war, Israel seized and occupied the Golan Heights, from which Syria had shelled Israeli settlements. On Oct. 6, 1973, Syria and Egypt attacked Israel but failed to recapture the Golan Heights. Syrian troops entered Lebanon in 1976, during the Lebanese civil war, and remained a strong presence in the country. Syria sided with Iran during the Iran-Iraq War, 1980-88.

Thousands died in the city of Hama Feb. 1982 when government forces crushed a Muslim Brotherhood uprising. Following Israel's invasion of Lebanon, June 6, 1982, Israeli planes destroyed Syrian planes and antiaircraft missile batteries in the Bekaa Valley, June 9.

Hafez al-Assad, president of Syria since 1971, died June 10, 2000, and was succeeded by his son Bashar al-Assad. Syria aided

fighters of the Lebanon-based Shiite group Hezbollah in their conflict with Israel and gave about 180,000 Lebanese temporary refuge when Israeli forces targeted Hezbollah, July-Aug. 2006. On Sept. 6, 2007, Israel bombed a secret site in N Syria where the Israelis believed Syria and North Korea were developing a nuclear facility; both countries denied the claim.

The Assad regime used troops and tanks during Arab Spring demonstrations in Mar. 2011, but the confrontations escalated into outright rebellion. A number of armed opposition groups fought Assad's forces and each other for control of territory. Hezbollah forces fought on the side of the Assad government, which was also backed by Iran. The U.S., Aug. 18, 2011, imposed economic sanctions.

International intelligence communities announced, May 2013, increasing evidence that Assad's forces had used chemical and biological weapons. A chemical attack on an opposition-controlled Damascus suburb Aug. 21, 2013, killed more than 1,400. Russian and U.S. negotiators reached an agreement with Syria requiring the Assad government to relinquish chemical weapons. The last known covered chemical weapons were believed to have been removed June 23, 2014. A UN report, Aug. 24, 2016, confirmed allegations that Assad's forces were using chlorine gas (not covered by the 2013 agreement). Syrian aircraft dropped chemical weapons prohibited by the 2013 agreement on a rebel-held town, Apr. 4, 2017; the U.S., Apr. 6, launched a cruise missile attack on the air base used by the planes. Israeli warplanes reportedly attacked, Sept. 7, 2017, Syrian military sites producing chemical weapons and missiles. An apparent chemical attack, Apr. 7, 2018, that killed dozens in a then-rebel-held area east of Damascus prompted U.S., UK, and French retaliatory airstrikes, Apr. 13. The U.S. announced, Sept. 26, 2019, that Assad's forces had used chlorine gas in a May 2019 attack on rebels.

By summer 2014, the Sunni extremist group ISIS (Islamic State in Iraq and Syria) controlled large areas in eastern and northern Syria. The night of Sept. 22-23, 2014, the U.S. began a campaign of airstrikes against ISIS and other Islamist extremist groups in Syria,

supported by several Middle East countries and European and other allies. Russia, which backed Assad, sent warplanes and troops to Syria in Sept. 2015 and began its own air campaign, Sept. 30, against anti-government forces. Heavy Russian airstrikes helped the Assad regime regain control of large areas, 2016-18, often with high civilian casualties. Syrian Kurdish and other rebel groups making up the Syrian Democratic Forces (SDF), with support from U.S. airstrikes and special operations troops, retook territory in northern and eastern Syria from ISIS, 2015-17, including Raqqa (ISIS's self-proclaimed capital), Oct. 2017. The SDF said it captured the last ISIS-controlled area in Mar. 2019, although ISIS members remained active. ISIS leader Abu Bakr al-Baghdadi died (an apparent suicide) in a U.S. raid on his N Syria compound, Oct. 26, 2019. A Feb. 3, 2022, U.S. raid resulted in the death of Baghdadi's successor, Abu Ibrahim al-Hashimi al-Qurayshi.

The U.S., in early 2019, announced plans to reduce its ground troops in Syria (about 900 remained as of mid-2022). Fighting flared in Aug. 2022 between U.S. and Iran-backed forces in eastern and southern Syria.

Beginning in 2016, Turkish troops and groups aligned with them attacked Syrian Kurdish forces and tried to limit Kurdish-controlled areas in northern Syria. When the U.S., Oct. 2019, pulled back troops in northern Syria, Turkish and allied forces launched a new attack on the SDF, displacing tens of thousands of people and shrinking Kurdish-controlled territory.

By 2019, non-Kurdish rebels had largely retreated to Idlib Province in NW Syria; a Syrian government offensive, supported by Russian airstrikes, began Apr. 2019 and continued in 2020-22; Turkish troops supported some Idlib rebel groups. A Mar. 2020 cease-fire reduced violence somewhat.

Estimates of the total death toll in Syria's civil war since Mar. 2011 varied widely; the Syrian Observatory for Human Rights issued an overall estimate of more than 606,000, including 495,000 it said it had documented as of mid-2022. The UNHCR reported the number of Syrian refugees in Turkey, the Middle East, and North Africa at more than 5.6 mil as of Sept. 2022. About 1 mil Syrians had applied

for asylum in Europe. About 6.9 mil people were displaced within Syria as of mid-2022.

Large-scale immigration from China began in the 17th cent. The island came under mainland control after an interval of Dutch rule, 1620-62. Japan ruled Taiwan (also called Formosa), 1895-1945. The Kuomintang (Chinese Nationalist Party) government fled to Taiwan in 1949 and established the Republic of China under Chiang Kai-shek, who ruled until his death in 1975. The U.S. provided military aid to deter a Communist invasion.

In 1971, the UN expelled Taiwan and recognized the mainland government. The U.S. acknowledged the People's Republic of China, Dec. 15, 1978, and severed diplomatic relations with Taiwan. The U.S. and Taiwan have maintained strong economic, defense, and unofficial ties. After opportunities for Chinese aid and investment led a number of countries to break relations in the 2010s and 2020s, Taiwan maintained diplomatic ties with 14 countries as of Oct. 2022.

Land reform, government planning, U.S. aid and investment, and free universal education brought advances in industry, agriculture, and living standards. In 1987 martial law was lifted after 38 years, and in 1991 more than four decades of emergency rule ended. Taiwan held its first direct presidential election Mar. 23, 1996.

Five decades of Kuomintang rule ended when Chen Shui-bian, leader of the pro-independence Democratic Progressive Party (DPP), won the Mar. 2000 presidential election. Chen was wounded in an apparent assassination attempt Mar. 19, 2004, one day before

he won a second term as president. Promising increased cooperation with China, Kuomin-tang candidate Ma Ying-jeou won the 2008 and 2012 presidential elections.

The People's Republic considers Taiwan a rebel province of the mainland; in 1991, the Kuomintang dropped its claim to be the sole government of both. The first formal talks between Taiwan and China were held Feb. 11, 2014. Concern over recent Kuomintang pro-China policies helped the DPP win the Jan. 16, 2016, presidential election; Tsai Ingwen became Taiwan's first female president. She was reelected, Jan. 11, 2020.

In accordance with a Constitutional Court ruling, legislation legalizing same-sex marriage went into effect May 24, 2019.

Objecting to an Aug. 2022 visit to Taiwan by U.S. House Speaker Nancy Pelosi, China staged large-scale military exercises near Taiwan.

After a severe spike in new COVID-19 cases beginning May 2022, by late Aug., Taiwan had recorded more than 5 mil total cases (Johns Hopkins Univ. data).

The Penghu Isls. (Pescadores), 49 sq mi, pop. (2011 est.) 96,597, lie between Taiwan and the mainland. Kinmen, fmr. Quemoy, pop. (2011 est.) 99,691, and Matsu, pop. (2011 est.) 10,106, lie just off the mainland.

Societies were settled in the region from about 3000 BCE. Invaders have included Iranians, Arabs (who converted the population to Islam), Mongols, Uzbeks, Afghans, and Russians. The USSR gained control 1918-25, making the region a part of the Uzbek SSR until the Tajik SSR was proclaimed, 1929.

Tajikistan declared independence Sept. 9, 1991. Factional fighting led to the installation of a pro-Communist regime, Jan. 1993. A new constitution establishing a presidential system was approved by referendum in 1994.

About 55,000 died in clashes between Muslim rebels and loyalist troops (supported by Russia) by mid-1997. Pres. Emomali Rakhmonov, first elected in 1994, won a Nov. 1999 election called a farce by human-rights observers. Leading opposition groups boycotted the Nov. 2006 election, again won by Rakhmonov (who changed his name to Rahmon in 2007). He won reelection in Nov. 2013 and Oct. 2020.

Poverty and corruption are widespread in Tajikistan. After rebels murdered a Tajik general, July 21, 2012, the army killed about 30 militants, July 24. A former warlord surrendered, Aug. 13, in exchange for a troop withdrawal. In the 2010s, an est. 1,300 Tajiks joined ISIS forces in Syria and Iraq. In an assault claimed by ISIS, four Western tourists were killed in Tajikistan, July 29, 2018. Islamist militant prison riots, Nov. 2018 and May 2019, left at least 55 dead. Apr. 2021 fighting in a disputed area of the border with Kyrgyzstan killed about 40; fighting erupted again in Sept. 2022. Dozens died, 2021-22, when security forces cracked down violently on rights demonstrators in an area of eastern Tajikistan populated largely by the Pamiri minority.

Arab colonization and slaving in Tanganyika began in the 8th cent.; Portuguese sailors explored the coast around 1500. Other Europeans followed.

In 1885 Germany established German East Africa, of which Tanganyika formed the bulk. Under Britain, it became a League of Nations mandate and after 1946, a UN trust territory. It became independent, Dec. 9, 1961, and a republic within the Commonwealth a year later.

Zanzibar, area 640 sq mi, lies 23 mi off mainland Tanzania. The island of Pemba, area 380 sq mi, is 25 mi to the NE. Ethnic groups in Zanzibar include Arabs and Africans. Zanzibar and Pemba are major producers of cloves and clove oil.

Zanzibar was for centuries the center for Arab slave traders. Portugal ruled the region for two centuries until ousted by Arabs around 1700. Zanzibar became a British Protectorate in 1890; independence came Dec. 10, 1963. Revolutionary forces overthrew the Sultan, Jan. 12, 1964. The new government ousted Western diplomats and journalists, slaughtered thousands of Arabs, and nationalized farms.

The Republic of Tanganyika and the Republic of Zanzibar joined to form the United Republic of Tanzania, Apr. 26, 1964. Zanzibar retains internal self-government.

Until resigning as president in 1985, Julius K. Nyerere, a former Tanganyikan independence leader, dominated Tanzania's single-party government, which emphasized government planning and economic control. A multiparty system was established in 1992, and the economy was privatized in the 1990s.

A bomb at the U.S. embassy in Dar es Salaam, Aug. 7, 1998, killed 11 and injured at least 70. The U.S. blamed the attack on Islamic terrorists associated with Osama bin Laden.

John Magufuli, of the ruling party, won the Oct. 25, 2015, presidential election. Magufuli suppressed press freedom and political opposition. He won a second term in an Oct. 28, 2020, election dismissed as fraudulent by the opposition. Magufuli denied

(despite widespread evidence) the COVID-19 pandemic was a problem in Tanzania and limited cooperation with the WHO.

Magufuli died Mar. 17, 2021. Vice Pres. Samia Suluhu Hassan became Tanzania's first woman president. She encouraged COVID-19 vaccination, but as of Aug. 2022, only about 27% of the pop. had been vaccinated.

Thais began migrating from southern China during the 11th cent. and established a unified Thai kingdom, 1350. Known as Siam until 1939, Thailand is the only country in SE Asia never colonized by Europeans. King Mongkut and his son King Chulalongkorn, ruling successively from 1851 to 1910, modernized the country and signed trade treaties with Britain and France. A bloodless revolution in 1932 limited the monarchy. Thailand was an ally of Japan during WWII and of the U.S. during the postwar period. For decades, the military had a dominant role in governing the country.

By the end of the 1990s, according to UN estimates, more than 750,000 people in Thailand had HIV/AIDS, with 143,000 new infections in 1991 alone. A nationwide prevention campaign reduced the number of new HIV infections.

Beginning in 2004, security forces tried to suppress a Muslim insurgency in southern Thailand. By 2022, more than 7,000 people, mostly civilians, had been killed. Peace talks, suspended for two years because of the COVID-19 pandemic, resumed in 2022.

Following elections in Jan. 2001, Thaksin Shinawatra became prime min. A military junta took power in a bloodless coup Sept. 19, 2006. Thaksin supporters won Dec. 2007 elections, and Samak Sundaravej became prime min. after civilian rule was restored Jan. 22, 2008. Thailand's Constitutional Court ousted Samak in Sept., and Thaksin's brother-in-law Somchai Wongsawat became prime min. Sept. 18. But a Constitutional Court ruling, Dec. 2, barred him from politics.

On Feb. 26, 2010, Thailand's Supreme Court ordered the seizure of about \$1.4 bil of Thaksin's family assets. After Thaksin supporters, known as Red Shirts, staged mass rallies and began to build a fortified compound in Bangkok, a crackdown by Thai security forces May 14-19, 2010, left more than 90 people dead. Thaksin's sister, Yingluck Shinawatra, became Thailand's first female prime min. after parliamentary elections July 3, 2011. On May 7, 2014, she was removed from office by the Constitutional Court, and the military seized power in a May 22 coup. An interim legislature, with a majority of military members, named coup leader Gen. Prayut Chan-ocha as prime min. in Aug. 2014.

A 2015 investigation resulted in charges against more than 100, including government and military officials, for involvement in human trafficking of migrants from Myanmar and Bangladesh. More than 60 traffickers were convicted, July 19, 2017.

In an Aug. 7, 2016, referendum (opposition campaigning had been barred), voters approved a military-drafted new constitution and a companion measure giving the military a strong role in selecting prime ministers after a return to civilian rule.

King Bhumibol, monarch since June 1946, died Oct. 13, 2016; crown prince Maha Vajiralongkorn succeeded him Dec. 1.

Following disputed Mar. 24, 2019, legislative elections, the National Assembly, June 5, elected Prayut to remain prime min. A Feb. 2020 court ruling barred a popular opposition party. Months of

large student-led protests, 2020-21, demanded political reforms; hundreds were arrested. The Constitutional Court, Aug. 24, 2022, suspended Prime Min. Prayut while considering whether he had violated a term limits provision of the constitution but ruled Sept. 30 that he could continue in office.

The COVID-19 pandemic hurt the economically important tourism industry 2020-21.

The collapse of Portuguese rule in East Timor led to factional fighting, Aug. 1975, and an invasion by Indonesia in Dec. Indonesia annexed East Timor in 1976. In over two decades, some 200,000 Timorese died due to civil war, famine, and persecution by Indonesian authorities. In a referendum held Aug. 1999 under UN auspices, Timorese voted overwhelmingly for independence but were then terrorized by pro-Indonesian militias. An international peacekeeping force entered in Sept.; a UN interim administration formally took command Oct. 26, 1999. Pro-independence forces won elections for a constituent assembly Aug. 2001. Xanana Gusmão, a former guerrilla leader, won the presidential election Apr. 2002. As Timor-Leste, the territory became independent May 20.

José Ramos-Horta, a Nobel Peace Prize laureate, won a presidential runoff vote May 2007. Ramos-Horta chose Gusmão as prime min. Gusmão-supported independent Taur Matan Ruak became president in a May 2012 runoff election. Gusmão's CNRT party won July parliamentary elections. The UN peacekeeping mission ended Dec. 31, 2012. Beginning in 2005, much of East Timor's budget consisted of revenue from offshore oil and natural gas deposits. Lower oil prices beginning in 2014, as well as

depletion of oil fields and costly infrastructure projects, hurt the economy. Gusmão resigned Feb. 6, 2015, and was replaced as prime min. by Rui Maria de Araújo of the Fretilin party. Fretilin's Francisco Guterres won the Mar. 20, 2017, presidential election. After inconclusive July 22 parliamentary elections, Fretilin's Mari Alkatiri became prime min. A coalition including the CNRT won new elections, May 12, 2018; Taur Matan Ruak became prime min.

Timor-Leste and Australia signed a treaty, Mar. 6, 2018, establishing the boundary between them in an oil- and gas-rich area of the Timor Sea. Ramos-Horta again became president after defeating Guterres in an Apr. 2022 runoff election.

Site of ancient Carthage and a former Barbary state under the suzerainty of Turkey, Tunisia became a protectorate of France, May 12, 1881. The nation became independent Mar. 20, 1956, and ended the monarchy the following year. Habib Bourguiba, an independence leader, served as president until 1987, when he was deposed by his prime min., Zine al-Abidine Ben Ali, who then won five presidential elections, 1989-2009, all tightly controlled.

Arab Spring protests, which began Dec. 2010, ousted Ben Ali, Jan. 14, 2011. Prime Min. Hamadi Jebali of the moderate Islamist Ennahda party, took office after his party won Oct. 2011 elections. Jebali resigned Feb. 19, 2013, after failing to institute promised reforms. The secular Nida Tunis party won Oct. 26, 2014, legislative elections; Nida Tunis leader Beji Caid Essebsi was elected pres., Dec. 21, 2014.

Three Islamist extremist gunmen attacked a museum in Tunis, Mar. 18, 2015, killing 22. A gunman killed 38 foreign tourists at a resort hotel in Sousse, June 26; ISIS claimed responsibility.

July 2017 legislation gave women greater protection from abuse and sexual harassment. In Sept. 2017, the government lifted a ban on women marrying non-Muslims.

Pres. Essebsi died, July 25, 2019. In an Oct. 13 presidential runoff, law professor Kais Saied, an independent, won election. A decade-long weak economy was aggravated, beginning in 2020, by the impact of the COVID-19 pandemic. On July 25, 2021, Pres. Saied fired Prime Min. Hichem Mechichi, suspended the legislature, and took on expanded powers. Saied announced, Sept. 22, increased powers to rule by decree, and he dissolved the legislature, Mar. 30, 2022. In a July 25 referendum boycotted by the opposition, a new constitution was approved centralizing power in the presidency and weakening the legislature and judiciary.

Ancient inhabitants of Turkey were among the world's first agriculturalists. Such civilizations as the Hittite, Phrygian, and Lydian flourished in Asiatic Turkey (Asia Minor), as did much of Greek civilization. After the fall of Rome in the 5th cent., Constantinople (now Istanbul) was the capital of the Byzantine Empire for 1,000 years. It fell in 1453 to Ottoman Turks, who ruled a vast empire for over 400 years.

Just before WWI, Turkey, or the Ottoman Empire, ruled what is now Syria, Lebanon, Iraq, Jordan, Israel, Saudi Arabia, Yemen, and islands in the Aegean Sea. Turkey joined Germany and Austria in WWI, and its defeat resulted in the loss of territory and the fall of the sultanate. A secular republic was established Oct. 29, 1923. The first pres., Mustafa Kemal (later Kemal Ataturk), led Turkey until his death in 1938.

Turkey kept neutral during most of WWII. The country became a full member of NATO in 1952. Military coups overthrew civilian governments in 1960 and 1980. Turkey invaded nearby Cyprus July 20, 1974, to prevent that country from uniting with Greece, and Cyprus was divided into Greek and Turkish zones.

Turkey joined the U.S.-led force that ousted Iraq from Kuwait, 1991. Millions of Iraqi Kurdish refugees fled to Turkey's SE border region after the war. Turkish offensives in Kurdish areas of Turkey caused heavy casualties among separatist guerrillas and civilians. Kurdish militants raided Turkish diplomatic missions in some 25 Western European cities, June 24, 1993.

Tansu Ciller became Turkey's first woman prime min. July 5, 1993. The Islamic Welfare Party gained strength in the 1990s, and in June 1996, a coalition with Ciller's True Path Party was formed. The pro-Islamic government resigned June 18, 1997, under pressure from the military, which stepped up its campaign against Islamic fundamentalism in 1998.

Kurdish rebel leader Abdullah Öcalan was captured Feb. 15, 1999, and convicted of terrorism June 29. His organization, the Kurdistan Workers' Party (PKK), announced in 1999 that it would abandon its 14-year-old insurgency. Violence continued at a lower level, however.

Earthquakes in Apr. and Nov. 1999 killed over 17,000 people. The Islamic Justice and Development Party (AKP) led by Recep Tayyip Erdogan won Nov. 3, 2002, parliamentary elections. Erdogan became prime min., May 14, 2003. His party scored a landslide win in 2007 parliamentary elections.

Erdogan won an Aug. 10, 2014, election to become Turkey's first popularly elected president. In an Apr. 16, 2017, referendum,

accompanied by allegations of irregularities, voters narrowly approved constitutional amendments strengthening the president's powers and abolishing the post of prime minister after the next elections. Erdogan won the June 24, 2018, presidential election; the AKP won parliamentary elections the same day.

During Syria's civil war (2011-), Turkey became a haven for Syrian refugees (almost 3.7 mil as of Sept. 2022). Turkey was also a major transit route for hundreds of thousands of Syrian and other migrants trying to reach Europe. Under a Turkey-EU agreement, effective Mar. 20, 2016, Turkey pledged, in return for EU aid, to crack down on smugglers ferrying migrants to Greece. Migrant crossings decreased.

Turkish government forces launched a new offensive against the PKK in SE Turkey, beginning in mid-2015, and Kurdish extremists staged terrorist attacks in Turkish cities, as well as attacks on government troops. Turkey began airstrikes, July 24, 2015, against PKK strongholds in N Iraq and later launched attacks on Syrian Kurdish fighters said to be affiliated with the PKK. Turkish ground troops fought in Syria beginning in 2016, mainly to limit areas controlled by Syrian Kurds (allied with the U.S. in fighting ISIS in Syria). After the U.S., Oct. 2019, pulled back troops from N Syria, a new offensive by Turkish and allied Syrian militia forces drove Syrian Kurdish fighters out of areas near the Turkish border.

Terrorist attacks within Turkey attributed to ISIS included suicide bombings at Istanbul's main airport, June 28, 2016, that killed at least 45. On Aug. 20, a suicide bomber killed at least 54 at a wedding in SE Turkey.

A coup attempt against Erdogan by elements of the military, July 15-16, 2016, was put down by loyal military units. The government blamed the coup on Muslim cleric Fethullah Gülen, living in the U.S. The abortive coup left at least 240 dead, and some 50,000 soldiers, government officials, and civilians (including journalists) were detained. Intensifying an ongoing crackdown on dissent, the government closed more than 100 media outlets and fired or suspended tens of thousands of judges, government officials, and

teachers. July 2020 legislation increased government control of social media platforms in Turkey.

Tensions in U.S.-Turkish relations, along with economic problems, contributed to a sharp drop in the lira's value, 2018-19. After Turkey began receiving, July 2019, sophisticated missiles purchased from Russia, the U.S. canceled a sale to Turkey of advanced fighter planes. Under a July 2020 decree issued by Erdogan, Istanbul's Hagia Sophia—built as a Christian church in the 6th cent., used as a mosque 1453-1934, and a museum since 1934—once again was converted to a mosque.

A continuing weak economy and currency were aggravated by high inflation by 2022. The COVID-19 pandemic also hurt the economy. One of the world's most severely affected countries by the pandemic, Turkey had about 16.7 mil recorded cases by Aug. 22, 2022 (11th highest) and over 100,000 recorded deaths.

In the wake of Russia's Feb. 2022 invasion of Ukraine, Turkey hosted 145,000 Ukrainian refugees as of mid-2022.

The region has been inhabited by Turkic peoples since the 10th cent. It became part of Russian Turkestan in 1881, and a constituent republic of the USSR in 1925. Turkmenistan declared independence Oct. 27, 1991, and became an independent state when the USSR disbanded Dec. 26, 1991.

Turkmenistan has extensive natural gas reserves and also oil reserves. Political power centers on the former Communist Party apparatus and authoritarian leadership. Gurbanguly Berdimukhammedov won the Feb. 2007 presidential election, considered fraudulent by international observers. He was reelected with 97% of the vote in 2012 and 98% in 2017. After the president announced in Feb. 2022 he would step down, his son, Serdar Berdimukhammedov, was declared the winner of the Mar. 12 election.

Britain obtained a protectorate over Uganda in 1894. The country became independent Oct. 9, 1962, and a republic within the Commonwealth a year later. In 1967, the traditional kingdoms, including the powerful Buganda state, were abolished.

Gen. Idi Amin seized power from Prime Min. Milton Obote in 1971. During his 8-year dictatorship, he was responsible for the deaths of up to 300,000 of his opponents. In 1972 he expelled nearly all of Uganda's 45,000 Asians. Tanzanian troops and Ugandan exiles and rebels ousted Amin, Apr. 11, 1979.

Obote, president from Dec. 1980, was ousted in a military coup July 1985. Guerrilla war and rampant human rights abuses had plagued Uganda under Obote's regime.

Conditions improved after Yoweri Museveni took power in Jan. 1986. In 1993 the Buganda and other traditional monarchies were restored for ceremonial purposes. Uganda helped Laurent Kabila

seize power in the Dem. Rep. of the Congo (DRC; formerly Zaire) in 1997 but sent troops in 1998 to aid insurgents seeking his ouster. A withdrawal accord was signed Sept. 2002.

Pres. Museveni won reelection in 2001, 2006, 2011, and 2016; his opponents, the U.S., and the EU considered the elections flawed. Opposition politicians were arrested, Aug. 2018; anti-government protests were violently suppressed. Museveni was declared the winner of the Jan. 14, 2021, presidential election. His main opponent, Robert Kyagulanyi (a former entertainer known as Bobi Wine) charged fraud. Hundreds of Wine's supporters were arrested and beaten.

The rebel Lord's Resistance Army (LRA), led by Joseph Kony, began an insurgency against the Museveni government in 1986 and abducted tens of thousands of children to serve as soldiers and sex slaves. According to UN estimates, the LRA, 1987-2012, killed more than 100,000 people and displaced some 2.5 mil in Uganda and neighboring countries. Peace talks brokered by Sudan began July 2006, and LRA violence in Uganda diminished. A cease-fire accord was signed Feb. 23, 2008.

In 2007, Uganda began supplying troops to the African Union's peacekeeping force in Somalia. Suicide bombings July 11, 2010, killed 76 people watching a World Cup soccer match on outdoor video screens in Kampala; al-Shabab, a Somali al-Qaeda-linked Islamist group, claimed responsibility.

The UNHCR estimated that, as of Aug. 31, 2022, more than 911,000 refugees from South Sudan were living in Uganda, which also hosted about 446,000 refugees from the DRC.

An Ebola outbreak in Uganda began Sept. 2022.

Ukrainians' Slavic ancestors inhabited the region well before the 1st cent. CE. In the 9th cent., the princes of Kyiv established a strong state called Kyivan Rus, which included much of present-day Ukraine. Internal conflicts led to the disintegration of the Ukrainian state by the 13th cent. Mongol rule was supplanted by Poland and Lithuania in the 14th and 15th cent. The N Black Sea coast and Crimea came under Turkish control in 1478. Ukrainian Cossacks, starting in the late 16th cent., rebelled against the occupiers of Ukraine: Russia, Poland, and Turkey.

An independent Ukrainian National Republic was proclaimed on Jan. 22, 1918. But in 1921, Ukraine's neighbors occupied and divided Ukrainian territory. In 1922, Ukraine became a constituent republic of the USSR. In 1932-33, the Soviet government engineered a famine in eastern Ukraine, and 6-7 mil Ukrainians died. During WWII the Ukrainian nationalist underground fought Nazi and Soviet forces. Over 5 mil Ukrainians died in the war. The reoccupation of Ukraine by Soviet troops in 1944 brought a renewed wave of repression.

The world's worst nuclear power plant disaster occurred in Chernobyl, Ukraine, in Apr. 1986; many thousands were killed or disabled as a result of the radiation leak.

Ukrainian independence was restored, Dec. 1991, with the Soviet Union's dissolution. Following a 1994 accord with Russia and the U.S., Ukraine's large nuclear arsenal was transferred to Russia for destruction.

Russian-backed Prime Min. Viktor Yanukovych was declared the winner in Nov. of the 2004 presidential election. Massive protests (the Orange Revolution) forced an election rerun, Dec. 26, won by Viktor Yushchenko. Yanukovych was the winner in the Feb. 2010 presidential election.

Large anti-Yanukovych protests began in Nov. 2013, following his decision not to sign a free trade pact with the EU. Parliament removed Yanukovych from office, Feb. 22, 2014. Pro-EU candidate

Petro Poroshenko won a May 25, 2014, presidential election. The EU agreement was completed Sept. 16.

Hurt by corruption and a weak economy, Poroshenko lost an Apr. 21, 2019, presidential runoff election to entertainer and businessman Volodymyr Zelenskyy. Zelenskyy's party won July 21, 2019, parliamentary elections.

Russian forces entered Crimea in Mar. 2014, and Russia annexed the region Mar. 18. Fighting began in Apr. 2014 in eastern Ukraine between Ukrainian forces and pro-Russian separatists, aided by Russia. A missile shot down a Malaysian airliner over separatist-controlled eastern Ukraine, July 17, 2014, killing all 298 on board.

On Feb. 24, 2022, Russia launched a large-scale invasion of Ukraine from the north, east, and south. The U.S., as well as many European and other nations, provided extensive military aid to Ukraine, which defeated an initial Russian advance toward Kyiv. By Aug., as heavy fighting continued, Russia controlled large portions of eastern and southern Ukraine. Ukrainian counter-offensives beginning in late Aug. recaptured some territory. Russian missiles and artillery repeatedly attacked civilian targets, causing widespread destruction and high civilian casualties, and there was evidence that Russian troops committed war crimes. As of Sept. 2022, about 7 mil Ukrainians were internally displaced. The UNHCR estimated, as of Sept. 30, that more than 4.7 mil Ukrainian refugees were in Europe or Turkey and that over 2.7 mil Ukrainians had entered Russia. The U.S. estimated that by Aug. Russia had forcibly deported up to 1.6 mil Ukrainians. After sham referenda in four partially occupied provinces in eastern and southern Ukraine, Russian Pres. Vladimir Putin signed legislation, Oct. 5, to officially annex the regions.

The United Kingdom of Great Britain and Northern Ireland comprises England, Wales, Scotland, and Northern Ireland.

Royal Family. Since 1901, ruling sovereigns have been members of the House of Windsor. Elizabeth II (b. Apr. 21, 1926) succeeded King George VI to the throne Feb. 6, 1952. She was married Nov. 20, 1947, to Lt. Philip Mountbatten (b. June 10, 1921; d. Apr. 9, 2021), former Prince of Greece. Elizabeth II, who became Britain's longest-reigning monarch in 2015, died Sept. 8, 2022.

Charles Philip Arthur George (b. Nov. 14, 1948), Elizabeth II's eldest son, succeeded her as King Charles III. His second wife, Camilla, became Queen Consort. (Charles's first wife, Diana—married 1981, divorced 1996—died in a car crash in Paris, Aug. 31, 1997.)

Charles III's first son, William Philip Arthur Louis (b. June 21, 1982), is the Prince of Wales and heir apparent. William married Catherine (Kate) Middleton, Apr. 29, 2011. Their son George Alexander Louis (b. July 22, 2013) is second in line to the throne; Charlotte Elizabeth Diana (b. May 2, 2015) is third; Louis Arthur Charles (b. Apr. 23, 2018) is fourth. On May 19, 2018, King Charles's younger son, Henry Charles Albert David (Harry, b. Sept. 15, 1984; fifth in line) married American actor Meghan Markle. Their son Archie Harrison was born May 6, 2019; daughter Lilibet Diana was born June 4, 2021. Harry and Meghan withdrew from official duties as of Mar. 31, 2020. Prince Andrew, younger brother of Charles III, stepped back from official duties Nov. 20, 2019, following allegations related to his friendship with convicted sex offender Jeffrey Epstein.

Parliament is the UK's legislative body, with certain powers over dependent units. It consists of two houses. The House of Commons has 650 members, elected by direct ballot and divided as follows: England, 533; Wales, 40; Scotland, 59; Northern Ireland, 18. The House of Lords (Sept. 2022) comprised 756 members: 86 hereditary

peers, 646 life peers, and 24 archbishops and bishops of the Church of England.

Resources and Industries. Great Britain is a global trade and financial services center. As of 2020, service industries accounted for about 81% of GDP; industry, about 18%; agriculture, about 1%. Manufacturing, historically important since the Industrial Revolution, has declined in economic significance, while finance, centered in London, has grown in importance. Coal production, also historically important, has declined by more than 90% since 1970. Large oil and gas fields in the North Sea began commercial production in 1975, but proved reserves and production were declining in the 21st cent. Large offshore wind farms have been constructed in the North Sea.

Religion and Education. The Church of England is Protestant Episcopal. The monarch is its temporal head. There are two provinces, Canterbury and York, each headed by an archbishop. Westminster Abbey (1050-1760) is the site of coronations and the tombs of Elizabeth I, Mary, Queen of Scots, kings, poets, and the Unknown Warrior (buried Nov. 11, 1920). Celebrated British universities Oxford and Cambridge each date to the 13th cent.

History. Britain was separated from the European continent at least 200,000 years ago by catastrophic flooding that created the English Channel. Migrants across the Channel included the Celts, who arrived 2,500 to 3,000 years ago. Their language survives in Welsh and Gaelic enclaves.

England was part of the Roman Empire 43-410 CE, after which waves of Jutes, Angles, and Saxons arrived from German lands, followed by Danish raiders from the 8th through 11th cent. French-speaking Normans invaded in 1066, uniting the country with their dominions in France.

Opposition by nobles to royal authority forced King John to agree to the Magna Carta in 1215, a guarantee of rights and the rule of law. In the ensuing decades, the foundations of the parliamentary system were laid.

English dynastic claims to large parts of France led to the Hundred Years War, 1338-1453, an unsuccessful campaign. A long civil war, the War of the Roses, 1455-85, ended with the

establishment of the Tudor monarchy. The economy prospered over long periods of domestic peace unmatched in continental Europe. The Church of England separated from the authority of the pope, 1534.

During the reign of Queen Elizabeth I, 1558-1603, England became a major naval power, leading to the founding of colonies in the New World and the expansion of trade with Europe and Asia. Scotland and England shared a single monarch after James VI of Scotland was crowned James I of England in 1603.

A struggle between Parliament and the Stuart kings led to a civil war, 1642-49, and the establishment of a republic under the Puritan Oliver Cromwell. The monarchy was restored in 1660, but the Glorious Revolution of 1688 confirmed the sovereignty of Parliament: a Bill of Rights was granted 1689. Scotland was united with England after the ratification of the Articles of Union of Scotland and England, May 1707.

Technological and entrepreneurial innovations led to the Industrial Revolution in the 18th cent. The 13 N American colonies were lost but replaced by growing empires in Canada, India, Australia, and elsewhere. Britain's role in the defeat of Napoleon, 1815, strengthened its position as the leading world power.

The limited extension of voting rights in 1832, 1867, and 1884; the formation of trade unions; and the development of universal public education were among the social changes that accompanied the spread of industrialization and urbanization in the 19th cent. (Men gained full voting rights in 1918 and women in 1928.) Large parts of Africa and Asia were added to the empire during the reign of Queen Victoria, 1837-1901.

Though victorious in WWI, Britain suffered huge casualties and economic dislocation. Ireland became independent in 1921, and independence movements became active in India and other colonies. The country suffered major bombing damage in WWII but rallied behind Prime Min. Winston Churchill and held off Germany until Allied victory was achieved, 1945.

In the postwar period, Britain lost its world leadership position to other powers. Labour governments nationalized some basic

industries and expanded social welfare programs. In 1973, the UK joined the European Economic Community, which became the European Union (EU). Prime Min. Margaret Thatcher's Conservative governments, 1979-90, fostered private enterprise and began denationalization of key industries. The Channel Tunnel linking Britain to the Continent was opened May 6, 1994.

After the Sept. 11 attacks on the U.S., the UK participated, beginning in 2001, in the Afghanistan war; the last British troops left in 2021. Labour Prime Min. Tony Blair committed British troops to the 2003 U.S.-led invasion of Iraq. UK forces, which numbered 46,000 at the height of combat operations, almost entirely pulled out by mid-2009.

Suicide bombings on 3 London underground trains and a bus, July 7, 2005, left 56 people dead.

Legislation in 2005 established a Supreme Court, to replace the House of Lords as the UK's highest court. Blair, who had won three elections, was succeeded by Labour's Gordon Brown, June 2007.

In the wake of Britain's deepest recession since WWII, voters rejected the Labour Party in May 2010 elections. Conservative Prime Min. David Cameron responded to the fiscal crisis with austerity measures. Parliament voted in favor of same-sex marriage July 16, 2013. The Conservatives won May 7, 2015, elections. Tens of thousands of migrants to Europe from Africa, the Middle East, and SW Asia in 2015 tried to enter Britain. Anti-immigrant sentiment, including concerns about immigration from elsewhere in the EU, contributed to a 51.9%-48.1% referendum vote, June 23, 2016, favoring Britain's exit from the EU ("Brexit"). Conservative Theresa May replaced Cameron, July 13.

A suicide bomber apparently with ISIS connections killed 22 victims and injured more than 100 at a concert in Manchester, May 22, 2017. In London, June 3, three attackers fatally ran down with a van or stabbed 8 victims; ISIS claimed responsibility.

Russia was the "highly likely" perpetrator, Prime Min. May said Mar. 12, 2018, of the Mar. 4 poisoning in Salisbury of a former Russian intelligence officer who became a British spy and his daughter; both survived.

Prime Min. May and EU leaders completed, Nov. 2018, a separation agreement, but Parliament, Jan.-Mar. 2019, rejected it three times. Conservative Boris Johnson, a Brexit hardliner, replaced May as prime min., July 24, 2019, and negotiated a revised EU agreement. It included a provision (“the Northern Ireland protocol”) that kept Northern Ireland largely aligned with EU policies, to prevent a “hard” border between Northern Ireland and the Irish Republic (an EU member), while requiring customs checks between Britain and Northern Ireland. Campaigning to “get Brexit done,” Johnson and the Conservatives won a sweeping victory in Dec. 12 elections. Britain formally exited the EU Jan. 31, 2020.

Britain was one of the hardest-hit countries by the COVID-19 pandemic that began in 2020. After several spikes in new cases, by Aug. 22, 2022, the UK had totals of more than 23.4 mil cases (6th-highest in the world) and over 187,000 deaths. By the end of 2021, GDP had largely recovered from a pandemic-related 2020 decline of over 9%, but high inflation, including soaring energy costs, plagued the economy by 2022.

Facing declining popularity and a revolt in the Conservative Party (including over being fined for violating his own government’s COVID-19 restrictions), Johnson announced, July 7, 2022, that he would step down. Liz Truss, the foreign sec., became Conservative Party leader Sept. 5 and prime min. Sept. 6 2022, but stepped down after just 45 days, amid a financial and political crisis. Former Chancellor of the Exchequer Rishi Sunak became Conservative Party leader Oct. 24 and prime min. Oct. 25, 2022.

With migrant crossings of the English Channel to the UK increasing in the 2020s, the UK announced in Apr. 2022 an agreement to deport migrants to Rwanda (which would receive British aid).

The UK experienced severe heat waves in summer 2022, including the highest temperature ever recorded in the country: 40.3°C (104.5°F) on July 19.

When Cyprus gained independence, the UK retained the sovereign base areas of Akrotiri (47 sq mi) and Dhekelia (51 sq mi) on the island.

Wales

The Principality of Wales in western Britain has an area of 8,019 sq mi and a population (2021 census) of 3,107,500. Cardiff is the capital, pop. (2022 est.) 484,591.

The creation of a 60-seat elected Welsh assembly with limited powers passed by a thin margin in a Sept. 18, 1997, referendum.

Early Anglo-Saxon invaders drove Celtic peoples into the mountains of Wales, where they developed a distinct nationality. Members of the ruling house of Gwynedd in the 13th cent. fought England but were crushed, 1283. Edward of Caernarvon, son of Edward I of England, was created Prince of Wales, 1301. **Website:** gov.wales

Scotland

Scotland occupies the northern 37% of the main British island, and the Hebrides, Orkney, Shetland, and smaller islands. Length 275 mi, breadth approx. 150 mi, area 30,414 sq mi, pop. (2020 est.) 5,466,000.

The Lowlands, a belt of land approx. 60 mi wide from the Firth of Clyde to the Firth of Forth, divide the farming region of the Southern Uplands from the granite Highlands of the N; they contain 75% of the population and most of the industry. The Highlands, famous for hunting and fishing, have been opened to industry by many hydroelectric power stations.

Edinburgh, pop. (2022 est.) 548,206, is the capital. Glasgow, pop. (2022 est.) 1,688,907, is Scotland's major port and shipbuilding center and has developed a services-based economy in the 21st cent., including financial services, health care, and engineering. Aberdeen, pop. (2019 est.) 228,670, is a major port and center of granite, fish-processing, and North Sea oil industries. Dundee, pop. (2019 est.) 149,320, NE of Edinburgh, is an industrial and fish-processing center.

History. Scotland was called Caledonia by the Romans who battled early Celtic tribes and occupied southern areas from the 1st to the 4th cent. Missionaries from England introduced Christianity in

the 4th cent.; St. Columba, an Irish monk, converted most of Scotland in the 6th cent.

The Kingdom of Scotland was founded in 1018. William Wallace and Robert Bruce both defeated English armies 1297 and 1314, respectively. In 1603, James VI of Scotland, son of Mary, Queen of Scots, succeeded to the English throne as James I, and effected the Union of the Crowns. In 1707 Scotland received representation in the British Parliament. A 1997 proposal to create a regional legislature passed by a landslide; the Scottish Parliament has limited taxing authority and autonomy in areas such as education and social welfare. In 2011 elections for the 129-seat parliament, the pro-independence Scottish National Party (SNP) won a majority. In a referendum on independence Sept. 18, 2014, 55% of Scottish voters opposed separating from the UK. The SNP remained in power but narrowly fell short of a majority in 2016 and 2021 parliamentary elections.

Memorials of Robert Burns, Sir Walter Scott, John Knox, and Mary, Queen of Scots, draw many tourists, as do the beauties of the Trossachs, Loch Katrine, Loch Lomond, and abbey ruins.

Industries. Engineering products are a key industry, with growing emphasis on office machinery, autos, electronics, and other consumer goods. Support industries for offshore energy production (oil, gas, and wind turbines) have grown in recent decades.

Scotland produces fine woolens, worsteds, tweeds, silks, fine linens, and jute. It is known for its special breeds of cattle and sheep. Commercial fishing is an important industry. Whisky is a major export.

The Hebrides are a group of about 500 islands, 100 inhabited, off the W coast. The **Inner Hebrides** include Skye, Mull, and Iona, the last famous for the arrival of St. Columba, 563 CE. The **Outer Hebrides** include Lewis and Harris. Industries include sheep raising and weaving. The approx. 70 **Orkney Isls.** are to the NE. The capital is Kirkwall, on Pomona Isl. Fish curing, sheep raising, and weaving are occupations. NE of Orkney are the 200 **Shetland Isls.**, 24 inhabited, home of Shetland ponies. Orkney and Shetland are centers for the North Sea oil industry. **Website:** www.gov.scot

Northern Ireland

Northern Ireland was constituted in 1920 from 6 of the 9 counties of Ulster, the NE corner of Ireland. Area 5,452 sq mi, pop. (2021 census) 1,903,100. Capital and chief industrial center, Belfast, pop. (2022 est.) 638,717.

Industries. Shipbuilding, including large tankers, has long been an important industry, centered in Belfast, the largest port. Linen is manufactured, along with apparel, rope, and twine. Growing diversification has added engineering products, synthetic fibers, and electronics. Major farm products include livestock, poultry, potatoes, and dairy foods.

Government and History. An act of the British Parliament, 1920, divided Northern from Southern Ireland, each with a parliament and government. When Ireland became a dominion, 1921, and later a republic, Northern Ireland chose to remain a part of the UK.

During 1968-69, Roman Catholics, then a smaller portion of the pop. than Protestants, claimed discrimination in voting rights, housing, and employment. Violence and terrorism intensified, involving branches of the Irish Republican Army (IRA; outlawed in the Irish Republic), Protestant groups, police, and British troops. Between 1969 and 2001, more than 3,500 were killed in sectarian violence in Northern Ireland, Ireland, England, and elsewhere. For most of this period, Britain imposed direct rule.

A settlement reached on Good Friday, Apr. 10, 1998, and approved May 22 by voters in Northern Ireland and the Irish Republic, restored home rule and election of a 108-member assembly with safeguards for the rights of different communities. Both Ireland and Great Britain agreed to relinquish constitutional claims on Northern Ireland. IRA dissidents detonated a bomb at Omagh Aug. 15 that killed 29 people and injured over 330.

London transferred authority to a Northern Ireland power-sharing government in 1999. The IRA July 2005 renounced violence and ordered all units to disarm; Britain reduced its military presence. A dispute between the pro-UK Democratic Unionist Party (DUP) and the Irish nationalist party Sinn Féin caused the government to collapse in Jan. 2017. After inconclusive Mar. 2017 elections for the

Northern Ireland assembly, a new power-sharing government was not formed until Jan. 2020. Same-sex marriage and most abortions became legal in Northern Ireland in 2020. Sinn Féin won the largest bloc of seats in May 5, 2022, elections for the Northern Ireland assembly; the DUP, which finished second, delayed the formation of a new power-sharing government, seeking changes to the Northern Ireland protocol.

Religion and Education. According to the 2021 census, the population of Northern Ireland was about 42.3% Catholic, 37.3% Protestant and other Christian, and 20.4% other religions, no religion (17.4%), or not stated. Education is compulsory between the ages of 4 and 16 years. **Website:** www.northernireland.gov.uk

Leading employment sectors in 2016 were professional, education, medical, and scientific services 22.6%; insurance, banking, finance, and business services 20.9%; and misc. services 9.3%. Man is famous for the Manx tailless cat. **Website:** www.gov.im

Gibraltar

A dependency on the S coast of Spain, Gibraltar guards the entrance to the Mediterranean. Known as the Rock, Gibraltar has been in British possession since 1704. Gibraltar has historically been—and remains—an object of contention between Britain and Spain. In 1967, residents voted almost unanimously to remain under British rule. A 1969 constitution increased Gibraltarian control of domestic affairs. Voters rejected a plan for the UK and Spain to share sovereignty, Nov. 7, 2002. Residents approved a new constitution Nov. 30, 2006. **Website:** www.gibraltar.gov.gi

The region was overrun by the Mongols under Genghis Khan in 1220. In the 14th cent., Uzbekistan became the center of a native Timurid empire. In later centuries Muslim feudal states emerged. Russian military conquest began in the 19th cent. The Uzbek SSR became a Soviet republic in 1925.

Uzbekistan gained independence when the Soviet Union disbanded Dec. 26, 1991, and was led by the authoritarian government of a former Communist, Islam A. Karimov.

Attacks by Islamic militants, Mar.-July 2004, killed more than 50 people. In June 2004, Russia's OAO Lukoil signed a \$1-bil deal to develop Uzbekistan's natural gas fields.

After armed dissidents at Andizhan attacked government buildings and freed hundreds of prisoners, May 2005, security forces killed many rebels and unarmed demonstrators. Karimov then launched a general crackdown on human rights activists. Karimov signed a military cooperation agreement with Russia, Nov. 2005.

Karimov remained in office following the expiration of his presidential term Jan. 22, 2007, despite a two-term constitutional limit. He won a third term Dec. 23 (88.1% of the vote) and a fourth term, Mar. 29, 2015 (90.4%). The government announced, Sept. 2, 2016, that Karimov had died. Prime Min. Shavkat Mirziyoyev became interim president and won (88.6%) a flawed Dec. 4 presidential election. Mirziyoyev took steps to reduce repression, including freeing some jailed dissidents, arresting some security officers accused of torture, and reducing forced labor in the cotton harvests. Mirziyoyev won, with 80% of the vote, an Oct. 24, 2021, presidential election from which several opposition candidates were barred.

The popes for many centuries, with brief interruptions, held temporal sovereignty over mid-Italy (the so-called Papal States), comprising an area of some 16,000 sq mi, with a population in the 19th cent. of more than 3 mil. This territory was incorporated in the new Kingdom of Italy (1861), the sovereignty of the pope being confined to the palaces of the Vatican and the Lateran in Rome and the villa of Castel Gandolfo, by an Italian law, May 13, 1871.

A Treaty of Conciliation, a concordat, and a financial convention with Italy were signed Feb. 11, 1929. They established the independent state of Vatican City and gave the Roman Catholic Church special status in Italy. The treaty was incorporated into Italy's Constitution in 1947. Italy and the Vatican signed an agreement in 1984 eliminating Roman Catholicism as the state religion and ending required religious education in Italian schools.

Vatican City includes the Basilica of Saint Peter, the Vatican Palace and Museum, the Vatican gardens, and neighboring buildings; 13 buildings in Rome, outside the boundaries, enjoy

extraterritorial rights. The legal system is based on the code of canon law, the apostolic constitutions, and laws especially promulgated for Vatican City by the pope.

Pope Benedict XVI, elected Apr. 19, 2005, became, Feb. 28, 2013, the first pontiff to resign since 1415. Cardinal Jorge Mario Bergoglio, from Argentina, was elected Mar. 13, taking the name Francis. He became the first Latin American and first Jesuit pope.

Cardinal George Pell, prefect of the Vatican's Secretariat for the Economy, was convicted in Australia in 2018 of child sex abuse; his conviction was overturned on appeal, Apr. 7, 2020. Former cardinal and archbishop of Washington, DC, Theodore McCarrick was defrocked by the Vatican, Feb. 2019, for sexual abuse of minors. A May 9, 2019, papal edict required priests and nuns to report to church authorities sexual abuse or attempted cover-ups. A new constitution, 2022, somewhat strengthened the role of women and increased protections against sexual abuse.

Columbus first set foot on the South American continent on the peninsula of Paria, Aug. 1498. Alonso de Ojeda, 1499, called the land Venezuela, or Little Venice, because the native people had houses on stilts. Spanish colonialists dominated Venezuela until Simón Bolívar's victory near Carabobo in June 1821. The republic was formed after secession from the Colombian Federation in 1830. Military strongmen ruled Venezuela for much of its history. Beginning in 1959, the country had democratically elected governments.

Venezuela has the world's largest crude oil reserves, and the economy in recent decades has been heavily dependent on oil revenues. The government, Jan. 1, 1976, nationalized the oil industry. The country also has large reserves of natural gas.

Two attempted coups were thwarted by loyalist troops in Feb. and Nov. 1992. Coup leader Hugo Chávez, who ran as a populist, was elected president Dec. 1998. That month, voters approved a new constitution greatly increasing his powers.

Popular among the poor, Chávez alienated middle- and upper-class Venezuelans with economic and political reforms, and his foreign policy antagonized the U.S. With the economy surging, he won the Dec. 2006 presidential election. Suffering from cancer, Chávez won reelection, Oct. 7, 2012. He died Mar. 5, 2013, before he could be sworn in. Vice Pres. Nicolás Maduro Moros won a narrow victory in Apr. 14, 2013, elections.

With the economy hurt by low oil prices, declining oil production, and tight currency and price controls, GDP declined sharply beginning in 2014 and inflation soared. Shortages of food, medicine, and other goods were widespread. A political crisis intensified economic problems. Beginning in 2015, millions of Venezuelans emigrated, largely to other South American nations and to the U.S. By Aug. 2022, more than 6.8 mil Venezuelans were migrants, refugees, or asylum seekers worldwide.

Large anti-Maduro protests, Feb.-June 2014, were met with a harsh crackdown. An opposition coalition won Dec. 6, 2015, National Assembly elections, but the Supreme Court often overturned legislation. Looting and sometimes violent demonstrations were widespread in 2016-17. Members of a constituent assembly, mainly Maduro supporters, were chosen July 30, 2017, in an election widely criticized as fraudulent. The constituent assembly, in a decree, Aug. 18, largely took over the interim power to legislate. In a flawed election, May 20, 2018, Maduro won a new term as president. The National Assembly, Jan. 15, 2019, declared Maduro's presidency illegitimate. National Assembly head Juan Guaidó, Jan. 23, 2019, declared himself interim president. Dozens of countries, including the U.S., recognized Guaidó, but Maduro clung to power. The military

cracked down on protesters. UN reports in 2019 and 2020 concluded that detainees were being tortured and that security forces and death squads had committed thousands of extrajudicial killings. Pro-Maduro candidates swept Dec. 6, 2020, National Assembly elections boycotted by the opposition. The COVID-19 pandemic added to the country's suffering. Venezuela had more than 540,000 recorded cases and almost 5,800 deaths as of Aug. 22, 2022; the actual figures were thought to be much higher.

Settled by Viets from central China, Vietnam was held by China, 111 BCE-939 CE, and was a vassal state during subsequent periods. Conquest by France began in 1858 and ended in 1884 with the protectorates of Tonkin and Annam in the N and the colony of Cochinchina in the S.

Japan occupied Vietnam in 1940. Several groups formed the Vietminh (Independence) League, headed by Communist guerrilla leader Ho Chi Minh. In Aug. 1945, the Vietminh forced out Bao Dai, former emperor of Annam and head of a Japan-sponsored regime. France, seeking to reestablish colonial control, unsuccessfully battled Communist and nationalist forces, 1946-54.

Separate states formed in N. and S. Vietnam, with Communists under Ho Chi Minh (backed by Russia and China) controlling N.

Vietnam and a non-Communist government (backed by the U.S.) controlling S. Vietnam. N. Vietnam aided Vietcong guerrillas who sought to take over S. Vietnam. U.S. troops and the S. Vietnamese army fought N. Vietnamese and Vietcong forces, including in border areas of Laos and Cambodia. Combat deaths: U.S. 47,434 (Aug. 4, 1964-Jan. 27, 1973); S. Vietnam more than 200,000; other allied forces 5,225. Total U.S. fatalities exceeded 58,000. Vietnamese civilian casualties were more than 1 mil. The war displaced more than 6.5 mil in S. Vietnam.

A never-implemented cease-fire agreement was signed in Paris Jan. 27, 1973, by the U.S., N. and S. Vietnam, and the Vietcong. The last U.S. troops left Vietnam Mar. 27, 1973. S. Vietnam surrendered Apr. 30, 1975. N. Vietnam assumed control. The country was officially reunited July 2, 1976.

Heavy fighting with Cambodia took place, 1977-80. China cut off economic aid, 1978, when 140,000 ethnic Chinese fled discrimination in Vietnam. Reacting to Vietnam's 1979 invasion of Cambodia, China attacked four Vietnamese border provinces, Feb. 1979.

Vietnam announced in 1987 reforms aimed at reducing central control of the economy. The U.S. ended, Feb. 1994, a 19-year embargo on trade with Vietnam, and it extended full diplomatic recognition to Vietnam July 11, 1995. The U.S. lifted in 2016 its embargo on lethal arms sales to Vietnam.

Affected by the COVID-19 pandemic, Vietnam had recorded nearly 11.4 mil cases (13th-highest in the world) and about 43,000 deaths as of Aug. 22, 2022.

Yemen's territory once was part of the ancient biblical Kingdom of Sheba, or Saba. Yemen became independent in 1918, after centuries of Ottoman Turkish rule.

Imam Yahya ibn Muhammad ruled, 1904-48, and after his assassination was succeeded by his son, Imam Ahmed, 1948-62. Army officers headed by Brig. Gen. Abdullah al-Salal declared the country the Yemen Arab Republic, Sept. 1962. Ahmed's heir, the Imam Mohamad al-Badr, fled to the mountains where tribesmen joined royalist forces, aided by the Saudi monarchy. Fighting between royalists and republicans killed about 150,000 people until hostilities ended in 1970.

South Yemen, formed from the British colony of Aden and the British protectorate of South Arabia, became independent Nov. 1967. A Marxist state and a Soviet ally, it took the name People's Democratic Republic of Yemen in 1970. More than 300,000 Yemenis fled from the S to the N after independence, contributing to two decades of hostility between the two states.

The two countries were formally united May 21, 1990, but regional clan-based rivalries led to full-scale civil war in 1994. Northern troops captured the former southern capital of Aden in July.

While on a refueling stop in Aden, Oct. 12, 2000, the destroyer USS *Cole* was bombed, killing 17 Americans; the U.S. blamed the attack on al-Qaeda terrorists.

Clashes beginning in June 2004 between Yemeni government forces and Shiite rebels led by an anti-U.S. cleric, Hussein al-Houthi, left more than 200 people dead. The government announced Sept. 10 that Yemeni troops had killed al-Houthi.

During 2007-10, Shiite rebels in the northwest, secessionists in the south, Sunni militants in the east affiliated with al-Qaeda in the Arabian Peninsula (AQAP), and pirates in coastal waters challenged Yemeni government authority. Pres. Ali Abdullah Saleh was severely wounded June 3, 2011, in a rocket attack. Vice Pres. Abd Rabbuh Mansur Hadi became acting president and won an uncontested Feb. 2012 election. Anwar al-Awlaki, a U.S. citizen and radical Muslim cleric linked to several plots against the U.S., was killed Sept. 30, 2011, by a U.S. missile in northern Yemen.

Shiite rebels known as Houthis took over Sanaa in Sept. 2014 and gained control of much of western Yemen. A coalition of Sunni nations led by Saudi Arabia, which backed Hadi, began, Mar. 25, 2015, airstrikes against Houthi fighters and Houthi-controlled areas. The U.S. provided weaponry and logistical support (ended in 2021). UAE ground troops aided forces combating Houthi rebels. Airstrikes (including bombings of hospitals, markets, and schoolchildren) and other fighting caused high civilian casualties. Houthi rebels were aided by Iran. AQAP was active in southern Yemen, and the Sunni extremist group ISIS staged attacks. Houthi forces launched missile and drone attacks on targets in Saudi Arabia and, as their weaponry became more sophisticated, the UAE. Heavy fighting between Houthi and government forces continued through early 2022. A UN-mediated cease-fire went into effect Apr. 2, 2022. Hadi transferred power, in Apr. 2022, to an 8-member Presidential Council. UN-brokered talks continued when the cease-fire expired, Oct. 2, 2022.

By early 2022, the death toll in Yemen's civil war since 2015 was estimated at 150,000; tens of thousands more had likely died from indirect causes such as famine. As of Aug. 2022, more than 4.3 mil people were internally displaced, and over 23 mil needed humanitarian assistance. A cholera epidemic that began in late 2016 caused millions of cases and thousands of deaths before new cases began to decline somewhat in 2022. The impact of the COVID-19 pandemic on Yemen, with a decimated health care system, was difficult to assess.

Ruled by the British as Northern Rhodesia, the country became the independent republic of Zambia within the Commonwealth Oct. 24, 1964. Independence leader Kenneth Kaunda governed as president, 1964-91. A Zambian government corporation in 1970 took over 51% of two foreign-owned copper-mining companies. Privately held land and other enterprises were nationalized in 1975. In the 1980s and 1990s, lowered copper prices hurt the economy and severe drought caused famine.

Oct. 1991 elections brought an end to Kaunda's one-party rule. The new government sought to sell state enterprises, including the copper industry. Pres. Frederick Chiluba won reelection Nov. 1996. In 2001, Chiluba endorsed Levy Patrick Mwanawasa, who won a disputed Dec. election. Food shortages threatened more than 2 mil Zambians in 2002. Mwanawasa won a second term in 2006.

Pres. Mwanawasa died Aug. 19, 2008. Vice Pres. Rupiah Banda became acting pres. He narrowly won the presidency in the Oct. 2008 election but lost to opposition leader Michael Sata Sept. 2011. Sata died in office, Oct. 28, 2014. Edgar Lungu of Sata's Patriotic Front party narrowly won a Jan. 2015 special election. Lungu narrowly won a new term in Aug. 11, 2016, elections that his main opponent claimed were marred by fraud. Several European countries suspended aid payments, Sept. 2018, after allegations of government corruption and embezzlement of aid money. With inflation and unemployment high, Hakainde Hichilema defeated Lungu in the Aug. 12, 2021, presidential election.

The country has made progress in treating HIV/AIDS, but the disease afflicted 1.5 mil Zambians as of 2020.

Britain took over the area as Southern Rhodesia in 1923 from the British South Africa Co. (which, under Cecil Rhodes, had conquered it by 1897) and granted internal self-government. A 1961 constitution restricted voting to keep whites in power.

On Nov. 11, 1965, Prime Min. Ian D. Smith unilaterally declared independence. Britain termed the act illegal and demanded that the country (known as Rhodesia until 1980) enfranchise the Black African majority. The UN imposed sanctions, and Black nationalists launched guerrilla attacks.

After the country held its first universal-franchise election, Apr. 21, 1979, all parties accepted a cease-fire, Dec. 5. The country changed its name to Zimbabwe upon independence, Apr. 18, 1980. Robert Mugabe, the nation's first prime min., became executive president in 1987. From the late 1990s, Mugabe's rule became increasingly repressive. A land redistribution campaign triggered violent attacks in Apr. 2000 against some white farmers (white landowners had controlled 70% of the land). Production of corn, the nation's food staple, subsequently declined sharply. Mugabe, relying on fraud and intimidation, won the Mar. 9-11, 2002, presidential election. During 2006-08, inflation soared to a yearly rate of more than 100,000%.

Mugabe clung to power after a widely discredited 2008 presidential election and intensified a crackdown on dissidents. Mugabe won the July 31, 2013, presidential election.

Drought caused food shortages in 2016. Police suppressed strikes and demonstrations protesting economic conditions. Mugabe lost the support of the military and his ZANU-PF party, and he resigned, Nov. 21, 2017. Vice Pres. Emmerson Mnangagwa became president, Nov. 24, and narrowly won a disputed July 30, 2018,

presidential election. Security forces cracked down violently after Jan. 2019 protests and looting, triggered by food and fuel shortages. Economic hardship and repression continued in 2020-22. With vaccination declining, a 2022 measles outbreak killed over 700 people by Sept.

WORLD ALMANAC EDITORS' PICKS: MOST MEMORABLE RIVALRY MATCH-UPS

North Carolina 81, Duke 77, Apr. 2, 2022

Given the historic strength of their men's basketball programs, it seemed improbable that Duke and Univ. of North Carolina had never met in the NCAA Tournament. So when the teams finally squared off in the 2022 Final Four with Duke's Mike Krzyzewski coaching in his 47th and final season, the matchup figured to be epic even before tipoff. The game did not disappoint; fans were treated to a back-and-forth affair, with 18 lead changes and 12 ties. Duke was up 37-34 at halftime, but neither team led by more than seven points at any time. Each team made three clutch three-pointers in the final two minutes, the last coming from UNC's streaky point guard Caleb Love to give the Tar Heels a lead they never relinquished. Though little consolation to Duke fans, North Carolina lost in the finals to Kansas, 72-69.

Ohio State 42, Michigan 39, November 18, 2006

The Midwest's two premier college football teams first met in 1897, and Michigan didn't lose until 1919. But most of those games were just for bragging rights or maybe a trip to the Rose Bowl before the NCAA instituted a playoff. And in 2006, the undefeated No. 1 Buckeyes and the undefeated No. 2 Wolverines played for a likely berth in the BCS National Championship. Ohio State led 28-14 at halftime before the Wolverines closed the lead to four on the strength of a third-quarter touchdown and field goal. The Buckeyes extended their lead again in the fourth quarter to 42-31. Michigan scored and made the two-point conversion with 2:16 left in the game to bring the score to 42-39, but never got the ball back.

Michigan fans had to settle for a trip to Pasadena, where the Wolverines lost, 32-18, to USC in the Rose Bowl. The elation for Ohio State fans wore off as well, when the Buckeyes lost to Florida in the title game, 41-14.

Connecticut 73, Tennessee 68, Apr. 8, 2003

These two schools stand head and shoulders above all other women's college basketball programs. Connecticut has won 11 national championships, while Tennessee has eight. Both teams' legendary coaches—Geno Auriemma at UConn, the late Pat Summitt at Tennessee—are members of not only the Women's Basketball Hall of Fame but also the Naismith Memorial Basketball Hall of Fame. Connecticut has won 16 of the 25 matchups between the two programs since they first played in 1995, and all four times they've met in the NCAA Women's final. The closest of those contests was in 2003. The Huskies' standout guard Diana Taurasi (later the all-time high scorer in the WNBA) took over the game, scoring 28 points to bring UConn its second straight national title.

NY Yankees 6, Boston Red Sox 5, Oct. 16, 2003

Yankees-Red Sox has long been considered one of baseball's premier rivalries, but for about 80 years, it was a decidedly one-sided affair. The NY Yankees captured 26 World Series Championships between 1923 and 2003, including three straight from 1998-2000, while Boston hadn't won the Fall Classic since 1918. The teams met in the 2003 American League Championship Series, and in the deciding seventh game, Boston jumped out to a 4-0 early lead, chasing their multi-Cy Young-winning former pitcher Roger Clemens out of the game by the fourth inning. But the Yankees battled back to tie the game in the 8th inning. In the 11th inning, light-hitting infielder Aaron Boone hit a solo homer to send the Yankees to the World Series.

The Red Sox got their revenge in an ALCS rematch the following year. Boston defeated the Yankees to become the first team in baseball history to win a seven-game series after losing the first three games, then blew past St. Louis in four straight games for their first World Series title in eight decades. Boston has won the Series three more times since, while the Yankees have won just once.

Argentina 1, Brazil 0, June 24, 1990

Emotions run high when South America's two biggest countries face off in soccer. Since their first meeting in 1914, Brazil has won 43 times, Argentina 40 times, and 26 matches have ended in ties (as of June 2022, prior to the 2022 World Cup). In the World Cup Round of 16 in Turin, Italy, Argentina was the defending champion, having won the Cup in 1986, but Brazil was heavily favored to win. In the 81st minute, Argentina's superstar Diego Maradona made a break toward Brazil's goal, drawing three defenders before passing the ball between a defender's legs to Claudio Caniggia, who put it into the net for the game's only goal. The game was as memorable for its off-the-field antics as it was for the action on the pitch. After the game, Brazil's Branco claimed an Argentine trainer gave him a bottle of water spiked with tranquilizers, an allegation that Maradona later winked at, saying Branco had received "holy water."

Chris Evert Over Martina Navratilova, June 8, 1985

Women's tennis legends Chris Evert and Martina Navratilova squared off 80 times between 1973 and 1988, including 22 times in Grand Slam events: eight of those were in the semifinals and 14 were for the championship. Evert dominated the early matches, before Navratilova went on a 13-match win streak to take the series lead. Evert had lost to Navratilova in three of the four Grand Slam finals in 1984, but neither woman lost a set on their way to the finals of the 1985 French Open. Evert brought her best game to Roland Garros, capturing the first set easily, 6-3. Navratilova bounced back to take the second set in a 7-4 tiebreaker and was on the verge of breaking Evert's serve at 5-5 in the third set before a drop shot backfired. Evert rallied to hold serve and then took the next game for a 7-5 win.

Björn Borg Bests John McEnroe, July 5, 1980

In 1980, the two best players in men's tennis met in a widely anticipated match for the Wimbledon championship. Björn Borg, a cool, quiet Swede who hugged the baseline, was the four-time

defending champion, while John McEnroe was a brash, loudmouthed 21-year-old American who had served and volleyed his way into his first-ever Wimbledon final. Many still regard the 3-hour and 53-minute battle between the two opposites as the best match in tennis history. It featured an epic tiebreaker in the fourth set in which McEnroe fended off five match points before prevailing 18-16. In the fifth and final set, both men held serve until 6-6, when Borg finally broke through and won the match 1-6, 7-5, 6-3, 6-7 (16-18), 8-6.

Boston Celtics 108, Los Angeles Lakers 106 May 5, 1969

The Celtics and Lakers met in the NBA Finals eight times between 1959 and 1984, with Boston winning each time. It wasn't until the Showtime Lakers of the 1980s that Los Angeles finally came out on top. But the Lakers' best prior chance at breaking the spell came in 1969. In anticipation of a crowning Game 7 victory, Lakers owner Jack Kent Cooke had stocked the rafters of the Forum with balloons and printed flyers noting which players would be interviewed "when, not if, the Lakers win the title." According to legend, one of those flyers reached the Boston locker room and was all the motivation the Celtics needed. Boston led for most of the game, and though the Lakers went on an 8-0 run to bring the margin to a single point with less than two minutes to play, they never got any closer, and the balloons never came down.

NY Giants 5, Brooklyn Dodgers 4 Oct. 3, 1951

The Giants trailed Brooklyn by 13 ½ games Aug. 11, 1951, but reeled off 37 wins in their last 44 games to tie the Dodgers on the final day of the season. That set up a three-game playoff for the NL Pennant, with the winner advancing to the World Series. The teams split the first two games, setting up a winner-take-all matchup at New York's Polo Grounds. The Dodgers took the early lead, notching one run in the 1st inning and three runs in the 8th. Down 4-1 in the 9th, the Giants rallied with two singles and a double off Brooklyn's tiring starter Don Newcombe. He was relieved by veteran Ralph Branca, who threw an 0-1 pitch that

Bobby Thomson belted into the stands for “the Shot Heard ‘Round the World.”

Army 21, Navy 21, Nov. 27, 1926

America’s two major service academies have been concluding the regular college football season since 1890, but the 1926 meeting is still the stuff of legend. The setting was equally historic: more than 100,000 spectators came to witness the game and the dedication of Chicago’s Soldier Field, built as a memorial to WWI service members. Navy jumped out to 14-0 lead, but West Point stormed back with three touchdowns to take the lead at the end of the third quarter. Navy’s Alan Shapley scored a tying touchdown in the fourth quarter, securing an undefeated season and the national championship (Army had lost to Notre Dame earlier in the season).

OLYMPIC GAMES

General Olympic Information

The modern Olympic Games, first held in Athens, Greece, in 1896, were the result of efforts by Baron Pierre de Coubertin, a French educator, to promote interest in education and culture and to foster better international understanding through love of athletics. His inspiration was the ancient Greek Olympic Games, most notable of the four Panhellenic celebrations. The games were combined patriotic, religious, and athletic festivals held every four years. The first such recorded festival was held in 776 BCE, when the Greeks began to keep their calendar by “Olympiads,” or four-year spans between the games.

Coubertin enlisted 14 nations to send athletes to the first modern Olympics. Now athletes from more than 200 nations and territories compete in the Summer Olympics. The Winter Olympic Games, started in 1924, draw competitors from about 90 countries and territories.

Symbol: Five rings or circles, linked to represent the sporting friendship of all peoples. They also symbolize five geographic areas—Africa, America, Asia, Australia, and Europe. Each ring is a different color—blue, yellow, black, green, and red—which, with the color white, represent the colors of the world’s flags.

Flag: The five-ring symbol on a plain white background.

Creed: “The most important thing in the Olympic Games is not to win but to take part, just as the most important thing in life is not the triumph but the struggle. The essential thing is not to have conquered but to have fought well.”

Motto: Citius, Altius, Fortius. (“Faster, higher, stronger” in Latin.) Updated in 2021 to “Citius, Altius, Fortius – Communiter” (“Faster, higher, stronger – together”).

Oath: “In the name of all the competitors I promise that we shall take part in these Olympic Games, respecting and abiding by the rules which govern them, committing ourselves to a sport without doping and without drugs, in the true spirit of sportsmanship, for the glory of sport and the honor of our teams.”

Flame: The modern version of the flame was adopted in 1936. The torch used to kindle it is first lit by the sun’s rays in Olympia, Greece, then carried to the site of the Games by relays of runners. Ships and planes are used when necessary.

2024 Summer Olympic Games: Preview

Paris, France, July 26-Aug. 11, 2024

The XXXIII Olympic Summer Games are scheduled to take place in Paris, France, in July-Aug. 2024, marking the centenary of the Games hosted by Paris, in 1924. Along with London, England, it will be only the second city to host the summer games three times. Competitions in 329 medal events will include one new event, breaking, the competitive name for breakdancing.

2020 Summer Olympic Games

Tokyo, Japan, July 23-Aug. 8, 2021

The second Summer Olympic Games held in Japan set a record for number of athletes (11,656) participating, from 206 nations (including a team composed of refugees). Forty-two venues hosted 339 events in 33 different sports. The International Olympic Committee added four sports to the games: karate, surfing, skateboarding, and sport climbing; baseball and softball were re-introduced.

Originally scheduled to be held July 24-Aug. 9, 2020, the Games were postponed by one year because of the coronavirus pandemic (the event retained the "Tokyo 2020" name for branding and marketing purposes). The Games were played under unprecedented conditions, with no public spectators permitted due to the state of emergency in the Tokyo area. Athletes could arrive no sooner than five days before their competition, and needed to depart within 48 hours after completion. Daily testing occurred and, as of mid-Aug., a total of 533 accredited personnel tested positive for coronavirus during the course of the Games.

U.S. swimmer Caeleb Dressel won five gold medals and set two world records. Fellow U.S. swimmer Katie Ledecky continued her winning streak, earning two golds and two silvers, making her the most decorated U.S. woman athlete of the games. U.S. runner

Allyson Felix became the most decorated track and field Olympian in U.S. history by winning her 11th career medal. U.S. gymnast Simone Biles, the 2016 all-around gold medalist, withdrew from four finals to focus on her safety and mental health. She went on to win a silver medal in the team event and a bronze medal on balance beam. Her teammate, gymnast Sunisa Lee, became the first Asian American to win gold in the all-around final; the U.S. women took silver in the team event. Both U.S. basketball teams continued to dominate with the women winning gold for the seventh Olympics in a row, and the men their fourth in a row.

Ahmed Hafnaoui, an 18-year-old swimmer from Tunisia, pulled off an upset win in the 400-m freestyle swimming event. Host country Japan performed well in the new sport of skateboarding, winning gold in three out of four events, as well as one silver and one bronze.

San Marino, which has participated in the games since 1960, became the smallest country in the world to win their first Olympic medals. Russian athletes competed as the Russian Olympic Committee (ROC) as a result of a punishment by the World Anti-Doping Agency for a state-sponsored doping program in Russia.

2022 Winter Olympic Games

Beijing, China, Feb. 4-20, 2022

Nearly, 3,000 (2,871) athletes representing 91 nations met in Beijing, China, to compete in a record 109 events in 15 disciplines during the XXIV Olympic Winter Games Feb. 4-20, 2022. These were the second Games held during the worldwide COVID-19

pandemic. China was hosting the Games for the first time since the 2008 Summer Games, repurposing five of the seven structures created for those games. Norway once again dominated the Games with 37 medals, including 16 gold, to top the final medal count, followed by Russian Olympic Committee athletes (32 medals, 6 gold), Germany (27, 12), Canada (26, 4), and the U.S. (25, 8).

The human rights violations and the Uyghur genocide of the host country China caused several countries, including the U.S. and the United Kingdom, to conduct a diplomatic boycott, refusing to send any official representation to the Games. China's close ally, North Korea, did not attend the Games, citing the pandemic and "hostile forces," but the Intl. Olympic Committee (IOC) had already suspended the country. The IOC ruling barring Russia from competing due a state-sponsored doping scandal was still in effect, but Russian athletes were granted exemptions to compete under the designation Russian Olympic Committee (ROC).

At 18, American-born Eileen Gu, competing for China, became the youngest Olympic champion in freestyle skiing, winning gold in the halfpipe and big air, and silver in slopestyle. Sui Wenjing and Han Cong of China won gold in the figure skating pairs competition; they were the 2018 silver medalists. Germany swept the two-man bobsled competition by winning gold, silver, and bronze. The controversial decision by the Court of Arbitration for Sport to allow 15-year-old ROC athlete Kamila Valieva to skate after a delayed report for testing positive for a banned substance in Dec. 2021, left in question the ROC's earlier victory in the figure skating team event; no medals were awarded for this competition pending a resolution. Favored to win the women's singles event, Valieva failed to medal.

Three-time world champion U.S. figure skater Nathan Chen performed five clean quadruple jumps on his way to winning gold in men's singles. U.S. snowboarder Lindsey Jacobellis, a 36-year-old veteran of four previous Olympic Games, won gold and her first Olympic medal since 2006 with 40-year-old teammate Nick Baumgartner in mixed team snowboard cross. American speed skater Erin Jackson won gold in the women's 500-m speed skating event, becoming the first Black woman to medal in Olympic speed

skating. After finishing fourth in the snowboard halfpipe, five-time Olympian Shaun White announced his retirement.

Seven new medal events were introduced in 2022: men's and women's big air freestyle; women's monobob; mixed relay in short-track speed skating; and mixed team competitions in freestyle skiing aerials, ski jumping, and snowboard cross.

Paralympic Games

Mar. 4-13, 2022

More than 550 athletes from 46 countries, participating in 78 events across six sports, met at the XIII Paralympic Winter Games, held Mar. 4-13, 2022, in Beijing, China. The International Paralympic Committee on Mar. 3, 2022, banned Russian and Belarusian athletes from competing in the games, due to Russia's invasion of Ukraine on Feb. 24, 2022. The host country, China, which had previously only won one gold medal, surpassed all expectations by winning 61 medals, 18 of them gold. Ukraine came in second with 29 medals (11 gold). Other leading winners included Canada with 25 medals (8 gold), the United States with 20 (6 gold), and Germany with 19 (4 gold). The XVI Paralympic Summer Games were held Aug. 24-Sept. 5, 2021, in Tokyo, Japan. More than 4,400 athletes from 162 countries participated. Medals were awarded in 22 sports. China claimed 207 total medals, including 96 gold, outpacing Great Britain (124), athletes representing the Russian Paralympic Committee (118), and the United States (104). The 2024 Summer Paralympics were expected to be held in Aug.-Sept. in Paris, France.

The first Olympic Games for athletes with an impairment were held in Rome after the 1960 Summer Olympics; use of the name "paralympic" began with the 1964 games in Tokyo. The Paralympics are held by the Olympic host country in the same year and usually the same city and venue or venues. In 1976, the first Winter Paralympics were held in Ornskoldsvik, Sweden.

COLLEGE FOOTBALL

2021 CFP Championship: Georgia Takes Down Alabama

The Univ. of Georgia Bulldogs took the college football championship title for the first time in 41 years, defeating the Univ. of Alabama Crimson Tide, winner of six national titles since just 2009. The No. 3-ranked Georgia outlasted No. 1 Alabama, 33-18, Jan. 10, 2022, at Lucas Oil Stadium in Indianapolis, IN, in a rematch of the SEC championship game from which the Crimson Tide emerged triumphant just a month earlier. 'Bama's Heisman Trophy-winning quarterback Bryce Young was stymied by the Bulldogs' defense, and neither team reached the end zone until the end of the third quarter. Georgia's Kirby Smart, who had been on Alabama head coach Nick Saban's coaching staff with three separate teams, claimed his first title as head coach and first victory against his former mentor.

National College Football Championship Game Results, 1998-2021

The Bowl Championship Series (BCS) National Championship game (BCS ranked No. 1 vs. BCS No. 2) determined the NCAA's Football Bowl Subdivision (Div. I-A) champion in 1998-2013. The College Football Playoff (CFP) replaced the BCS at the end of the 2014 regular season. The four-team CFP consists of a semifinal round (rotating among the following six bowl games: Sugar, Rose, Orange, Cotton, Peach, and Fiesta) and a championship game played on a Monday night. A committee ranks 25 teams for the playoffs and selected other bowl games, using guidelines that include strength of schedule, head-to-head results, and won-loss records; preference is given to conference champions. Years shown here are for regular season, not year in which championship was played.

COLLEGE BASKETBALL

2022 NCAA Men's Basketball: Baylor Wins First Title

The Univ. of Kansas Jayhawks came back from a 16-point deficit in the championship game Apr. 4, 2022, to defeat the Univ. of North Carolina Tar Heels, 72-69, in New Orleans, LA. Playing in front of 69,423 fans, the Jayhawks claimed their first NCAA title since 2008. The Tar Heels had eliminated their longtime rival Duke—and legendary coach Mike Krzyzewski in his final game before retirement—in the semifinal round to reach the championship game but dropped a 40-25 halftime lead to give Kansas the win in the final.

National Invitation Tournament Champions, 1938-2022

The National Invitation Tournament (NIT), first played in 1938, is the oldest U.S. basketball tournament. The first National Collegiate Athletic Association (NCAA) national championship tournament was played one year later. In 2005, the NCAA purchased the NIT from the five New York City-area colleges that had run it. No tournament was held in 2020 in response to the COVID-19 outbreak.

NFL 2021: L.A. Rams Super at SoFi

The Los Angeles Rams rallied late in the fourth quarter to knock off the Cincinnati Bengals, 23-20, in Super Bowl LVI at SoFi Stadium in Inglewood, CA. The Rams became the second team ever—and second in as many years—to win a Super Bowl in their home stadium. Cooper Kupp, who caught a fourth-down pass and the winning touchdown on the deciding drive, was named the game's Most Valuable Player. Cincinnati quarterback Joe Burrow threw for 263 yards despite 7 sacks. Rams QB Matthew Stafford, acquired from the Detroit Lions in the offseason, tossed for 283 yards and 3 touchdowns.

The 2021 season was the longest regular season ever. The NFL added one regular-season game to the schedule in 2021. The 17-game season was the first scheduled with an odd-numbered total since 1946, when the NFL had only 10 teams and 11 games. COVID-19's second year made the 2021 season feel a little longer, with more than 500 players missing game action. Virus outbreaks caused the postponement of three games in Dec.

Green Bay quarterback Aaron Rodgers won his second straight league MVP (fourth overall), and Tampa Bay QB Tom Brady became the first player to start 300 career games. Brady, a 15-time Pro Bowler (another record), also topped the recently retired Drew Brees's marks with 84,520 passing yards and 7,263 completions but established a more dubious mark when he was sacked for the 525th time, unseating Brett Favre. At 44 years old, Brady not only became the oldest player to lead in passing yards and TD tosses, he also set the NFL season record with 485 completions, breaking another record previously held by Brees (471). Kicking records weren't safe, either, as Baltimore's Justin Tucker set the all-time longest field goal record with a 66-yard boot that hit the crossbar and bounced through on the final play to stun the Detroit Lions, 19-17, on Sept. 26.

The Las Vegas Raiders won a record six games on their last play, including in their regular-season finale, denying the Los Angeles Chargers a playoff spot. The Miami Dolphins became the first team to follow a seven-game losing streak with a seven-game winning streak, but they ended up out of the playoffs.

The Rams ended Tampa Bay's dreams of a repeat title by beating Brady's Bucs on the road in the divisional round. L.A. then earned the trip to the Super Bowl by defeating division rival San Francisco, which had upset Rodgers-led Green Bay. Cincinnati, three decades removed from its last playoff win and winners of just four games in 2020, came within a whisper of winning four games in the 2021 postseason. Their stunning turnaround centered on second-year QB Joe Burrow and two rookies, wide receiver Ja'Marr Chase and kicker Evan McPherson. Chase became the first rookie to have multiple 100-yard receiving games in the postseason; McPherson tied Adam Vinatieri's career postseason marks for three games with four field goals and 14 total field goals. The Cincy trio helped upset the Raiders, Titans, and Chiefs to make it to Super Bowl LVI.

The most memorable playoff game of the year was a Jan. 23, 2022, divisional contest between Buffalo and Kansas City, with 25 total points in the final two minutes of regulation. After a 19-yard touchdown pass from Josh Allen to Gabriel Davis gave the Bills the lead with 13 seconds left, Patrick Mahomes engineered a 44-yard drive that led to Harrison Butker's game-tying field goal, sending the game into overtime. Kansas City won the coin toss and Mahomes completed all five passes in OT; his 8-yard TD to Travis Kelce ended the 42-36 victory. The abrupt ending with no chance of rebuttal in such an epic game led to a change in the postseason rules to assure each team at least one OT possession, starting in 2022.

The Los Angeles Rams rallied in the fourth quarter to win Super Bowl LVI over the Cincinnati Bengals, 23-20, at SoFi Stadium in Inglewood, CA, on Feb. 13, 2022. Rams QB Matthew Stafford threw the game-winning touchdown to Super Bowl MVP Cooper Kupp, making the Rams the second team in as many years to win the Super Bowl in their home stadium. The Rams won their first Super Bowl title of two stints in Los Angeles. The 1999 St. Louis Rams won Super Bowl XXXIV, but the franchise lost in its other three Super Bowl appearances. (The team also won championships in the pre-Super Bowl era, in Cleveland in 1945 and Los Angeles in 1951.) L.A. head coach Sean McVay became at 36 years old the youngest head coach to win a Super Bowl.

Stafford was one of three key pieces acquired by the Rams in 2021 to reach the Super Bowl. A quarterback swap of former first overall draft picks saw the 12-year veteran (drafted in 2009 out of Univ. of Georgia) arrive from Detroit for QB Jared Goff (drafted in 2016 from Univ. of California); the Rams also sent the Lions two future first-round picks and a third-round selection. Midway through the 2021 season, the Rams traded for eight-time Pro Bowl linebacker Von Miller from the Denver Broncos and later picked up three-time Pro Bowl receiver Odell Beckham Jr. after he was released by the Cleveland Browns.

Beckham helped the Rams draw first blood in the game, hauling in a touchdown pass in the first quarter, before the wide receiver left

with an injury. Kupp hauled in a TD from Stafford to make it 13-3 (with a missed two-point attempt). The Bengals caught the Rams off guard with a 6-yard scoring pass from running back Joe Mixon to Tee Higgins. Higgins later caught a 75-yard scoring pass from Joe Burrow. Evan McPherson's second field goal gave the Bengals a 20-13 lead in the third quarter before the Rams rallied on Kupp's winning catch and Matt Gay's field goal with 1:25 left. L.A.'s defense, led by Miller and Aaron Donald, stopped the Bengals on downs to seal the win.

Super Bowl, 1967-2022

The Super Bowl was created as a condition of the merger between the American Football League (AFL, formed in 1959) and National Football League (NFL, formed in 1920). Announced June 8, 1966, the merger agreement stipulated that the leagues would play separate regular season schedules through the 1969 season but meet after each in an AFL-NFL Championship Game, unofficially dubbed the Super Bowl. The first Super Bowl, played at the Memorial Coliseum in Los Angeles on Jan. 15, 1967, did not sell out, unlike every Super Bowl game since. Each player on the victorious Green Bay Packers earned \$15,000 for the win; the defeated Kansas City Chiefs each collected \$7,500.

World Series, 2022: Houston Arms, No-Hitter Bust Dusty's Drought

The Houston Astros captured the 2022 World Series title with a 4-1 win in Game 6 over the Philadelphia Phillies Nov. 5. Yordan Álvarez launched a 450-ft, three-run bomb to center field to put Houston ahead for good in the sixth inning. The victory marked the first world championship for Dusty Baker, ending the longest drought for a manager without a championship (2,093 regular-season wins) and also making the 73-year-old the oldest manager to win a World Series. Rookie shortstop Jeremy Peña earned World Series MVP with a .400 average. Wild card Philadelphia surprised St. Louis, Atlanta, and San Diego in the playoffs, and led the World Series after three games before Astros pitching limited them to three runs and nine hits over the last three games. Houston held the Phillies to a .163 average overall.

Outfielder Kyle Tucker's two home runs in his first two at bats gave Houston a big lead in the series opener, but Philadelphia catcher J.T. Realmuto tied the game on a two-run double in the fifth inning and provided the winning margin with a home run in the 10th. The Astros got even with three consecutive doubles to open Game 2 and Framber Valdez earned the first of his two wins in the Series. The Phillies blasted a World Series-record tying five home runs in Game 3, all off Lance McCullers.

Houston right-hander Cristian Javier was unhittable in Game 4; with Bryan Abreu, Rafael Montero, and Ryan Pressly pitching in relief, the Astros claimed just the second no-hitter in World Series history.

Veteran right-hander Justin Verlander, 0-6 in eight previous World Series starts, earned the victory in Game 5. Houston's 3-2 win required solid relief work and brilliant defense—including a leaping catch against the wall by center fielder Chas McCormick in the ninth.

MLB 2022: New Names and New Milestones

A 99-day lockout by team owners delayed the start of the season, but all 162 games were played after the owners of MLB's 30 clubs unanimously reached an agreement Mar. 10 with a somewhat divided players' association on the new five-year collective bargaining agreement. New stipulations called for a designated hitter in both leagues and six postseason teams per league.

But triple-digit regular-season win totals by the Atlanta Braves, New York Mets, and Los Angeles Dodgers did no good in Oct.—all three were bounced after one postseason series. Third-in-division Philadelphia claimed the final NL spot in one of two new Wild Card series, where they knocked out the St. Louis Cardinals for an anticlimactic end to the final seasons of veteran stars Yadier Molina and Albert Pujols. A strong career finish vaulted Pujols to second place on the all-time RBI list (2,218) and fourth in home runs (703). Detroit's Miguel Cabrera, who won the AL batting triple crown in 2012, collected his 3,000th hit on Apr. 23, and on May 7 he joined Hank Aaron and Pujols as the only players with 3,000 hits, 500 home runs, and 600 doubles.

The 2022 season marked 61 years since NY Yankees Roger Maris hit 61 home runs in 1961 to surpass Babe Ruth's record, also set wearing Yankee pinstripes. (Three National League sluggers had bested 61 home runs in recent years, with Barry Bonds holding the single-season record at 73 since 2001.) Despite collecting just one home run in his first 13 games, NY Yankees outfielder Aaron Judge slugged his way through the rest of the season as the Yankees rolled to the AL East title. Judge tied Maris's single-season mark on Sept. 28 in Toronto, and the 6-foot-7 slugger's homer Oct. 4 off Jesus Tinoco in Texas set the new AL single-season home run record at 62.

Fourteen rookies made their major league debuts for Cleveland in 2022, fitting for an old club embracing a new name. After years of discussion about replacing the Indians moniker (in use since 1915), the team July 23, 2021, had announced the new name, to debut for the 2022 season. "Guardians," chosen from a list of nearly 1,200

options, was inspired by statues on the city's Hope Memorial Bridge. The Guardians won the AL Central title but lost to the Yankees in the ALDS.

Veteran Astros pitcher Justin Verlander, returning from Tommy John surgery, threw his 3,000th career inning Apr. 16; he joined Zack Greinke as the only other active pitcher to hit that mark. L.A. Angels rookie Reid Detmers May 10 threw the only true no-hitter of 2022—one of just 36 MLB complete games all season. Five Mets threw 159 pitches without allowing a hit on Apr. 29, the most pitches ever thrown in a no-hitter, and three Astros combined on a no-no on June 25. On Sept. 15 the Rays became the first team to field an all-Latin lineup.

MLB celebrated the 75th anniversary of Jackie Robinson's milestone 1947 debut with the Brooklyn Dodgers in 2022. The All-Star Game at Dodger Stadium on July 19 coincided with the 100th birthday of Rachel Robinson, Jackie's widow and a long-time civil rights activist. L.A. Dodgers outfielder Mookie Betts led the stadium in birthday wishes for Robinson before the American League beat the National League for the ninth consecutive All-Star Game.

* = Wild-card team. If pennant winner is wild-card team, manager's name is given in parentheses. # = Single-game wild-card playoff winner (2012-21). ** = Best-of-three wild-card series (debuted in 2022). **Note:** In 2020, a best-of-three wild-card round included 8 teams in each league. (a) First half. (b) Second half. (c) Montréal, L.A., NY Yankees, and Oakland won the divisional playoffs. (d) In Aug. 1994, a players' strike began that caused the cancelation of the remainder of the season, the playoffs, and the World Series. Teams listed as division "winners" for 1994 were leading their divisions at the time of the strike.

Golden State Takes 2022 Title After Season Celebrating NBA's 75th Year

The Golden State Warriors won their fourth championship in eight seasons, defeating the Boston Celtics in six games, with Warriors star Stephen Curry recording 34 points in the 103-90 Game 6 clincher June 16, 2022, at TD Garden in Boston. Head coach Steve Kerr's Warriors spotted rookie head coach Ime Udoka's Celtics two of the first three games in the Finals before taking the last three contests, each by at least 10 points. Curry, who in 2021-22 surpassed Ray Allen as the all-time NBA leader in 3-pointers, had his record streak of 132 straight postseason games with a trey snapped in Game 5, but he hit six 3-pointers in the finale and was high-scorer in five of the six games. Curry averaged 31.2 points per game in the series and was named MVP of the Finals for the first time. Curry was also MVP of the NBA All-Star Game, scoring 50 points with a record 16 3-pointers to lead Team LeBron past Team Durant Feb. 20, 2022, in Cleveland, 163-160.

The National Basketball Association commemorated its 75th anniversary in 2021-22 with an all-time team, as well as new awards to honor division and conference winners. Previously unnamed, the conference trophies were christened for legends Bob Cousy (Eastern Conference) and Oscar Robertson (Western), while the top performer in each conference final received awards named after Larry Bird and Magic Johnson, respectively.

Denver Nugget Nikola Jokić, who became the first NBA player to record at least 2,000 points, 1,000 rebounds, and 500 assists in a season, was named MVP for the second straight year. The Serbian-born center, who was already the lowest-drafted player (41st overall in 2014) ever named MVP, joined Greek-born Milwaukee Buck Giannis Antetokounmpo, who finished third in the 2021-22 voting, as the only Europeans to win the award more than once. Philadelphia's

Joel Embiid became the first foreign-born player (Cameroon) to win a scoring title (30.6 points per game). Boston's Marcus Smart was named top Defensive Player, Toronto's Scottie Barnes was the NBA's Rookie of the Year, Tyler Herro of Miami was Sixth Man, and Monty Williams of the Phoenix Suns earned Coach of the Year.

In a more dubious record-setting feat, the 152-79 thumping of the Oklahoma City Thunder by the Memphis Grizzlies Dec. 2, 2021, was the most one-sided game in NBA history. Toronto was the first team to have five players exceed 50 minutes in a game during a 124-120 triple-overtime win over Miami Jan. 29, 2022. San Antonio head coach Gregg Popovich, with 1,344 victories, surpassed Don Nelson's mark of regular-season wins. Phoenix point guard Chris Paul became the first player to record 20,000 career points and 10,000 assists. Lakers star LeBron James, on Feb. 12, 2022, passed Kareem Abdul-Jabbar for most combined points in the regular season and playoffs, doing it in 181 fewer games. Abdul-Jabbar played half his career before the 3-point shot was instituted in 1979; he made just one 3-pointer in his 20-year career.

The NBA had 11 games postponed in Dec. 2021 due to a resurgence in COVID-19, but the season also marked the return of the Toronto Raptors to Scotiabank Arena; the club had not played in Toronto since Feb. 2020 due to the virus. Sporting goods manufacturer Wilson, which supplied game balls when the league began in 1946 as the Basketball Association of America, returned as official supplier after a 37-year absence.

Las Vegas Aces Claim First WNBA Title in 2022

The Las Vegas Aces won their first WNBA championship by defeating the Connecticut Sun in four games. The 78-71 clinching victory in Game 4 at Mohegan Sun Arena in Uncasville, CT, on Sept. 18, 2022, marked the first major sports championship for Las Vegas. Aces point guard Chelsea Gray, who averaged 21.7 points and 7 assists per game in the postseason, was named Finals MVP. First-year head coach Becky Hammon became the first woman to make the WNBA Finals as both a head coach and player.

Phoenix Mercury star center Brittney Griner's arrest on drug charges at a Moscow airport Feb. 17, 2022, cast a shadow on the 2022 season. Griner received a 9-year sentence on Aug. 4, 2022, but her arrest was criticized as politically motivated. She was named an honorary WNBA All-Star starter in absentia.

Avalanche Douses Lightning to Claim 2022 Stanley Cup

The Colorado Avalanche captured their third Stanley Cup and denied the Tampa Bay Lightning a third straight title in a 2-1 Game 6 clincher at Amalie Arena in Tampa, FL, June 26, 2022. Avalanche center Nathan MacKinnon scored the tying goal and set up left wing Atturi Lehtonen for the tiebreaker; Colorado goalie Darcy Kuemper stopped 22 of 23 Lightning shots in the game. Cale Makar, who had received the Norris Trophy as the league's best defenseman, also earned the Conn Smythe Trophy as the best player in the playoffs with eight goals and 21 assists during Colorado's postseason run.

The 2021-22 season marked the debut of the NHL's 32nd franchise: the Seattle Kraken. Seattle joined the Pacific Division in the Western Conference, while the Arizona Coyotes shifted to the Central Division. The seven Canadian clubs returned to their respective divisions after being bunched in one division during the previous season due to Canada's COVID-19 travel restrictions. An outbreak of the virus in Dec. 2021 shut down the NHL for several days, and Canadian teams remained on sabbatical until early Jan. 2022. A scheduled midwinter break intended to allow players to appear in the Olympic Games in Beijing was instead used to make up postponed NHL games.

Auston Matthews of the Toronto Maple Leafs won the Hart Trophy as regular season MVP with the first 60-goal NHL season in 10 years. Matthews also set the mark for most goals in a season by a U.S.-born player. Connor McDavid of the Edmonton Oilers won his fourth Art Ross Trophy for most points (123). Alex Ovechkin of the Washington Capitals broke Dave Andreychuk's career mark of 274 power play goals, finishing the season with 285. It was a strong year for the Eastern Conference as a record eight teams reached the 100-point plateau. The Presidents' Trophy-winning Florida Panthers

(122 points) were swept in the second round by the Lightning, who then defeated the NY Rangers to reach their third straight Stanley Cup final. The Avalanche dominated the West, finishing with the conference's best record, sweeping Nashville and Edmonton, and knocking off St. Louis and Tampa Bay in six games apiece.

Final NHL Standings, 2021-22

(* = clinched playoff berth)

Standings are determined by total points; teams earn two points for each win and one point for each game lost in overtime or in a shootout. Ties broken by fewer number of games played (i.e., superior points percentage), then by regulation wins (RW).

Portland Wins Third NWSL Title in 2022

The Portland Thorns claimed their third National Women's Soccer League title on Oct. 29, shutting out the Kansas City Current, 2-0, at Audi Field in Washington, DC. Portland's 22-year-old forward Sophia Smith scored 4 min. into the title game and was named season and NWSL final MVP. The Thorns were one of the teams named in an investigation made public earlier in Oct. that found "systemic abuse and misconduct" in the NWSL and across women's soccer. The league announced that it would implement the report's recommendations concerning those allegations dating back to 2014.

U.S. Wins 2019 Women's World Cup

The U.S. women's national soccer team won the 2019 FIFA World Cup with a 2-0 victory over Netherlands July 7, 2019, at Stade de Lyon in Lyon, France. Held scoreless for the first hour of the final, the U.S. scored in the 61st minute, a penalty-spot goal by 34-year-old standout Megan Rapinoe, followed by midfielder Rose Lavelle's low shot for a second goal less than 10 minutes later. Rapinoe won both the Golden Ball award as the tournament's top player and the Golden Boot award as its top scorer. Alex Morgan, who tied Rapinoe with six goals and three assists in the tournament (Rapinoe led in minutes-per-goal), won the Silver Boot. Dutch goalie Sari van Veenendaal claimed the Golden Glove as the best goalkeeper in the competition.

The U.S. team, led by coach Jill Ellis, scored 26 goals—a tournament record that also included a 13-0 record win over Thailand

in their first game of the tournament—and never fell behind in any of their seven 2019 World Cup matches.

Australia and New Zealand are scheduled to jointly host the 2023 FIFA World Cup, July 20-Aug. 20, with an expanded slate of 32 teams.

France Wins 2018 FIFA Men's World Cup

France won its second FIFA World Cup men's soccer title with a 4-2 victory over Croatia, July 15, 2018, at Luzhniki Stadium in Moscow, Russia. Les Bleus scored first on a free kick by Antoine Griezmann, ruled an own goal by Croatia's Mario Mandzukic after he deflected the ball into Croatia's net. The new Video Assistant Referee (VAR) technology was used for the first time at the 2018 Men's World Cup tournament. When a video review confirmed a handball by Croatia's Ivan Perisic, France was awarded a penalty kick, which Griezmann converted to give Les Bleus a 2-1 lead. France added second-half goals by Paul Pogba and 19-year-old Kylian Mbappé—who became the first teenager to score a goal in a World Cup final match since 17-year-old Pelé in 1958—for a final score of 4-2, making it the highest scoring men's World Cup final since 1966.

Les Bleus goalkeeper and team captain Hugo Lloris recorded a pair of clean sheets en route to the finals, eliminating Uruguay in the quarterfinals, 2-0, July 6. Samuel Umtiti scored the only goal of the match in France's 1-0 semifinal win over Belgium, July 10. The Belgian squad won the third-place match, 2-0, against England, July 14 at St. Petersburg Stadium.

Croatia reached its first-ever World Cup final when Mandzukic scored in the 109th minute to defeat England, 2-1, in extra time in the semifinals, July 11. After playing to a 2-2 tie through extra time, Croatia won on penalty kicks, 4-3, defeating host Russia in the quarterfinals on July 7 at Fisht Stadium in Sochi.

England reached the semifinals for the first time since 1990. The Three Lions shut out Sweden, 2-0, in the quarterfinals July 7 at Samara Arena in Samara before their semifinal loss to Croatia. Defending champion Germany managed just one group match

victory, 2-1, over Sweden June 23 at Fisht Stadium and failed to move on.

England's Harry Kane topped all scorers in the tournament with six goals and won the Golden Boot award. Veteran Croatia midfielder Luka Modric was voted the best player of the competition, taking home the Golden Ball award.

UEFA European Football Championships, 1960-2020

Italy claimed the Euro 2020 title with a 3-2 penalty shootout victory over England at London's Wembley Stadium July 11, 2021. The victory was Italy's first European Championship since 1968, while England, playing in its first-ever Euro final, became the second straight team to lose the Euro final on its own soil. The 90,000-seat Wembley Stadium was at three-fourths capacity due to pandemic restrictions. Delayed until 2021 due to the COVID-19 pandemic, the Union of European Football Associations (UEFA) European tournament was nevertheless referred to as "Euro 2020."

Eleven different countries hosted 51 matches among the 24 entrants starting June 11. Italy's goalie Gianluigi Donnarumma was named player of the tournament, marking the second time the award went to a goalkeeper. Italy reached the final by winning a shootout

against Spain; England defeated Denmark in the other semifinal in extra time, 2-1, on a goal by Harry Kane.

Note: Two jockeys have won the Kentucky Derby five times: Eddie Arcaro and Bill

Hartack. Willie Shoemaker won four times. (1) Regret, Genuine Risk, and Winning Colors are the only fillies to have won the Derby. (2) Dancer's Image came in first but was disqualified by a drug test. All wagers were paid on Dancer's Image, but Forward Pass was awarded the first-place money. (3) Maximum Security came in first but was disqualified for interference following the race. (4) Medina Spirit came in first but was disqualified due to a positive post-race test for a banned substance; wagers were paid on Medina Spirit, but Mandaloun was awarded the first-place money.

(1) After Alekhine died in 1946, the title was vacant until 1948, when Botvinnik won the first world championship event sanctioned by FIDE. (2) Defaulted championship after refusing to accept FIDE rules for a championship match, Apr. 1975. (3) Kasparov broke with FIDE, Feb. 26, 1993. FIDE stripped Kasparov of his FIDE title Mar. 23. Kasparov defeated Nigel Short (UK) in a world championship match played Sept.-Oct. 1993 under the auspices of the Professional Chess Association (PCA), a new organization the two founded. FIDE held a championship match between Anatoly Karpov (Russia) and Jan Timman (Netherlands), which Karpov won in Nov. 1993. The PCA folded in 1995, but Kasparov was still considered the “classical” world champion. (That is, he defended his title against challengers; FIDE matches are arranged differently.) (4) In Nov. 2000, Kramnik defeated Kasparov for the classical world championship title. (5) Kramnik, the classical world champion since 2000, unified the chess titles by defeating Topalov on Oct. 13, 2006, at a world championship match.
